

Election: TV Breed Poll

Results by Question

Change the ear section of the Turkish Van breed standard.

Current

Ears: Moderately large to large, set fairly high and well apart; the inside edge of the ear is slightly angled to the outside with the outside edge fairly straight but not necessarily in line with the side of the face; wide at the base. Tips are slightly rounded. Insides should be well feathered.

Proposed change

Ears: Moderately large in proportion to the body. Set fairly high and well apart; the inside edge of the ear is slightly angled to the outside with the outside edge fairly straight but not necessarily in line with the side of the face; wide at the base. Tips are slightly rounded. Insides should be well feathered.
