*This chart represents the possible combinations when cats of different breeds are bred together.

Registration Status Codes. A registration status code (or codes, in the instance of combined ancestry and hybridization record cats) shall be assigned to each cat registered by the association and will be indicated on the registration certificate.

The following codes apply to the FIRST TWO positions of the pedigree status code:

Stud Book Codes: SB - The cat has no cats which are unknown, unregistered, or of another breed or breed group within a standard three-generation pedigree.

Ancestry Record Codes:

1. O1 - The cat has at least one unknown or unregistered parent.
2. O2 - The cat has at least one unknown or unregistered grandparent.
3. O3 - The cat has at least one unknown or unregistered great grandparent.

Hybridization Record Codes:

1. AO - The cat is the product of two cats of different breeds.
2. BO - The cat has at least one grandparent of a different breed.
3. CO - The cat has at least one great grandparent of a different breed.

The following codes apply to the THIRD position of the pedigree status code:

Codes:

1. T - (Traditional) - Only the breed in question within a three-generation pedigree.
2. V - (Variant) - Crosses outside the breed but within the group with a three-generation pedigree.
3. P - (Permissible) - Crosses outside the breed or breed group which are permitted by the breeding program which has been established for the breed.
4. N - (Non-Permissible) - Crosses outside the breed or breed group which are not among those which are specifically allowed by the breeding program which has been established for the breed.

THAI BREED PREFIXES

Standing Rule 306.8.3 The P designation will be used to indicate crosses between members of a breed group and a breed outside the breed group which have been granted a one -way exception by the Board of Directors.

Standing Rule 306.8.3.1

Registration Prefixes and Breeds of Parent and the Prefixes of their THAI Kittens
