Greetings to my fellow TICA Ragdoll Breed Group,

As a current member of the TICA Ragdoll Breed Committee, and for the last 3 terms, I have been proud and honored to work for you, the Ragdoll breed group. I believe, especially, this last Breed Committee term brought desired communication between committee & breed group that we all want. This committee worked hard together to find wording for our updated standard that would be most accurate to describe the perfect blue-eyed pointed Ragdoll and accepted most widely by the group majority. I believe the vote & acceptance of all standard updates by the breed group is the vote of confidence of a job well done. This current committee worked extremely well together.

Now, the next committee term needs to update the Ragdoll Breed Seminar to match the updated Standard. I would be honored & love to be a part of this new Ragdoll Breed Committee to update the Seminar. Then, let's put this new seminar to work, with committee & breed group members, alike, giving seminars at TICA shows to educate on our fabulous Ragdolls. I ask for your vote & hope to serve you, again.

Always here for you & our blue-eyed pointed Ragdolls,

Dana Pendergraph
