INDEPENDENT AUDITORS' REPORT

Board of Directors
The International Cat Association, Inc.

We have audited the accompanying statement of financial position of The International Cat Association, Inc. as of June 30, 2006, and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of the Association's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The International Cat Association, Inc. as of June 30, 2006, and the changes in its net assets and cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Cash and cash equivalents, beginning of year	<u>280,021</u>
Cash and cash equivalents, end of year	<u><u>\$109,410</u></u>

The accompanying notes are an integral part of this statement.

THE INTERNATIONAL CAT ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2006

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The International Cat Association, Inc. (known as "TICA") was incorporated October 25, 1982 under the Texas Non-Profit Corporation Act, with its primary purpose being the promotion and dissemination of educational and scientific information on felines to the general public. The Board of Directors, comprised of a President and Vice-President, and Regional Directors, oversees the activities of the Association.

1. Basis of Accounting and Presentation

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, *Financial Statements of Not-for-Profit Organizations*. Under SFAS No. 117, the Association is required to report information regarding its financial position and activities according to three classes of net assets; unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

2. Revenue Recognition

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions. Contributions received with donor-imposed restrictions that are met in the same year in which the contributions are received are classified as unrestricted contributions.

All donor-restricted contributions are reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. No activity was temporarily or permanently restricted during the year ended June 30, 2006.

THE INTERNATIONAL CAT ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2006

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

3. *Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

4. *Concentrations of Risk*

Concentrations of Risk Due to Temporary Cash Investments and Trade Accounts Receivable

Financial instruments that potentially subject the Association to concentrations of risk consist principally of temporary cash investments and trade accounts receivable. The Association places its temporary cash investments with financial institutions and limits the amount of credit exposure to any one financial institution. Concentrations of credit risk with respect to trade accounts receivable are limited due to the large number of members comprising the Association's membership and their dispersion across different geographic areas.

Concentration of Risk Arising from Cash Deposits in Excess of Insured Limits

The Association maintains cash balances with high quality credit institutions. At times such cash and investments may be in excess of the FDIC insurance limit.

5. *Income Taxes*

For all periods presented, income taxes are calculated using the liability method in accordance with the provisions set forth in Statement of Financial Accounting Standards (SFAS) No. 109. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus that change during the period in deferred tax assets and liabilities.

THE INTERNATIONAL CAT ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2006

NOTE A - SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Inventories

Inventories of supplies for resale as of June 30, 2006, is stated at principally the lower of cost or market. Cost is determined on the first-in, first-out basis.

7. Property, Plant and Equipment

Property, plant and equipment acquisitions have consistently been recorded at cost if purchased or fair value at date of gift if donated. Major renewals and improvements which extend the life of an asset or benefit one or more subsequent periods are capitalized. Replacements, maintenance, and repairs which do not extend or improve the life of existing assets are charged against income in the period incurred. When properties or equipment are retired or otherwise disposed of, the property and related accumulated depreciation accounts are relieved of the applicable amounts. Gains or losses from normal retirements or sales are credited or charged to income.

8. Depreciation

Equipment and furniture are being depreciated using the straight-line method over their estimated useful lives, ranging from 3 to 10 years. Depreciation expense totaled \$23,505 for the year ended June 30, 2006.

9. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Association considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents.

10. Non-Profit Status

The Association has adopted the policy that no member shall personally profit from the operations of the Association except the reasonable compensation for services actually rendered by officers and employees of the Association.

11. Prepaid Expenses

Prepaid expenses are advance payments for products or services that will be used in operations at some future period.

THE INTERNATIONAL CAT ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2006

NOTE A - SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. Credit Memos

Credit memos are generated when customers overpay for services or remit payment for registrations that are pending approval or require documentation. The credits are reduced when customers are refunded or once required documentation is received and the registration is granted.

13. Notes Payable

The notes payable are related to capital leases. The notes are payable to Pitney Bowes, Inc. and the implied interest rate on both notes is 7%. See note fourteen relating to the capital leases.

14. Capital Leases

As of September 7, 2005, TICA entered into a seventy-two month lease with Pitney Bowes, Inc. for a folding machine. The lease has been classified as a capital lease because the lease term exceeds 75% of the estimated economic life of the asset. Therefore, the present value of the monthly lease payments has been capitalized as a fixed asset with an associated note payable. The implied interest rate is 7%. The monthly payments on the lease are \$655.

As of June 23, 2005, TICA entered into a sixty-nine month lease with Pitney Bowes, Inc. for a postage machine. The lease has been classified as a capital lease because the lease term exceeds 75% of the estimated economic life of the asset. Therefore, the present value of the monthly lease payments has been capitalized as a fixed asset with an associated note payable. The implied interest rate is 7%. The monthly payments on the lease are \$675.

NOTE B - EMPLOYEE BENEFIT PLAN

TICA has a defined contribution retirement plan covering all employees who have worked there longer than one year. Under the plan, TICA will match an employee's salary deferral contributions up to a maximum of 3% of the employee's compensation. Under the Internal Revenue Code, the plan is referred to as a Savings Incentive Match Plan for Employees.

Board of Directors
The International Cat Association, Inc.

In planning and performing our audit of the financial statements of The International Cat Association, Inc. for the year ended June 30, 2006, we considered the Association's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provided assurance on internal control.

However, during our audit, we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. This letter does not affect our report dated October 9, 2006, on the financial statements of The International Cat Association, Inc.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Association personnel, and we will be pleased to discuss these comments in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

We would also like to take this opportunity to express our sincere appreciation to Leslie Bowers and Vickie Fisher for their assistance and cooperation extended to us during our audit.

Chidester, Marlow & Hamby, LLP
November 7, 2006

COMMENTS AND OBSERVATIONS

The following comments and observations came to our attention during our audit of The International Cat Association's financial statements for the year ended June 30, 2006.

YEARBOOKS

The Association sells yearbooks for approximately 50% of cost. This practice generates a significant loss to the Association.

EXCESSIVE OVERTIME

Salaries and wages increase by \$37,616 from the prior year. According to Leslie Bowers, this is primarily due to increased overtime.

FILING SYSTEM

During expense testing, we were unable to find original invoices easily. We recommend a better filing system, such as alphabetically by vendor.

BOOKKEEPING

We spent significant time cleaning up your books. You need to do a better job of reviewing your financial statements periodically throughout the year so that all the adjustments do not have to be made by the auditors at year end.

2009	Spring				
2009	Annual	SE	Orlando, FL	08/30-09/02/09	

109.1 Annual Convention.

109.1.1 Annual Convention. Labor Day weekend each year is reserved for the Annual Convention. No other shows may be held the weekend of the Annual Convention with the following exception. A club may receive permission to hold a show on the Annual weekend upon application to the Board. Application must state specific reasons for the request for exemption and why such a show would have no impact on the Annual.

109.1.1.1 The rotation for the Annual Conventions shall be: Mid Pacific - 2010, Great Plains - 2011, Mid Atlantic - 2012, Great Lakes - 2013, Northwest -2014, Northeast - 2015, International - 2006, Southwest - 20177, South Central - 2008, Southeast - 2009.

109.1.1.2 Proposals to host the Annual Convention in the designated region must be received for the Annual Meeting 3 years prior to the proposed convention.

109.1.1.3 In the event no club submits an acceptable proposal, any club in any region may submit a proposal to host the Annual Convention by the agenda deadline for the Semi-Annual Meeting 2½ years prior to the convention and a notice soliciting such proposals shall be published in the TICA TREND.

109.1.1.4 The subsequent designated order of rotation will remain the same.

109.2 Meetings of the Board.

109.2.1 All Board Meetings shall be scheduled for a minimum of 2 days.

109.2.1.1 Meetings of the Board shall be the fourth full weekend in January (Winter Meeting, the third full weekend in May (Spring Meeting) and the week immediately preceding Labor Day weekend (TICA Annual).

109.2.1.2 The Winter Meeting shall be held in Harlingen TX without a show OR at a location outside the United States in conjunction with a show, approved by the Board.

109.2.1.3 The Spring Meeting shall be held in the United States, rotating from Central to West to East, with or without a show. The meeting venue must be at or near a major international airport at a hotel with adequate meeting space, full restaurant service and airport shuttle.

109.2.1.4 The Winter and Spring meeting locations shall be selected by the Board without

consideration of accompanying show.

109.2.1.5 Minutes of all meetings of the Board of Directors shall be completed within 10 working days following the meeting.

Corrections to the Minutes (2006 Annual)

1. Unanimous consent 41 requested by Barrett to accept amendment By-Laws 123.1.9 and 123.1.10 with the change of "may" to "shall" as shown below. Without objection.

Amend By-Laws 123.1.9 and 123.1.10 (Board request)

123.1.9 Distinguished Judge. An honorary title of Distinguished Judge which shall be granted to any judge with 25 or more years of judging experience as a licensed TICA judge and who has attained the status of Approved Allbreed Judge. To retain the title of Distinguished Judge, the judge MUST lead a judges' conference or breed seminar, or conduct a judging school or genetics seminar (if qualified) at least once every 2 years. A Distinguished Judge is exempt from other CEU requirements and license fees; however, they must complete the refresher test and record form.

123.1.10 Judge of Merit. An honorary title of Judge of Merit which shall be granted to any judge with at least 20 years of judging experience as a licensed TICA judge ~~and who has attained the status of Approved Allbreed Judge.~~ Judges of Merit shall meet all requirements for re-licensing, including license fees, refresher test, record form and CEU requirements; Judges of Merit are encouraged to lead a Judges' Conference or Breed Seminar, or conduct a Judging School or Genetics Seminar (if qualified), and if they do so, no further CEU's shall be required for that year.

Total Cost:	\$41,737.56	\$49,513.92	\$50,115.27
Average Per Copy Cost:	\$2.17	\$2.45	\$2.64

In the above comparison better: The first four issues of Volume 25 (2004) were published with non-glossy paper for the inside pages; every issue after that had the inside pages published on glossy paper.

I was asked to provide information on what it would cost if we returned the inside pages of the TICA Trend to the cheaper and lighter weight non-glossy paper we used prior to the October/November 2004 TICA Trend.

The best information I can give you is what actually we paid the final six issues (one year) when we published the inside pages of the TICA Trend on the cheaper non-glossy paper.

Yours,
Cathy Welch
TICA Trend Editor

Place discussion of club CLUB FELIN DU QUEBEC and show of November 25-26, 2006 on agenda for 2007 Winter Meeting.

Kay DeVilbiss

January 9, 2007

TO: Board of Directors, TICA, Inc.,

I hereby request the Board of Directors establish a "Who's Who" category or program designed to recognize TICA members for outstanding achievements in support of our Association. At this juncture we have TICA Treasure, Hall of Fame, Judge of the Year, Judge Emeritus, Distinguished Judge and Judges of Merit, Regional Members, Junior Members, and Humanitarian of the Year; Cat, Kitten, Alter, Household Pet, and Household Pet Kitten of the Year; Catalog of the Year, Regional Clerk of the Year, etc., etc.,.

The above requested program is an attempt to bring to the fore-front the long time supporters that only see their name on a Show Flyer as Show Manager, Secretary of Entry Clerk, on the Exhibitors List, recognition on the Annual Awards or when they are paying for registering their cats, confirming titles, renewing various causes. I'm really thinking about the dozens of members that work tirelessly in support of our Association throughout the years that are seldom recognized for all their dedication, their financial and moral support.

In conjunction with this request, I respectfully submit the following criteria be approved and included in our official publications:

I. To even be considered for this achievement the application must be in writing, with all verified documentation included; the recipient must be a current member, have a TICA Registered Cattery, and have accumulated 500 or more points, acquired by any or all of the following;

a. One point for each year they are a TICA member (this number must be accumulated without any interruptions);

b. Ten points for any of the following:

1. Charter Member; 2. Life Member; 3. TICA Registered Cattery (CANNOT BE considered without a TICA Cattery); 4. Each Kitten, Alter, HHPK or HHP featured in the Top 20 International Awards; 5. Each Annual Show & Awards ceremony they have attended; 6. Each show they have managed; 7. Have served on a TICA Standing Committee for a three year term; 8. Have served as an Appointed Official for a three year term, and 9. Have served on an Ad Hoc Committee for the time the committee is required.

Page 2 "Who's Who"

c. Two points for any of the following:

1. Each five years serving as a licensed clerk; 2. Each five years they have served as a Master Clerk; 3. Every litter they have bred and registered; 4. Every cat they have registered in their name; 5. Each three year term they have served on a Breed/Breed Group committee; 6. Each year they have served as Breed/Breed Group Committee Chair exhibitor; 7. Each show they have attended as an exhibitor; and 8. Each year served as a Deputy Regional;

d. One point for any of the following:

1. Regional Member of the Year; 2. Regional Clerk of the Year; 3. Regional Exhibitor of the Year; 4. Regional Humanitarian, 5. Regional Sportsman, 6. Regional Newcomer.

There may be other areas for recognition that I have overlooked or failed to consider. I would be amenable to any suggestions or any input you may have.

Sincerely,

GEORGIA MORGAN
President Emeritus

Judging Program (Board Referral)
Judge Emeritus

Motion 6 at the Annual Meeting in Hannover to bestow the title of Judge Emeritus on Rene Copeland, Deborah Reed, Carol Barton and Marge Hanna was deferred to the Winter Meeting asking the Rules Committee to establish guidelines for the title of Judge Emeritus.

What the Rules Committee found is the following:

1) Standing Rules already exist establishing guidelines for selecting a retired judge for the honorary title of Judge Emeritus.

1023.1.8 Selection of a retired judge for the title of "Judge Emeritus" should be guided by the following criteria:

1023.1.8.1 Years of Service.

1023.1.8.2 Overall contributions to TICA (i.e. clerking program administrator, legal counsel, etc.)

1023.1.8.3 Overall contributions to the Cat Fancy (i.e. humanitarian endeavors, publications, etc.).

1023.1.8.4 Any other considerations deemed worthy by the Board of Directors.

2) There is a conflict between By-Law 123.1.8 and Judging Program 414.1 and 414.2.

The Judging Program states:

414.1 All judges actively engaged in judging, including all Distinguished Judges and Judges of Merit, and all trainees shall be required to take an annual refresher test, which must be returned to the Judging Administrator/Designee with a postmark, fax or email date NO LATER THAN June 30th of each year. The test must be passed with a score of 95 percent or higher.

414.2 All judges and trainees must accumulate six CEU's each show season, with the exception of Judges Emeriti. Once every 2 years Distinguished Judges must lead a judges' conference or breed seminar, or conduct a judging school or genetics seminar (if qualified). Each year Judges of Merit who lead a judges' conference or breed seminar, or conduct a judging school or genetics seminar (if qualified), shall be considered to have met the annual CEU requirement.

The By-Law states:

123.1.8 Judge Emeritus. A retired judge who may be accorded the honor for outstanding service as a judge to this Association and to the cat fancy in general. An honorary title bestowed on Judges who are retired from judging. Judges Emeriti who wish to judge any shows must be TICA members in good standing. Judges Emeriti are exempt from license fees, refresher tests, record forms and CEU's.

PROPOSAL

In order to correct the discrepancy between the Judging Program and the By-Law, the following amendments are proposed:

Amend By-Law 123.1.8 as follows:

123.1.8 Judge Emeritus. A retired judge who may be accorded the honor for outstanding service as a judge to this Association and to the cat fancy in general. An honorary title bestowed on a *judge who is retiring from judging*. A *Judge Emeritus* is exempt from license fees, record forms, CEUs AND is exempt from the annual Refresher Test UNLESS that judge is actively judging.

Amend Judging Program 414.1 & 414.2 as follows

414.1 All judges actively engaged in judging, including ~~all~~ Distinguished Judges, ~~and~~ Judges of Merit, *any Judge Emeritus still judging*, and all trainees shall be required to take an annual refresher test, which must be returned to the Judging Administrator/Designee with a postmark, fax or email date NO LATER THAN June 30th of each year. The test must be passed with a score of 95 percent or higher.

414.2 All judges and trainees must accumulate six CEU's each show season, with the exception of a *Judge Emeritus* ~~Judges Emeriti~~. [Balance to remain the same]

Amend Judging Program 49.1.5 (Guest Judges Committee)

Replace 49.1.5 to read as follows:

A judge approved to serve as an International Guest Judge in a TICA show may judge in this capacity a maximum of 4 times.

Rationale: Prevents guest judges from taking assignments that should rightfully be given to TICA licensed judges.

Amend Judging Program ARTICLE TWELVE - *Continuing Education* (Housekeeping)

Note: The change in 412.2.2 was submitted by Schiff

NOTE: The only changes to this article are indicated by italics for additions and strikethroughs for deletions. All other items are in the current article, but simply broken down and renumbered for simplicity of reading.

412.1 With the permission of the show management and the officiating judge, anyone participating in the Judging Program is encouraged to handle breed(s) and/or color(s) as a training session for the purpose of gaining more knowledge.

412.2 A CEU is a Continuing Education Unit. One hour of instruction equals one CEU. No more than six CEUs shall be granted for any session.

412.2.1 Six annual CEUs must be ~~accumulated~~ earned by attending one or more of the following during each show season: judging school, breed seminar, genetics seminar, judges' conference or workshop. The Judging Administrator may award CEUs for other cat fancy activities at his/her discretion (such as, but not limited to, writing articles in feline publications, translating TICA material, or attending feline health seminars).

412.2.2 *People in the Judging Program actively serving on one of the following Committees shall be awarded 4 CEUs per show season for such committee service: Genetics, Governance, Legislative, Rules, Judging (exam authors, exam graders, etc.)*

412.3 Judges and trainees must earn CEUs.

412.3.1 A Judge Emeritus (JE) is exempt from the CEU requirement.

412.3.2 A Distinguished Judge must lead a judges' conference or breed seminar, or conduct a judging school or genetics seminar (if qualified) ~~at least~~ once every 2 years. *No further CEUs shall be required for this time period.*

412.3.3 A Judge of Merit is encouraged to lead a judges' conference or breed seminar, or conduct a judging school or genetics seminar (if qualified) *each show season*. If he/she does so, no further CEUs shall be required for that ~~year~~ *show season*. *Otherwise, the Judge of Merit must earn 6 CEUs.*

412.3.4 Licensed Ring Instructors may ~~receive~~ earn 1 CEU ~~credit~~ for conducting a ring training session. ~~(1 hour CEU for each completed training session, with~~

412.3.4.1 A maximum of three CEUs may be earned in this manner ~~annually~~ *each show season*).

412.4 Conducting or moderating any of the above schools, seminars, conferences or workshop sessions satisfies the requirement of attendance.

412.4.1 Licensed School or Licensed Genetics Instructors shall earn 1.5 CEU's for each hour of instruction in a Judging School/Workshop or a Genetics Seminar.

~~412.4.2 All senior Allbreed Judges are encouraged to participate by conducting seminars.~~

412.4.2 The instructor or moderator shall send a typed/printed attendance list along with attendees signatures and summary of what was covered to the Judging Administrator/Designee within 1 month following the session.

412.5 Any judge may earn CEU credit for conducting a Clerking School. A maximum of two CEU's may be earned in this manner annually.

412.5.1 Judges are encouraged to clerk at TICA shows; however, no CEUs are earned by clerking.

Rules Comments:

BT: I think 2 CEUs earned for working on committees are more in order. My concern is that we are now giving CEUs for everything and anything when it was supposed to be for continuing education...if a judge can earn all of their CEUs by other means, why do we require CEUs? Think about making it mandatory that some part of the CEU requirement must come from education.

Amend ARTICLE THIRTEEN - Schools, Seminars and Workshops (Housekeeping)

NOTE: The only changes to this article are indicated by italics for additions and strikethroughs for deletions. All other items are in the current article, but simply broken down and renumbered for simplicity of reading

413.1 A minimum of 2 working hours is required to earn attendance credit for a breed seminar, genetics seminar, or judges' conference. A minimum of 3 working hours is required to earn attendance credit for a judge's school. ~~Workshops and other Mini-seminars~~ may be 1 working hour in length. A maximum of 6 hours credit will be given for any one school, seminar, or symposium. ~~or workshop.~~

413.2 Schools, seminars and workshops can be held at any time or any place convenient to organizers, instructors and attendees, with arrangements made by a club or individual directly with the instructor. Formal/organized schools, seminars and workshops are STRONGLY encouraged, rather than informal, impromptu gatherings.

413.2.1 "One-on-One" sessions are allowed ONLY in special circumstances; i.e., when a trainee has been given prior approval by the Judging Administrator/Designee to gain additional knowledge regarding a specific breed (or breeds) and/or if an Approved Allbreed Sponsor requests that a trainee participate in a "one-on-one" session. Only 1 CEU ~~hour~~ per year show season may be ~~accumulated~~ earned by any judge or trainee for a "one-on-one" session. ~~The one CEU hour credit for a "one-on-one" session MAY NOT be counted in addition to a ring training session on the same day.~~

413.3 Schools, seminars and workshops do not need to be advertised in advance. It is, however, suggested that the proposed date and location be sent to the Judging Administrator/Designee well in advance of the session.

413.4 The organizers may charge a reasonable fee for attendance.

413.4.1 A \$50 honorarium should customarily be offered to the instructor, conductor or moderator.

413.5 Attendance at judging schools, breed seminars or genetics seminars is open to anyone.

413.5.1 Attendance at judges' conferences is restricted to those in the Judging Program.

413.6 Judging schools are conducted by licensed school instructors.

413.6.1 Topics addressed at judging schools can be anything related to procedures, techniques, standards and rules of judging. Upon request, the Judging Administrator/Designee will provide suggested guidelines for conducting a school.

413.7 Genetics seminars are conducted by licensed genetics instructors.

413.8 Credit may also be given by the Judging Administrator on a case by case basis for schools, seminars, courses or symposia hosted by other organizations. Advance approval from the Judging Administrator/ Designee is required.

413.9 Breed seminars are ~~conducted~~ *moderated* by any Approved Allbreed judge. Upon request, the Judging Administrator/Designee will provide suggested guidelines for conducting a breed seminar.

413.10 Judges' conferences are moderated by any Approved Allbreed judge. Upon request, the Judging Administrator or Judging Administrator Designee will provide suggested guidelines for conducting a conference.

413.10.1 Judges' conferences shall be considered a private gathering, a meeting ground where participants may speak openly and freely among themselves without consequences.

413.10.2 The minutes or summary of a judges' conference are not to be published or sent to anyone other than the Judging Administrator or Judging Administrator Designee. The Judging Administrator may publish in the Judges Newsletter subject matter from the judges conference which, in the opinion of the Judging Administrator, would be of constructive interest to participants in the Judging Program, but participants' privacy will be protected.

413.10.3 *No more than 2 CEUs may be earned for a Judges' conference in any show season.*

413.11 Workshops are conducted by any Approved Allbreed judge who has obtained advance permission from the Judging Administrator/ Designee or the Board of Directors.

413.11.1 The purpose of a workshop is to provide in-depth, intensive training to all applicants and participants in the Judging Program.

413.11.2 Workshops may be several days long, and must consist of a minimum of 6 working hours per day.

413.11.3 Workshops may be arranged with the help of the Judging Administrator/Designee or the Board of Directors, which may appoint a Workshop Coordinator.

~~413.11.4 International workshops may be held in any country, including the United States and Canada.~~

413.11.4 Topics addressed should be breed standards, Show Rules, By-Laws, Registration Rules, clerking, genetics, colors, patterns, divisions and/or any other information that would be beneficial to the attendees.

Amend Registration Rules (Housekeeping)
Definitions

33.1.2 *Domestic Hybrid Breed* - A breed developed from a deliberate cross between two existing *domestic* breeds, incorporating characteristics of both parental breeds into the new breed.

33.1.3 *Domestic x Non-Domestic Source Species Hybrid Breed* - A breed being developed by means of deliberate foundation crosses between domestic cats and a single non-domestic source species.

- 33.1.4 Native New Breed
- 33.1.5 Mutation Breed
- 33.1.6 Experimental Breed

33.1.7 *Household Pet* - A household pet which has been altered shall be accepted for registration regardless of ancestry or phenotype (appearance).

NOTE: 33.1.7 was in the Registration Rules as Article III, Section 1b in the 1999 rules. In converting from the old numbering system to the current numbering system, this appears have to have been omitted. In past minutes, there has been no Board action to delete this definition.

Add Show Rule 29.2.4 (Board Directive)

Add Show Rule 29.2.4 as follows:

Entry Clerks may, with the permission of the show management, release information about the cat count. However, if such information is released, it must be provided to anyone who inquires about the cat count. Entry clerks shall not release the names of exhibitors or of individual cats entered in the show.

Add Standing Rules 307.4.3, 307.5.1 & 307.6.1

Add Standing Rules 307.4.3, 307.5.1 and 307.6.1 with the following wording:

Option 1.

A breed requesting an outcross that is part of a breed group must specify whether it wants to include only that breed, or the entire breed group.

OR

Option 2.

An outcross to a specific breed includes only that breed, and not the entire breed group. An outcross which intends to include an entire breed group must so indicate.

Comments:

Each breed in a breed group is a separate breed. The breed group concept is to allow breeds of like type to breed together without having to deal with permissible or non-permissibles...and to accept the progeny as what they look like...i.e. pointed, non-pointed, longhair, shorthair, etc. It is perfectly logical to accept one breed from a group without having to accept the entire group. A single breed may be just what is needed...not the whole group package.

TICA has many breeds where something is carried that is not accepted for showing. We don't require everything to be accepted for showing just because it may appear in a litter.

Add Standing Rule 307.6.4

Add 307.6.4

For registration as a non-domestic source species hybrid, a first generation hybrid must have one parent that is a non-domestic source species.

Comments:

The domestic breeds that are accepted as permissible outcrosses are for the purpose of being bred to the wild source species or the specific wild hybrid (for example, a Serval bred to a domestic shorthair or a Savannah bred to a domestic shorthair). Two domestics that are considered permissible outcrosses are not intended to be bred together to create a non-domestic source breed hybrid. A non-domestic species hybrid is not created in the same way as a domestic hybrid. A Siamese bred to a Burmese creates a Tonkinese. An Egyptian Mau bred to a Domestic Shorthair DOES NOT create a Savannah. A non-domestic source species is REQUIRED to create a first-generation non-domestic hybrid.

Amend Standing Rules 2013

2013.1 Permission to Judge. A TICA judge may judge any TICA show any place at any time. Only Allbreed judges may judge non-TICA shows ~~outside the United States and Canada~~ as *guest judges*.

2013.1.1 International Assignments. TICA Allbreed Judges invited to judge non-TICA shows as *guest judges* shall advise the Judging Administrator.

2013.1.2 *A TICA judge, in addition to being licensed by TICA, may be licensed by any Traditional Association [affiliated with the World Cat Congress or other independent Traditional Associations] and may judge as a Traditional judge for that association.*

Rationale: The above proposed changes bring equality to all TICA judges. Currently, only judges outside of North America can be licensed by and judge for Traditional Associations.

Clerking Manual Addition

Add to Clerking Manual the following:

51.2.4.4 Entry Clerk

51.2.4.4.1 Eligibility for entrance in the Entry Clerk Program is current membership in TICA.

51.2.4.4.2 Each applicant must submit documentation of the following to the Clerking Administrator

51.2.4.4.2.1 Attendance at an entry clerking seminar

51.2.4.4.2.2 Served as an entry clerk for a minimum of two shows. The applicant must submit favorable evaluations from each show signed by the show manager stating that the catalog was accurate, that the benching was done accurately, that a late entry page was printed (if appropriate), that all entries were printed in the Judges' Books and that all entry fees were properly accounted for.

51.2.4.4.2.3 The applicant must pass an entry clerk examination with a minimum score of 90%.

TICA Entry Clerking Program Specifications

This document defines the minimum requirements needed for an Entry Clerking program to be listed by TICA. Clubs and Entry Clerks will be encouraged to use only TICA-listed Entry Clerking programs. Within this specification, all requirements are mandatory unless clearly marked as “desirable”.

1. **Basic Program Specifications.** Each listed entry clerking program:

1.1 Must run on currently supported Microsoft Windows operating systems. Support of other operating systems such as Mac OS, Linux, or others will give the program additional platform support, but is not required for listing by TICA.

1.2 Installation, if required, should be handled via a wizard or other method requiring little detailed system knowledge on the part of the user.

2. **Input Requirements.** A listed Entry Clerking program must handle the following input conditions:

2.1 Must accept data for all information required by the TICA rules to be provided in the catalog, judges books and any other material as follows:

2.1.1 Breed (or Household Pet)

2.1.2 Hair length

2.1.3 Color

2.1.4 Sex

2.1.5 Titles

2.1.6 Awards (LA, IW, RW, OS, OD)

2.1.6 Birth date

2.1.7 Days that the entry will be shown

2.1.8 Name

2.1.9 Registration number

2.1.10 Sire (except for Household Pets and Household Pet Kittens)

2.1.11 Dam (except for Household Pets and Household Pet Kittens)

2.1.12 Breeder (except for Household Pets and Household Pet Kittens)

2.1.13 Owner

2.1.14 Lessee

2.1.15 Agent

2.1.16 Region

2.1.17 If the cat is exhibition only

2.1.18 If the cat is for sale

2.1.19 Exhibitor's name and postal mailing address (this will be entered one time for all entries by this exhibitor). Sufficient space must be available to handle international addresses.

2.1.20 Program must calculate the cat's age based on the birth date and show date or dates.

2.1.21 (Desirable) Program should flag if the birth date and registration number birth date information does not match. (For example, a birth date of 01/01/01 and a registration number of SBT 011001 001.) Additional information on permitted registration codes for breeds is in Standing Rules 307.

2.2 Must flag and/or refuse incorrect information. This includes:

2.2.1 Invalid date entries including:

2.2.1.1 Birthdates in the future or birthdates that do not match the class (birthdates that make a cat too young or old to be a kitten or adult)

2.2.1.2 Calendar dates that do not exist (for example, February 30 or February 29 in a non-leap year).

2.2.1.3 (Desirable) Flag unreasonable dates such as a cat that is 30 years old

2.2.2 Invalid award entries – Only one of the following may be specified: LA, IW, RW.

2.2.3 Invalid titles or regions – See Standing Rules 207.1 and 1012.1.

2.2.4 OS/OD specified for the wrong sex cat. (OS must be a male/neuter and OD must be a female/spay.)

2.2.5 Must limit use of breeds, divisions, and colors to those approved for each breed as documented in the Registration Rules, Uniform Color Descriptions and Breed Standards.

2.2.6 Must allow non-accepted colors in accepted breeds to be entered as New Traits

2.2.7 (Desirable) Question if hair length and breed do not match and suggest moving to New Traits. For example, an American Shorthair entered as a longhair.

2.2.8 Must flag invalid registration number formats. Valid formats are: xxx xxxxxx xxx for pedigreed cats and xx xxxxxx xxx or xx xxxxxx xxxx for Household Pets.

2.3 Must handle cats that change class over the course of a show weekend. For example, a kitten on Friday and an adult on Saturday and Sunday.

2.4 Must handle entries participating in less than the full show weekend. For example, a cat entered for Saturday only.

2.5 Must be able to handle the following show formats:

- 2.5.1 Alternative format 1 or 2 days
- 2.5.2 Back to Back Format 2 or 3 days
- 2.5.3 Continuous (Split) Format 1,2, or 3 days

2.6 All field lengths, such as cat names, must match those used by the TICA Executive Office programs. **NOTE: We need to specify what these are here or reference where these can be found.**

2.7 Must provide for the maximum number of rings permitted in the rules. See Standing Rule 202.2.4.4.

3. Output Requirements

3.1 Catalog – must produce results conforming to Article 2011 of the current Standing Rules and with Article Eleven of the Show Rules.

3.1.1 Must be able to produce a standard catalog for the use of exhibitors.

3.1.2 Must place entries in the appropriate competitive class:

- 3.1.2.1 Kitten
- 3.1.2.2 Cat
- 3.1.2.3 Alter
- 3.1.2.4 Household Pet Kitten
- 3.1.2.5 Household Pet
- 3.1.2.6 New Trait
- 3.1.2.7 Preliminary New Breed
- 3.1.2.8 Advanced New Breed
- 3.1.2.9 Exhibition Only

3.1.2.10 For Sale Only. If cat is in competition “For Sale” must be included as part of the appropriate class listing

3.1.2.11 Must group all cats of the same color together in sequence. Must then group all cats of the same division in sequence and then all cats of the same breed in sequence.

3.1.2.12 Standard TICA Entry numbering system must be followed. (See Standing Rules 2011.3)

3.1.3 Must have the ability to produce “late page” entries containing all the information in the standard catalog.

3.1.4 Must assign entry numbers to these late entries by adding numbers with an alphabetic suffix so that they are in the correct sequence within their color, division, and breed. For example, if there is a seal point Siamese alter entered as number 367 and a seal point Siamese alter is entered as a late entry it should be assigned the entry number 367A.

3.1.5 Must have the ability to handle a late entry that would precede entry number 1, and a late entry that would follow the last entry in a class (for example, a Tonkinese late entry which follows the last shorthair – a Sphynx #234 – could be numbered #235 rather than 234A).

3.1.6 Must be able to merge the regular and late entries to produce a consolidated catalog for use by the master clerk and Executive Office.

3.1.7 Must be able to support congresses by replicating entry information in separate congress sections of the catalog.

3.1.8 Must be able to print in portrait or landscape format. Shows over 14 rings must be landscape format at least for the master catalog to allow sufficient space for the master clerk to transcribe the show.

3.1.9 Must produce a format containing the cat’s entry information and a line for each judging ring. **(We probably want to include a full sample here.)**

3.1.9.1 Judges’ ring lines must be aligned in even columns.

3.1.9.2 Each day’s ring lines must be separated by at least one visible space. The cat’s entry information may be placed between the ring lines to separate 2 days. No more than 8 columns may be included without a space break. For example:

____ _ Fluffy of Cattery _____

or

Fluffy of Cattery _____

3.1.9.3 Font used must be easily readable for the average person.

3.1.9.4 If the font used is not a standard part of the supported operating system, the font must be shipped and installed as part of the entry clerking software.

3.1.10 Must include the appropriate number of division placement lines at the end of each division and the appropriate number of breed placement lines at the end of each breed.

3.2 Exhibitors lists

3.2.1 An alphabetical list by last name of exhibitors with postal mailing addresses including all catalog entry numbers and late entry numbers entered by each exhibitor.

3.2.1.1 (Desirable) This list may include e-mail addresses

3.2.2 An alphabetical list by last name of exhibitors with cat entry numbers only. This list is to be included in the exhibitor's catalog.

3.2.3 A late exhibitors list giving only an alphabetical list by last name of exhibitors, together with the associated late entry numbers, for those exhibitors who entered after the catalog was closed.

3.3 Judges books – must print on standard judge's book forms provided by the TICA Executive Office and in a format similar to that provided as a sample..

3.4 Exhibitor's confirmations listing cat entry information as it will appear in the catalog.

3.4.1 Program must be able to print confirmations to be mailed to the exhibitor.

3.4.2 (Desirable) An option to provide confirmations that can be sent by email

3.5 A summary of the number of cats entered by class, both longhair and shorthair, and congresses.

3.5.1 (Desirable) A breakdown of number entries by breed (or division for household pets) would be helpful for show scheduling purposes.

3.6 Must automatically put cats under 8 months of age in the kittens and household pet kitten classes as appropriate.

3.7 Catalog and judges books must conform to each other. Entry numbers and cat information must be the same in both.

4. Program Developer Requirements

If an Entry Clerking program is to be listed by TICA, the developer must agree to all of the following conditions prior to program validation by independent testers:

4.1 The developer provides written confirmation of the environment under which the program will run (Operating System, memory and disk space requirements for installation and operation) together with any restrictions (e.g. only certain models of printers supported).

4.2 The developer provides written confirmation to TICA certifying that the program has been formally tested against all mandatory input and output requirements listed in this Specification using test data and that all tests have been passed.

4.3 The minimum set of test data is the "mock show" information supplied by TICA (see Section 6). The developer is encouraged to add additional test data within their testing program.

4.4 The developer provides a contact point for support queries (email as a minimum and preferably a phone number), together with hours of coverage and the target response times for support queries.

4.5 The developer agrees to provide TICA on request with the test specifications, test data, test logs, and test outputs from their testing program.

4.6 The developer agrees to undertake regular updates to the program, at a minimum following rule changes by TICA, and to reconfirm in writing to TICA that the updated program still meets the requirements of 4.2 above.

4.7 The developer agrees to notify TICA when they are no longer prepared to undertake updates of the program. TICA may then remove the program from TICA's listed Entry Clerking programs.

4.8 The developer submits an application for certification to the TICA Executive Office and agrees to pay any reasonable charges required by TICA that reflect the cost of providing test data and associated TICA documentation. Upon receipt of the application and payment, the Executive Office will provide the program developer with the following:

4.8.1 Copy of the Entry Clerking Program Specifications

4.8.2 Document specifying field length requirements

4.8.3 Judges Book forms, sample pages from an acceptable catalog, and a sample judge's book

4.8.4 Show Rules, Standing Rules & Registration Rules

4.8.5 Test data as described in Section 6.

5. Program Validation Requirements

5.1 Testers shall be appointed by the Regional Directors. It is recommended that there be one Tester for each Region
5.1.1 A Tester must be willing to act as an entry clerk, using the program provided, for a mock show using mock show information (See section 6).

5.1.2 The program will be provided to the tester by means of a CD, a diskette, a URL or other electronic copy.

5.1.3 A Tester will contact the programmer/programming team for help with any problems encountered, keeping a record of any problems..

5.2 A Tester shall submit the following testing results to the Specifications Committee Chair:

5.2.1 A written report on the ease of use, problems encountered and compliance with the specifications for the program tested.

5.2.2 A written report on the responsiveness of the programmer/programming team to requests for assistance, if required.

5.2.3 Copies of the catalogs for the mock show

5.2.3.1 An exhibitor catalog with separate late pages, exhibitor list and late exhibitor list

5.2.3.2 A master catalog including merged late entries (to be used by the Master Clerk)

5.2.3.3 An exhibitor list including all regular and late entry numbers with exhibitor address information

5.2.4 Judges' Books for each day of the show.

5.2.5 Confirmations for all exhibitors

5.2.6 A summary of counts by class entered in the show

5.3 Once validated, the program will be listed for use as an approved Entry Clerking Program in accordance with 4.4 and 4.6.

6. Mock Show Specifications

6.1 Testers will be provided with a mock show to test any entry clerking program seeking listing. This will be in the form of the "show flyer" and a set of completed entry forms, which testers should use to enter data into their entry clerking program.

6.2 Testers will also be supplied with a copy of the TICA Standing Rules, Registration Rules and Show Rules and a blank set of pages for the judges books.

The mock show will have valid entries including the following:

6.3 At least one entry in all classes including both longhair and shorthair.

6.4 At least one "for sale" that is also entered in the show.

6.5 Enough entries to make the following break across page boundaries in the catalog:

6.5.1 Cats of the same color

6.5.2 Cats of the same division

6.5.3 Cats of the same breed

6.6 Entries entered less than the full number of days in the show:

6.7 Entry changing from kitten to adult over the weekend

6.8 At least one entry with no registration number or number pending

6.9 Obscure color or pattern entries. For example: seal silver lynx point and white Siamese.

The mock show will have incorrect entries including the following:

6.10 Incorrect colors or colors accepted by other associations where TICA calls the color something else. For example, Ebony Oriental, Platinum Mink Tonkinese.

6.11 Incorrect birth date.

6.12 Invalid date. For example, February 30, 2005

6.13 A date in the future. For example, February 2, 2019.

6.14 A date that makes the cat too young to compete

6.15 A date that seems unreasonable. For example, a date that makes the cat 30 years old should be allowed, but the user should be asked if this is correct.

6.16 Missing information

6.17 Registration numbers in the incorrect format

- 6.18 OS or OD on the wrong sex cat
- 6.19 Information that is too long to fit the field
- 6.20 Invalid region
- 6.21 Invalid title
- 6.22 Invalid award
- 6.23 At least one or more entry forms are to be used as late entries

Comments on the two yellow high-lighted sections:

The office should fill in the information at 2.6. If the information can be easily found (for example on the website), then giving the location would be sufficient. If it is not currently found outside the office, it should perhaps be added to the standing rules and/or the website rather than adding a great deal more information to this document.

3.1.9 The Board should decide if they feel a 'full sample' is warranted here. If so, any entry clerk using one of the current programs should be able to send an 'entry' to Leslie to be included as part of the document.

Subject: 2006 RD election results
From: Letty Chavez <LChavez@ticaeo.com>
Date: Fri, 29 Dec 2006 12:32:53 -0600
To: Cliff/Mary Riddell <furreal@inreach.com>

The following results were received from the Ballot CPA:

Ragdoll Election

Shall the Ragdoll also be accepted in the Traditional (i.e. non-pointed) Category?

34 Yes
131 No

TICA Rules Committee

From:
TICA Thai Breed Section

December 18, 2006

Dear TICA Directors and Committee Members,

This is the updated letter regarding the Thai preliminary new breed proposal that will be reconsidered by the TICA Board of Directors at the Winter Semi-Annual Meeting of 2007.

For those of you who are in a hurry, a short summary of the points made in this letter can be found on the last page. However, we encourage you to read the entire letter if at all possible.

Background

A brief, pre-1980s history of the Thai breed in the West may be found in the Description section of the Rules Committee-approved Thai breed standard.

Well organized, independent breed clubs dedicated to the Thai, using a variety of different names for the breed (for example, Old-Style Siamese, Traditional Siamese), have existed in North America and Europe since at least the early 1980s. The Thai has not yet been accepted under any name by any major international cat association or by any major registry in North America or the United Kingdom. However, the Thai breed was recognized by the World Cat Federation (WCF) in continental Europe in 1990. WCF is not a large international association in the sense that TICA is. WCF functions only in an optional, loose advisory role to the hundreds of independent registries in Europe.

Purpose of Seeking Recognition in TICA

We hope that recognition of the Thai by TICA, together with a detailed TICA Thai breed standard, will encourage a more consistent approach to the Thai breed and unify the community of Thai breeders worldwide. We believe this will promote the quality, genetic health, and popularity of this already popular breed.

The members of the Thai breed section agree that the Thai should be the breed that preserves the original, indigenous pointed cat of Thailand. In plain English, it is the breed for the so-called "applehead" Siamese. It is not just another pointed breed. It is not a hybrid breed or a breed with significant Western blood. It is a breed whose gene pool should be overwhelmingly derived from the Southeast Asian race of cats. That race of cats was identified as unique by Charles Darwin more than a century ago and it still, for the time being, exists in Thailand today. (The preponderance of kinked tails and rarity of longhaired cats on the streets of contemporary Thailand are among the many pieces of evidence that the cats are still largely unchanged.) We would like, as much as possible, to preserve what is left of the appearance and original gene pool of the unique pointed cats of Southeast Asia.

We believe that we can most easily achieve that goal in two ways. First, the Thai breed will continue to include the remaining distinctly moderate (less intensively selectively bred) cats registered as Siamese in the West. Second, we will continue to import from Thailand into the West the native pointed cats for as long as they continue to be genetically distinct from other populations of cats in the world.

Qualifications

The Thai has been a registration-only breed in TICA for several years.

Notice of intent to apply for preliminary new breed status for the Thai breed was first published in the *TICA Trend's* October/November 2005 issue. A filing fee of U.S. \$50.00 was paid on November 18, 2005.

The Thai breed in TICA currently meets the minimum requirements—in terms of numbers of breeders, litters registered, cats registered, and so forth—to apply for preliminary new breed status. Complete details were provided in the application packet submitted for the Annual Meeting that was held in Hannover, Germany, in 2006.

By way of a partial update, **currently, active breeders of the Thai who are documented members of TICA hail from seven TICA regions:** Northwest, Southwest, Mid-Atlantic, Great Lakes, Southeast, Europe North, and Europe South. In addition, we have dedicated fanciers (eager to exhibit but not breed) who are members of TICA and live in the South Central Region.

Many of you met with a group of our breeders and fanciers at the Annual Meeting, Hannover, Germany, 2006. You had the opportunity to examine Thai cats owned and bred by our breeders. You know that the Thai breed contributed substantially to the entries exhibited at the Annual Cat Show in Hannover. According to the Hannover catalog, **37 Thai were entered in the show (in Exhibition), which was slightly more than the number of Bengals or Ragdolls entered.**

With regard to the enclosed Thai breed standard, it has been approved by the Rules Committee and Genetics Committee. Two earlier standards that were submitted in February 2006 and early April 2006 were rejected, so please make sure you are looking at the approved standard when you are studying the Thai proposal.

The approved Thai standard is the end result of a process that involved a number of TICA judges (after they had examined ITC president Carola Hopfe's cats at Friedrichshafen, Germany), the members of the Thai breed section, the TICA Rules Committee, Monika Dany, and Nancy Parkinson. We also discussed the Thai breed standard with several of the directors at the 2006 Annual Cat Show; with the TICA Tonkinese Breed Committee Chair, Laurie Schiff; and with the president of North America's Tonkinese Breed Association, Oneta Cox. Last but not least, we made a few modifications to the standard in response to suggestions from Susan Adler, who represented the TICA Siamese Breed Committee at the Hannover meeting.

In late November 2006, Nancy Parkinson asked the Executive Office to poll the TICA Thai breed section regarding the Rules Committee-approved Thai breed standard to document that it has majority support.

The Thai Breed Section

Based on the current number of people eligible to vote in the Thai breed section and on progress in reaching a mutual understanding within the eligible membership of the section, we have revised our recommendations for Working Thai Breed Committee Chair and the Thai Breed Committee membership. Please see the summary at the bottom of this letter.

Follow-Up with the Genetics Committee

As the TICA BOD recommended at the Annual Meeting in Hannover, we have discussed the Thai proposal with the Genetics Committee in order to come to an understanding. Nancy Parkinson has been in contact with all members of the Genetics Committee.

As the spokesman for the Thai breed section, Cristy Bird discussed the Thai proposal with Dr. Pflueger, chair of the Genetics Committee, by email and on the telephone. Dr. Pflueger explained her recommendations in more detail than in the letter she submitted to the Board for the Annual Meeting in Hannover.

The Genetics Committee recommendations of most concern to the Thai breed section had to do with the duration of the permissible Siamese outcross for the Thai and the procedure to use for transferring cats currently registered as Siamese to the Thai breed.

Dr. Pflueger stated on the telephone (December 15, 2006) to Dr. Bird that she meant that until the Thai achieves Advanced New Breed status the transfer of Siamese to the Thai breed should be done freely (paperwork and fee only). After that, Dr. Pflueger personally would be okay with continued open transfer from the Siamese to the Thai breed, so long as it was one-way transfer, but she felt that the Board might need reassurance that only appropriate (old-style) Siamese would be given SBT Thai registration after ANB status is achieved. She was concerned that without that reassurance the Board might not approve the Thai breed for Preliminary New Breed status. It was only for that reason that Dr. Pflueger had suggested in her September 2006 letter to the Board that a three judge procedure be used to transfer Siamese to the Thai breed after ANB status was achieved.

Based on that telephone conversation, it is our understanding that Dr. Pflueger would be willing to support the position (see below) of the Thai breed section on outcrosses and transfers. Her initial suggestion to use some sort of three judge process for transfers after ANB status is achieved appears to be something she could dispense with if the Board of Directors approves.

Dr. Pflueger told us that she will attend the February 2007 Semi-Annual Meeting. Therefore, the Board can ask her any additional questions they wish at that time.

On everything else, the majority of members of the Thai breed section are in agreement with the expressed recommendations, as we understand them, of the Genetics Committee and the Rules Committee.

In summary, the TICA Thai Breed Section requests the following:

- 1. Please adopt the Rules Committee-approved Thai breed standard.**
- 2. Let the Thai be a category 2 (natural) breed.** This will allow registration and showing of indigenous pointed cats from Thailand as Thai if suitable documentation is provided by the owner. Thailand does not currently have a well established cat registry.
- 3. Let the Siamese breed be a permissible outcross for the Thai for a five-year period, with the outcross option to be reconsidered for renewal by the Board at the expiration of that period.** We believe that we will be likely to achieve Advanced New Breed status in perhaps only 3 years. We do not want to lose the option of a Siamese outcross in only 3 years, however. That will not be sufficient time given the large number of countries across which the Thai is scattered and the many lineages currently registered only as Siamese. Ultimately, we will not require any outcross breed, but we do need sufficient time with the Siamese as an outcross option in order to assure a good quality gene pool until such time as we have hopefully persuaded breeders in England, Finland, and other places where TICA is not yet established to transfer their Siamese to the TICA Thai breed. We want and need to be able to show our best cats. Keep in mind that in Europe, with many areas where houses are relatively small and housing density high, it is common practice to go to other breeders for stud service rather than keeping one's own stud. We need to be able to outcross to the Siamese for at least the next five years, regardless of progress in achieving championship status.
- 4. Let the transfer of cats from the Siamese breed to the Thai breed in TICA occur freely (paperwork and fee only), but the transfer will be one-way only.**
- 5. Let the period of open transfer from the Siamese breed to the Thai breed be for a five-year period and then considered for possible renewal by the Board of Directors at the expiration of that period.** We do not want to terminate the period of open transfer too soon, such as upon achievement of Advanced New Breed status, because we believe we are likely to reach ANB status in only about 3 years. That will not be sufficient time for breeders in countries where TICA is just beginning to take hold (particularly the United Kingdom, which has a large

number?about 100?Thai/Old-Style Siamese breeders) to make the decision to move their cats from the Siamese breed to the TICA Thai breed. It is not in TICA's interest nor in the interest of the Thai breed to cause a significant number of Thai breeders to feel unfairly excluded from the TICA Thai breed. We do not want to set up a situation where, for example, British breeders create their own rival breed and remain aloof from and condemn the TICA Thai. Those of us in the TICA Thai breed section have had up to now a good working relationship with British Thai (Old-Style Siamese) breeders.

5. We nominate Dr. Cristy Bird to be the Working Thai Breed Committee Chair. Dr. Bird has been successful in forging a united international coalition of breeders and fanciers in the Thai breed section. Dr. Bird has worked closely with Thai liaison Nancy Parkinson and developed good relations with Laurie Schiff, the Tonkinese Breed Chair, and, more recently, Vickie Jo Harrison, the Siamese Breed Committee Chair. She has bred Thai for 13 years, has imported half a dozen cats directly from Thailand, has been a member of TICA for 11 years, has shown regularly in TICA's Southwest Region for several years, is a founding member of TICA's Sea Side Cat Club (new club based in Southern California), has written a chapter and helped edit a book about the native cats of Thailand, and has a strong background in genetics due to her professional training (Dr.P.H. from the University of California at Los Angeles, National Institutes of Health Cancer Control Program Fellow) and work in the field of cancer epidemiology research (Genetic Epidemiology Group, University of Southern California). She speaks English fluently and reads and writes German moderately well. The latter is often helpful when communicating with the many Thai breeders who reside in Germany.

This is the position of the majority of members of the TICA Thai Breed Section as of the Semi-Annual Meeting, 2007.

Thank you for your time and attention. We are excited about the prospect of being able to breed and show our breed in TICA.

Sincerely,

Cristy Bird

Spokesperson
TICA Thai Breed Section

THAI (TH)

HEAD	40	Points
Shape	10	
Forehead	5	
Profile and nose	5	
Eyes	4	
Eye color	3	
Ears	4	
Muzzle and chin	7	
Neck	2	
BODY	35	Points
Torso	10	
Legs and feet	8	
Tail	5	
Boning	8	
Musculature	4	
COAT/COLOR/PATTERN	25	Points
Texture and length	13	
Body color	12	

CATEGORY: Pointed

DIVISIONS: Solid, tabby, tortie

COLORS: All

PERMISSIBLE OUTCROSSES: Siamese.

HEAD:

Shape: Modified wedge, medium width. Head is longer than wide, but not extreme or narrow. Upper head is laterally rounded; muzzle is wedge-shaped.

Forehead: Flat and long.

Profile/Nose: Nearly straight, but with a gentle convex curve just above the eyes and a very slight, gradual concave curve just below the eyes.

Eyes: Medium to slightly large, a very full almond shape, not oriental. Set slightly more than an eye width apart. A line from inner corner through outer corner of eye meets outer base of ear.

Eye Color: Blue. Deep blue shades preferred. Brilliance and luminosity are more important than depth of color.

Ears: Medium in size to slightly large, wide at the base, oval tips. The inner base of the ear is set above the center of the nearest eye. The ears point outward at an angle slightly closer to the top than side of the head (35 degrees from vertical). Allow for very light furnishings.

Muzzle: Medium long. Wedge-shaped: little or no muzzle break, with straight sides that taper to the nose. End of muzzle is slightly laterally rounded and medium-boned.

Chin: Neither weak nor too prominent, aligned vertically with the nose.

Neck: Medium length, neither thin nor overly muscular.

BODY:

Torso: Slightly to moderately long, lithe and graceful like a small panther. Well toned, but neither tubular nor compact. Underbelly is mostly level and parallel to the ground and firm. However, a slight amount of loose skin on the underbelly below the flank is permissible.

Legs: Medium length, graceful in form, but not coarse.

Feet: Oval shape; medium size in proportion to cat.

Tail: As long as the torso, tapering gradually to the tip.

Boning: Medium. Graceful. Neither refined nor coarse.

Musculature: Firm, but lithe, not meaty or dense. When picked up, cat weighs about as much as, or slightly more than, one would predict visually.

COAT/COLOR/PATTERN:

Texture: Silky; very little undercoat. Not a "painted on" coat, but definitely close-lying.

Length: Very short to short.

Body Color: Preferably a very pale off-white that is imbued with a faint trace of the point color of the cat. Evenness of the body color and contrast with the points are more important than extreme whiteness.

Point Color: Appropriate for color class, dense and even. Mask, ears, feet and tail should match in color.

GENERAL DESCRIPTION:

The ideal cat of this breed is a medium to slightly large, pointed cat of foreign type, descended from and resembling the indigenous pointed cats of Thailand. The Thai is intended to be both the living equivalent of the original "Wichien-maat" of ancient Siam and the "marten-faced" Siamese of early 20th century America and Europe.

It cannot be stated enough that the Thai should not be extreme in any way, but its appearance and personality should reflect its Thailand heritage. The Thai is not, and should not resemble, a native Western breed.

The breed began in the 1950s when breeders scattered around the world chose to breed, or sometimes unwittingly continued to breed, Siamese of the moderate, early 20th century type. In the 1980s, the first breed clubs dedicated to these cats were established in the United States and Europe. In 2001, breeders began importing indigenous pointed cats from Thailand in a conscious effort to expand and preserve a healthy gene pool for the Thai breed as well as to preserve the genes of Southeast Asia's native race of cats while they are still distinct from Western cats.

The trademark of the Thai breed is the unique head shape, a laterally rounded upper head from which projects a distinctly wedge-shaped muzzle. In keeping with the Thai's roots in tropical Thailand, another important feature is the breed's very short coat, first clearly described in the West by Harrison Weir in 1889.

The Thai is a well balanced cat without any extremes, in harmony in appearance and character.

ALLOWANCE:

Incomplete point color and mask in kittens and young adults up to 12 months. Slight tabby markings on the body of lynx points as long as there is a good contrast to the points. Darker body shading in older cats as long as there is still a definite contrast between body and points. Stud jowls in males.

PENALIZE:

Genuinely round eyes. Extreme oriental eyes. Blunt or pointy muzzle. Narrow upper head. Small ears, very large ears, or ears set low (closer to the side of the head than the top). Compact body or distinctly tubular body. Whippy tail. Excess undercoat (plush coat). Ghost markings in non-agouti adult cats.

WITHHOLD WINS (WW):

Roman profile. Pronounced stop. Pronounced convex forehead. Distinct ear tufts. Fluffy fur with dense undercoat ("teddy bear" coat). Cobby body. Obesity. White lockets and buttons; white toes and feet (including paw pads); patches of white in the points. Eye color other than blue.

DISQUALIFICATION:

Visible tail fault. Crossed eyes. Visible protrusion of the cartilage at the end of the sternum (xiphoid process).

Temperament must be unchallenging; any sign of definite challenge shall disqualify. The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm.

In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications: a cat that bites (216.9), a cat showing evidence of intent to deceive (216.10), adult whole male cats not having two descended testicles (216.11), cats with all or part of the tail missing, except as authorized by a board approved standard (216.12.1), cats with more than five toes on each front foot and four toes on each back foot, unless proved the result of an injury or as authorized by a board approved standard (216.12.2), visible or invisible tail faults **if Board approved standard requires disqualification** (216.12.4), crossed eyes **if Board approved standard requires disqualification** (216.12.5), total blindness (216.12.6), markedly smaller size, not in keeping with the breed (216.12.9), and depression of the sternum or unusually small diameter of the rib cage itself (216.12.11.1). See Show Rules, ARTICLE SIXTEEN for

CERTIFIED PUBLIC ACCOUNTANTS | CONSULTANTS

January 12, 2007

To the Executive Office
The International Cat Association, Inc.
Harlingen, TX

We have performed the procedures enumerated below, which are stated in the TICA Standing Rules as revised on May 1, 2006 of The International Cat Association, Inc., solely to provide you with the results of the THAI breed elections for the year ended 2006. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

We received sealed envelopes containing ballots mailed directly and sent via facsimile to us, and held the envelopes unopened until the close of the election, January 4, 2007. Following the close of the election, we validated the ballots prior to opening them.

Validation was performed as follows:

- Determined each sealed envelope containing a ballot was signed; rejected any unsigned envelopes.
- Compared the ballot to the valid membership list to determine eligibility of the member voting.
- Compared the postmark date for any duplicate ballots requested and rejected any postmark dates not on or near the date certified by the member as the mailing date.
- Compared any ballots received via facsimile to the membership list to determine eligibility of the member voting via facsimile; determined no mailed ballot was physically received for the same member; and rejected any facsimile ballots that were not signed by the member.

- Following the above steps we opened each envelope; verified only one ballot was contained in the envelope. We verified the breed ballot was the appropriate one for that member. We rejected any envelope which contained more than one ballot of either type, and returned the complete package with opened envelope to the Executive Office.

Following validation, we separated the envelope from the ballot for those envelopes meeting the above requirements; tallied the votes for those ballots that were legible and passed the above requirements and reported the results of the tally of all validated ballots to the President and the Executive Office.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying results of the annual election of The International Cat Association, Inc. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Executive Office of The International Cat Association, Inc., and is not intended to be and should not be used by anyone other than these specified parties.

Atkinson & Co., Ltd.

APPLICATION FOR ADVANCEMENT
of
THE TOYGER
to
CHAMPIONSHIP

2007 WINTER MEETING
of
THE TICA BOARD OF DIRECTORS

Report prepared by
Judy Sugden
Toyger Working Group Chair
and
Robert Rohrbaugh

October 17, 2006

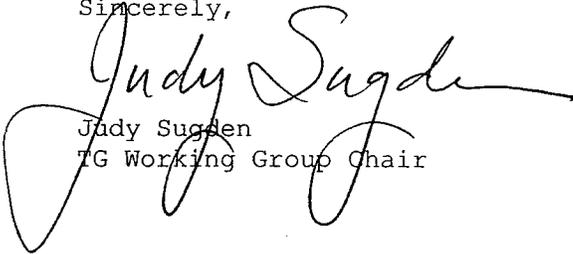

Dear TICA Board Members:

The TICA Toyger breeders wish to thank the Board members for their early granting of the benefit of doubt and gamble on the desirability and possibility of a toy tiger breed. We thank-you for your continued suspension of judgement through our first few years of Preliminary New Breed and then your support as we have brought forward cats ever closer to our Standard.

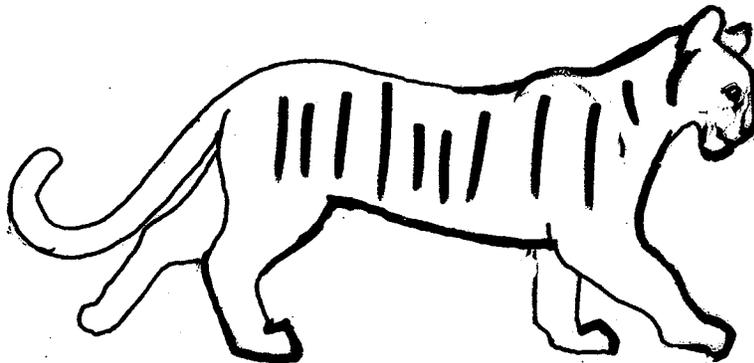

We now wish to put the Toyger breed before you, not as a finished domestic breed, but rather as a unique young breed with a solid genetic basis and a strong direction for future development: a breed with healthy, loving, beautiful cats, an eager community of breeders and an excited public: a breed ready to move forward to Championship status in TICA.

I ask your support for the advancement of the Toyger to Championship status.

Sincerely,

Judy Suggen
TG Working Group Chair

TOYGER REQUEST FOR ADVANCEMENT TO CHAMPIONSHIP STATUS

The Toyger breed has completed and exceeded the minimum requirements for advancement to Championship status in accordance with Registration Rules 33.7. The following section outlines each of the requirements and how these regulations have been met.

33.7 Championship Status. Requirements. An Advanced New Breed may apply for Championship Status upon completion of the following:

33.7.1 At least 1 year has passed since the breed was first advanced from Preliminary New Breed status.

The Toyger was accepted for Advanced New Breed at the 2006 Semi Annual Meeting. In keeping with the intent of the Advanced New Breed class, a breed should be ready to advance to championship status within one year of achieving Advanced New Breed status.

33.7.2 A minimum of 200 adults registered of which 100 are eligible for competition.

As of October 12, 2006 360 individual Toygers have been registered. The attached tables itemize the registration history of the Toyger.

33.7.5 List of judges who have judged the breed. (At least two-thirds of active licensed judges must have judged the breed.)

As listed in the July/August 2006 TICA Trend there are 123 active eligible judges and 4 new judges were approved at the recent Annual for a total of 127 active eligible judges. The two-thirds number required is 85.

101 active TICA judges have judged the Toyger in PNB and/or ANB.

Randy Johnson	SW	R-2753-SW	Sunnicas	#14092
Nancy Healey	SW	R-2357-SW	Nancats	C-9141
Ruth Hodges	SW	R-1154-SW	Leopardlane	
*Joan Bittner	NW	R-2720-NW	*TundraToygers	
Bev Kahlenberg	SW			
Chris Biagi	MA	pend -MA	*Kirace	

Three additional breeders that will have had a litter by February 1, 2007 as their females are now old enough and are breeding.

*Gary Gardiner	MA	R-2907-MA	*Toygertails
*Jennifer Santee	GL		*Santeepride
*Robert Monteleone	MA	R-2908-MA	*Garamonte

The total number of active Toyger breeders is expected to be 25 or more including 10 of the 13 TICA regions by the Semi-annual BOD meeting in February 2007.

The following is a list of additional future breeders who have recently obtained breed/show quality kittens and will be active breeders later in 2007.

*Andrea Gonzales	SC	(Texas)
*Donna Young	MA	(Maryland)
*Steve Haywood	EN	(England)
*Kevin Ryan	EN	(England)
*Irina and Maria	EN	(Russia)
*Nadia	EN	(Denmark)

* Denotes TICA members or cattery registration (not counting renewals) that would not exist without the Toyger.

There continues to be high interest in the Toyger breed as there is a waiting list of people interested in getting breeding cats. It is anticipated that the number of active breeders will continue to grow as breed/show quality kittens are made available to people wanting to work with the Toyger breed working group.

The following is the list of active Toyger breeders from the Application for Advanced New Breed submitted one year ago.

16 Active Toyger breeders in 6 regions - 2005

33.7.8 Submission of an Application for Acceptance as a Championship Breed to the Executive Office and a copy to each member of the Genetics Committee at least 120 days prior to the board meeting at which approval is sought which includes the following:

Application for Acceptance of the TOYGER as a Championship Breed submitted 10/19/2006 electronically to the EO and to Ellen Crocket, Genetics liason as requested. JAS

Application for Acceptance as a Championship Breed	
Championship Status - Requirements for Application	
A New Breed may apply for Championship Status upon completion of the following:	
A minimum of 200 adults registered of which 100 are eligible for championship competition.	360 cats registered 133 adult SBT eligible ✓
A minimum of 100 shows at which cats have been exhibited including regions and judges.	179 shows as of 10/15/06 in 8 North American regions and in 2 non-North American regions ✓
A list of judges who have judged the breed. At least two-thirds of active licensed judges must have judged the breed.	100 out of 127 active eligible judges have seen TGs ✓
The North American regions are represented by a minimum of fifteen breeders who are TICA members in good standing actively breeding the breed, and at least two non-North American regions have at least one TICA member in good standing actively breeding the breed.	18 North American and 4 non-North American TICA members actively breeding TGs ✓
At least 25 unique cats entered in the Advanced New Breed Class including entries in at least two-thirds of the North American regions and two unique cats entered in each of two non-North American regions during the year preceding the application.	30 unique cats shown in ANB in 6 North American regions + 5 additional unique cats shown in 2 non-North American regions ✓
Submission of an Application for Acceptance as a Championship Breed to the Executive Office and a copy to each member of the Genetics Committee at least 120 days prior to the board meeting at which approval is sought which includes the following:	10/19/06 electronically ✓
A letter of Intent to apply for approval as a Championship Breed, signed by at least ten TICA members in good standing.	4 Letters + 12 signatures with TICA #'s plus others ✓
A proposed breed standard which includes the approval of each member of the Genetics Committee.	TG Standard approved Feb 2006 ✓
A proposed breeding program.	✓
A processing fee of \$50.	paid October 13, 2006 ✓
Cause a Notice of Intent to Apply for Advancement to Championship Status to be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.	Trend October/November 2006 ✓
At least 90 days prior to the Board Meeting each member of the Genetics Committee shall forward a written report commenting upon the application. Such report may recommend approval to advancement to Championship Status, denial of advancement, that further requirements be met prior to approval, return to Evaluation Status or Registration Only Status, or make any other comments. Members of the Genetics Committee are invited to address the Board of Directors regarding the breed.	
Make a formal Presentation at the meeting of the Board of Directors, including photographs, illustrations, statistics, health and breeding reports, examples of the breed and any other relevant material.	We are prepared for such presentation. ✓
The Board of Directors may approve, disapprove or impose additional requirements on the breed which the Board of Directors, entirely in their discretion, may require.	
If the breed is approved for Championship, a Breed Committee shall be elected in the next regular election.	

33.7.8.1 A letter of intent to apply for approval as a Championship Breed, signed by at least ten TICA members in good standing.

October 18, 2006

TICA Board of Directors;

✓ knowledgeable judge
who has watched all
the Toyger developments &
bellow New Breed breeder

I am writing in support of the Toyger Breed being advanced to Championship status at the upcoming Winter Meeting.

I know Judy and some of her breed section personally and have watched the progression of this breed from pictures on the kitchen wall with computer generated morphs to reality.

The Toyger breed group is very focused and works well together for the common good of their breed. They support the shows and they put on breed seminars. Judy has gone to both the Annual in Germany and a show in France with Toygers to introduce them to the European people and to allow European Judges to see and handle the cats.

I've both judged the cats and shown next to the breeders in the new breed rings. They have met the requirements set out in the New Breed Program for Championship advancement.

Sincerely,

Bobbie Tullo

Chausie Breed Chair

TICA AB Judge

33.7.8.1 A letter of Intent to apply for approval of a Championship Breed, signed by at least ten TICA members in good standing:

✓ founder of breed most heavily "borrowed from".

To the Board of Directors
The International Cat Asso.

I am most excited over the potential of the Toyger breed of cat to give delight and joy to cat lovers throughout the world. TICA's acceptance for championship will lock in the beauty innate in the standard and insure a breed that truly becomes a "toy tiger"! I heartily endorse it!

Jean S. Mill
TICA cattery # 3015
Membership #R-0901-RW (since 1983)

Dear Board of Directors of The International Cat Association,

ÉÉÉI began my experience with Toygers in 1999 and have enjoyed the nature of the individual cats and the potential inherent in the ideal of the Toyger. The progress the breed has made toward meeting the goal of resembling a domestic "toy" replica of a Tiger has been remarkable. The progress of the cats is only comparable to the enthusiasm and interest of new Toyger enthusiasts and support of TICA. I think the Toyger is now ready for Championship competition in TICA.

Sincerely,

Anthony Hutcherson, TICA Member R-2183-MA
Jungletrax Cattery, C-7753
President of Junglelovers Cat Club, TICA Club Charter 472
Member of TICA Bengal Breed Committee for two terms

Dear TICA board members,

I feel compelled to convey the enthusiasm both of myself, my fellow breeders Marco D'Addezio and Bruno Filippi as well as that of the judges at the recent TICA show in Chaville, (Paris) France about the new breed Toyger. Every catboth shown won hearts and imaginations with extremely sweet temperaments and stunning beauty, and many hours were spent in speaking to visitors and judges about the future and refinements of this new, truly fantastic breed.

Movement in the direction to valid the Toyger as a new fully-instated breed with TICA would be greeted with approval and enthusiasm on our part here in Italy.

Best Regards,
Marc King

33.7.6 The North American Regions are represented by a minimum of fifteen breeders who ar TICA members in good standing actively breeding the breed.

Toyger

Letter of Intent To Apply for Approval as a Championship Class Breed - 2007

The International Cat Association
Executive Board
P. O. Box 2684
Harlingen, TX 78551

Dear TICA Board,

We the undersigned are members of TICA in good standing and support this application for approval of the Toyger as a Championship Class breed. We think that this domestic hybrid breed now has enough individuals that look uniquely like Toygers and enough breeders to warrant this advancement.

Thank you,

33.7.8.3 A proposed breeding program;

TICA TOYGER PROPOSED BREEDING PROGRAM - 2007 TICA Semi-Annual

We are requesting advancement for the Toyger to Championship Status. Our breeding program has generally progressed as per plan and we feel that we have now laid a strong base for the breed.

Before 1993 the project was in the imagination and conceptual stage: evaluating breed recognition features and trying to locate any rudiments of such in the domestic feline population; anticipating development requirements and self-motivation and capacities; and assessing resources.

1993 - Registration ONLY - The California Toyger became a public project with the search for traits, cats and breeders willing to commit. The possibility of joining the Bengal as a tiger striped version was considered but rejected as that breed chose to become ever more committed to a small wild cat type. More breeding cats and lines but they still showed only one or two desirable traits per animal as the slow process of discovering how the traits seemed to be carried and mixed began. In our research and development we realized that we would have to be ready to back up and start again if any direction proved unhealthy or unwise for the future. It looked like too long and hard a job for most breeders and we are thankful to those few who decided that it would be worth the effort to create and contribute something new and worthwhile for present and future generations of cat lovers.

2001 - Evaluation New Breed/ Preliminary New Breed - The Toyger has made rapid gains in temperament, pattern and type. Emphasis in development has purposely been on pattern and color first as a public awareness and ethical self-defense technic for the breed and the fancy. If all the kittens produced in a new breed program can not be placed then one cannot breed those kittens. The public does not want gray striped alley cats with very strong chins. But it does want a glittered orange nothing particular kitten, and if it has a great chin so much the better. So preliminary breeding has emphasized developing and producing the recessive characteristics of the basic orangey striped Toyger breed stock for potential new breeders. The harder recessive traits of pattern known originally from only one or no domestics such as: braiding, thin stripes with wide acreage, black ear backs with ocelli, whited on orange face patterns, temple, cheek, chin and forehead markings, etc. are slowly being spread through the population unseen.

Type however has not gone unaddressed. Type breeding is made possible in some of the long time catterys that have established a repeat clientele that want a Toyger simply for their lovely temperament. For example where there was only one great Toyger chin/ muzzle angle on a gray ticked, cobby female with huge eyes at the Toyger coming out in Omaha 2001, there are now more than six such TG chin/ muzzles on better typed and patterned breeding cats. Two such females were shown in Houston 2004. They were still gray and ticked but higher contrast and better general type. ...and all their less exciting siblings found good homes! ...and remember that a trait requires many generations, and so years, from cross bred first generation to its appearance in the show ring.

Thus type too is evolving slowly as it should, allowing time for evaluation and revision.

Emphasis among our breeders has been on: DO NO HARM! (to the fancy, registry, other breeds, breeders, each other or the cats), HAVE FUN and SUPPORT EACH OTHER as we are all in this together for the long haul and if one succeeds, we all will benefit.

2006- Advanced New Breed - Advanced at the TICA 2006 Semi-annual, Toyger breeders have been concentrating on two important aspects of Advanced Breed responsibility --- getting as many of our beeders and pet owners (even some of those with cats that do not meet the Standard are showing their blue, longhaired or spotted TGs in TICA HHP) out on the show circuit to educate and promote --- stengthening breed group relations and individual breeder initiative; and getting our more typey longer

muzzled Toygers out to as many formerly "pattern" breeders as possible. This has perhaps generally resulted in longer eared offspring but that is to be expected and dealt with in future breeding choices.

Exciting "First cats" of this short six month period are:

Wildfx Sumatra - has the best pattern of its unique tiger kind ever seen on a domestic!

EEYAA Linebacker has the most exciting zoned and over-the-back pattern on a very short thick pelt with good body type such that he is very suggestive of "tiger" inspite of his generally brown color.

EEYAA Totem Web's ungainly long, wide kitten muzzle has turned into a superb tiger head type with maturity. ...too bad he still doesn't like girls....

Wildfx LazerFlash flashes a very strong hexagonal head silhouette on occasion.

The Toyger genepool includes 33 diverse individuals of 5 breeds from far ranging areas of the world. Informd outcrossing is still necessary and encouraged for temperament, health and trait embellishment (like ears), so that the genepool will continue to increase naturally. We see little reason however to encourage any particular few breeds over many that could contribute to the genepool constructively. The domestic Toyger should be unique enough in many ways that the first three generations would likely not be appropriate for showing as anything other than HHP.

TOYGER BREEDING STATISTICS

Total TGs registered 1994 through 10/12/2006: 360 individuals most of whom are/were breeding cats. Of these, we count about 225 individuals are still in breeding programs world wide.

Current Toyger Gene Pool 2006

SBT Bengal	19
DSH US west & east	8
India central	1
Kashmir	1
Pixie-bob	2
American Shorthair	1
Mainecoon	1

Total: 33 individuals (BG 19, Other 14) (Approx 4 to 3)

The breed is currently in its third major infusion of new blood in its developmental history. Anticipated outcrosses this coming year: SBT Bengal for whited ventral surfaces and perhaps British Shorthair for female joweling--- but it will then be more than three years before any of this blood gets to the show ring.

HEALTH:

At this point health seems to be robust and good in most cats but we have seen and are weeding out the occasional health concern as it crops up: cleft palate, rolled ribs/flattened ribcage, heart irregularities (all 6 tested TG males have been clear of HMC) and reproductive concerns of milkless mothers and C-sections required: usually due to breach birth, twisted uterus or lack of contractions. We are still concerned about FIP and its genetic link and are urging outcrossings using females from known breeds and strong clear lineages only.

2007- Requested Advancement to Championship Breed -

It is expected that the Toyger breeding program will continue for some time yet on the solid base of breed cooperation that we have begun. The emphasis however will now shift toward a combination of head type and pattern development as we compete for the first Championship titles of the breed. Certainly there is much to be done in all areas as some people still don't see enough of the "tiger in the Toyger." Some of us however see a marvelous new domestic with many unique qualities and potentials.

Our Toyger Breed Standard as accepted by TICA Board February 2006, is written as a guide for the Toygers of 2010 and beyond. In this way we will not be distracted by the showhall and choose too many short cuts which will bode less well for our future. High pattern is as difficult to create and maintain as is high type, and the Toyger requires both.

Sincerely,

Judy Sugden
Toyger Working Group Chair

10/8/2006

33.7.9 cause a Notice of Intent to Apply for Advancement to Championship Status to be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.

Breeders Assistant

PEDIGREE SOFTWARE FOR TICA BREEDERS

- Fabulous printed pedigrees with calligraphic text, photos, watermarks, decorative borders, your choice of fields.
- Support for TICA breeders with TICA breeds, titles, show entry & litter reg. forms – using *real TICA PDF forms (with kind permission of TICA)*.
- Powerful genetics including color prediction & inherited diseases. Covers more than **thirty** breeds and over **thirty** congenital defects.
- Advanced features including text pedigree import, web pedigrees & databases, image pedigrees, pedigree cover sheets, mating certificates, super fast inbreeding calculation, contracts, forms design, vet records, text reports and many other features.

Notice of Intent to Advance to Championship

Registration Rule 33.8.3.7 states: "Cause a Notice of Intent to Apply for Advancement to Championship Status to be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office."

The following new trait or traits intend to apply for Championship Status at the 2007 Winter Board meeting:

Toyger

Send comments to: TICA, P.O. Box 2684, Harlingen TX 78551

Possession of a Cat

Possession of a cat constitutes being responsible for the health or welfare of cat, no matter for what period of time. Merely being in the presence of a cat is not possession.

Judging Schools

We need at least one judging school per year in each region. The Judging Administrator or her designee should be advised of when and where schools are held.

33.7.10 At least 90 days prior to the Board Meeting the Genetics Committee shall forward a written report commenting upon the application. Comments from individual committee members may be attached to the report as needed. Such report may recommend approval to advance to Championship Status, denial of advancement, that further requirements be met prior to approval, return to Preliminary New Breed status or Registration ONLY status, or make any other comments. Members of the Genetics Committee are invited to address the Board of Directors regarding the breed.

33.7.11 Make a formal presentation at the meeting of the Board of Directors, including photographs, illustrations, statistics, health and breeding reports, examples of the breed and any other relevant material.

Toyger breeders will be on hand at the 2007 Winter Meeting with a Power Point presentation and examples of the breed for the Board to see, handle and ask questions about.

33.6.2.1.1 Advanced New Breed cats appear in the judges' books and judges shall include these cats in judging fees.

33.6.2.2 Each judge shall evaluate the entry in accordance with the breed standard, hanging awards as specified in the Show Rules, if the entries are felt to be of sufficient merit.

33.6.2.2.1 Each judge shall award one merit rosette to the best over-all example exhibiting in the Advanced New Breed Class.

33.6.2.3 Advanced New Breed cats will not be scored for regional or international awards.

✓ 33.6.3 Advanced New Breed Committee.

33.6.3.1 During the period of time a breed is designated an Advanced New Breed, the Advanced New Breed Class Breed Committee will include all of the active TICA breeders of the breed and all members of the Genetics Committee.

33.6.3.1.1 The Advanced New Breed Class Breed Chairperson shall be appointed by the Board.

33.6.3.2 The Executive Office shall furnish the Advanced New Breed Chairperson and Genetics Committee liaison with a list of the New Breed Committee members.

33.6.3.3 The Advanced New Breed Chairperson shall provide a report on the status of the breed development and other issues relevant to the breed to the Genetics Committee and the Executive Office for inclusion in the Agenda at least 90 days prior to each Annual Meeting. Any member of the Genetics Committee may submit comments on that report, or on any aspect of the breed, to the Board of Directors.

33.6.3.4 If the report is not received by the Genetics Committee and the Executive Office at least 90 days in advance of the meeting, or if the report reflects a lack of interest in the breed, the breed may be returned to Preliminary New Breed or Registration ONLY status until any requirements imposed by the Board of Directors have been met.

33.6.3.5 The Executive Office shall twice a year forward a report on litter registrations and individual cat registrations for the breed to each member of the Genetics Committee and the Advanced New Breed Chair. Such reports shall be published in the TREND.

33.7 Championship Status Requirements. An Advanced New Breed may apply for Championship Status upon completion of the following:

33.7.1 At least 1 year has passed since the breed was first advanced from Preliminary New Breed status.

33.7.2 A minimum of 200 adults registered of which 100 are potentially eligible for championship competition.

33.7.3 List of at least 100 shows at which cats have been exhibited, including regions and judges.

33.7.4 List of 25 individual cats that have been shown, including registration numbers and regions shown. (See 33.6.5.)

33.7.5 List of judges who have judged the breed. (At least two-thirds of active licensed judges must have judged the breed.)

33.7.6 The North American regions are represented by a minimum of fifteen breeders who are TICA members in good standing actively breeding the breed.

33.7.7 At least 25 unique cats shown in the Advanced New Breed Class including entries shown in at least two-thirds of the North American regions and two unique cats shown in each of two non-North American regions during the year preceding the application.

33.7.8 Submission of an Application for Acceptance as a Championship Breed to the Executive Office and a copy to each member of the Genetics Committee at least 120 days prior to the board meeting at which approval is sought which includes the following:

33.7.8.1 A Letter of Intent to apply for approval as a Championship Breed, signed by at least ten TICA members in good standing;

33.7.8.2 A proposed breed standard which includes the approval of each member of the Genetics Committee;

33.7.8.3 A proposed breeding program;

33.7.8.4 A processing fee of \$50.

33.7.9 Cause a Notice of Intent to Apply for Advancement to Championship Status to be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.

33.7.10 At least 90 days prior to the Board Meeting the Genetics Committee shall forward a written report commenting upon the application. Comments from individual committee members may be attached to the report as needed. Such report may recommend approval to advance to Championship Status, denial of advancement, that further requirements be met prior to approval, return to Preliminary New Breed Status or Registration ONLY status, or make any other comments. Members of the Genetics Committee are invited to address the Board of Directors regarding the breed.

33.7.11 Make a formal presentation at the meeting of the Board of Directors, including photographs, illustrations, statistics, health and breeding reports, examples of the breed and any other relevant material.

33.7.12 The Board of Directors may approve, disapprove or impose additional requirements on the breed which the Board of Directors, entirely in their discretion, may require.

33.7.13 No breed may recognize for championship cats which are phenotypically indistinguishable from an already established breed; that is, each breed recognized for championship must be unique. However, this restriction does not apply to registration. Such cats are acceptable for registration and breeding purposes.

33.7.14 If the breed is approved for Championship, a Breed Committee shall be elected in the next regular election.

NAPOLEON CAT STANDARD

HEAD:	40 points
Shape	7 points
Ears	7 points
Eyes	7 points
Muzzle/Chin	7 points
Profile	9 points
Neck	3 points

BODY	40 points
Torso	8 points
Legs/Feet	10 points
Tail	5 points
Boning	9 points
Musculature	8 points

COAT/COLOR/PATTERN	20 points
Length/Texture	10 points
Color/Pattern	10 points

HEAD:

Shape: Round with great breadth. Jaws broad with perfect tooth occlusion. Cheeks moderately full, blending with face.

Ears: Rounded, wide apart, small to medium, fitting well into contour of head.

Eyes: Round, wide apart, large. Deep color preferred, conforming to coat color.

Muzzle/Chin: Rounded, short, blending well into face. Chin is rounded, aligning with nose.

Profile: Smooth dome with gentle curve to end of short nose. No break allowed.

Neck: Moderately short, well muscled.

BODY:

Torso: Medium long, well rounded in mid section, thick. Level back, slight rise allowed.

Legs: Upper arm comfortably wrapping around chest, well supported with short, substantial legs. Hind legs may be slightly longer than forelegs.

Feet: Round, large, pointing forward.

Tail: Proportionate to body length.

Boning: Substantial.

Musculature: Firm, well developed.

COAT/COLOR/PATTERN:

Length (long): Long all over with dense undercoat.

Length (short): Slightly longer than most shorthairs, plush, standing away from the body.

Color/Pattern (long/short): As described in TICA Color Descriptions.

CATEGORIES: All

DIVISIONS: All.

COLORS: All.

PERMISSIBLE OUTCROSSES: Munchkin Group, Persian Group (Persian, Exotic, Himalayan).

GENERAL DESCRIPTION: The Napoleon's distinctive short legs developed from a spontaneous autosomal dominant mutation. The short legs do not hamper mobility or survival. The ideal Napoleon is a strong cat with excellent boning and musculature, giving a robust appearance without clumsiness. Although a hybrid of the Munchkin and Persian Groups, care must be taken that the Napoleon resembles neither a short Persian nor a heavily coated Munchkin. The Napoleon maintains its uniqueness with the combined traits of boning, shortness of leg, density of coat and expression comprised of a round head, eyes and muzzle blending without break into a broad, rounded dome. An overall sweet expression is a must. The Napoleon should be balanced physically and temperamentally, gentle and amenable to handling.

ALLOWANCES: Seasonal variations in either long or short coats should be recognized.

PENALIZE:

Back: Dip behind shoulders. Steep rise.

WITHHOLD ALL AWARDS:

Profile: Any break in curve of forehead to nose.

DISQUALIFY:

Feet: Toeing out of the front feet.

Legs: Excessively protruding elbows. Any evidence of lameness.

From: Bonnie Charvat <Shetari@bellsouth.net>
To: <information@ticaeo.com>

Dear Ms. Bowers:

Unfortunately I do not have a copy of the email sent to the chairpersons of the Genetics and Rules Committees and their liaisons, plus Ms. Kay DeVilbiss, regarding the BB/BH proposed standard change. I have forwarded this email from Dorothy Lewis which includes the wording of my original email.

I have already made the corrections that Nancy Parkinson suggested. This will be the copy that I send. I resend the proposed standard to the Genetics Committee as individuals and also send a copy of that email to you.

Thank you for the help you gave me today in our phone conversation.

Yours,

Bonnie Charvat, co-chair

American Bobtail Breed Committee

----- Original Message -----

Subject: Re: Emailing: Proposed American Bobtail

Here is first reply from rules committee (Nancy Parkinson)

1. Language for Permissible Outcrosses needs to be consistent with other breeds. See comments in red below
2. Eye color reference should not specify lynx points and color points...just pointed.
3. All of the items listed under Withhold Awards are structural faults and should be listed under Disqualify.

4. Last sentence under Allowances probably should go at the end of the General Description.
5. Under Coat/Color/Pattern - no need to say "All colors and patterns allowed." It is already covered at the beginning of the standard under Categories, Divisions, Colors.

PERMISSIBLE OUTCROSSES: Domestic longhair/shorthair, not a member of a recognized breed

Eyes: Large, almost almond in shape. Set at a slight bias to the ear. Eye color has no relationship to coat color, except in pointeds, minks and sepias.

It is a hearty breed that has all the intelligence and skill that nature demands of her creatures. The American Bobtail displays the look of an athletic animal, well-muscled and solid, with the appearance of power. The breed should also be noted for an exceptional disposition and adaptability. Breed is slow to mature taking 2-3 years.

DISQUALIFY (DQ): No tail, full-length tail, or docked tail. Tail with less than 1 inch of bone or fused and not flexible at base.

Will keep you posted if any other comments come along.

Proposed American Bobtail (BB/BH) standard changes
AMERICAN BOBTAIL BREED GROUP (BB/BH)

The American Bobtail (BB) is a medium to large, naturally occurring short-tailed cat. The American Bobtail Shorthair (BH) is a shorthair version of the American Bobtail breed.

HEAD.....40 Points
Shape.....6
Ears.....4
Eyes.....8

Muzzle.....7
Nose.....3
Profile.....5
BODY.....40 Points
Torso.....10
Legs.....5
Feet.....2
Tail.....10
Boning.....8
Musculature.....5
COAT/COLOR....20 Points
Texture/Length.....12
Pattern/Color.....8

CATEGORIES: All

DIVISIONS: All

COLORS: All

PERMISSIBLE OUTCROSSES:

Domestic longhair/shorthair, not a member of a recognized breed.

HEAD:

Shape: Broad modified wedge with gently rounded contours, without noticeable flat planes or doming. Size in proportion to the body.

Ears: Medium to moderately large with slightly rounded tips and wide at the base. Placement should be as much on the top of the head as the side, following the shape of the wedge. Lynx tipping, furnishings and ocelli markings are desirable. Ears may appear pointed when lynx tipping is present.

Eyes: Large, almost almond in shape. Set at a slight bias to the ear. Eye color has no relationship to coat color, except in pointed, minks, and sepias.

Chin: Full in width and depth, aligns with nose.

Muzzle: Slightly wider than long, muzzle break at well defined cheeks. Prominent whisker pads.

Profile: Gentle concave curve between nose and brow.

Nose: Wide, being equally as wide from the inside corner of the eye through the length of the nose into a large nose leather.

BODY:

Torso: Moderately long and substantial with a rectangular stance. Chest full and broad. Back to be straight but not level, rising slightly toward hips. Hips almost as wide as chest. Deep flank. Muscular and athletic in appearance.

Legs: In proportion to the body, of good length and substantial boning.

Feet: Large and round. Toe tufts are desirable in longhairs.

Tail: Short with a minimum length of 1 inch actual bone. May extend to the hock, but not past it.

Boning: Substantial.

Musculature: Substantial, firm and especially noticeable in males.

COAT/COLOR/PATTERN:

Texture/Length: Resilient, all weather. Double coat in both hair lengths.

(BB) Medium-long, shaggy. Slightly longer hair on ruff, britches, belly and tail. Mutton chops preferred with long hair.

(BH) Medium-short, stands slightly away from the body. Hair may be slightly longer on belly.

Color/Pattern: Ghost markings desirable in lynx points. Tarnishing on silvers not penalized.

GENERAL DESCRIPTION: The American Bobtail, native to North America, is a medium to large, naturally occurring short-tailed cat that is a product of natural selection. It is a hearty breed that has all the intelligence and skill that nature demands of her creatures. The American Bobtail displays the look of an athletic animal, well-muscled and solid, with the appearance of power. The breed should also be noted for an exceptional disposition and adaptability. Breed is slow to mature taking 2-3 years.

LOCKETS: Allowed.

ALLOWANCES: Although straight tails are ideal, a tail may be slightly knotted or kinked and also may be curled or hooked at the end, as long as the tail remains flexible where attached to the body. The actual bone of a kitten's tail may be shorter than the 1 inch required on adults. Seasonal variations of coats should be recognized.

PENALIZE: Tail: overly long, past the hock. Eyes: round.

DISQUALIFY (DQ): No tail, full-length tail, or docked tail. Tail with less than 1 inch of bone or fused and not flexible at base.

Temperament must be unchallenging; any sign of definite challenge shall disqualify. The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm. In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications: a cat that bites (216.9), a cat showing evidence of intent to deceive (216.10), adult whole male cats not having two descended testicles (216.11), cats with all or part of the tail missing, except as authorized by a board approved standard (216.12.1), cats with more than five toes on each front foot and four toes on each back foot, unless proved the result of an injury or as authorized by a board approved standard (216.12.2), visible or invisible tail faults if Board approved standard requires disqualification (216.12.5), crossed eyes if Board approved standard requires disqualification (216.12.6), markedly smaller size, not in keeping with the breed (216.12.9), and depression of the sternum or unusually small diameter of the rib cage itself (216.12.11.1). See Show Rules, ARTICLE SIXTEEN for more comprehensive rules governing penalties and disqualifications.

Lesley Bowers
Executive Director
TICA
PO Box 2684
Harlingen, TX 78551

Dear Ms. Bowers,

Enclosed please find the TICA form for "Proposal to Amend Standards" for the Serengeti Cat.

I have submitted the proposed changes to the Rules Committee and the Genetics Committee in early November. I have approval to move forward from the Rules Committee. I have written Ellen at the Genetics' Committee three times and have not had a response. Bobbie Tullo, our breed advisor, suggested that I submit the changes to you at this time to keep the process moving forward.

Enclosed is a document with the current Serengeti Standard and the Proposed Standard side-by-side.

The members of the Serengeti breed group and other Serengeti breeders have been informed and have discussed these changes on line on a special Serengeti "list."

If you have any questions, please feel free to contact me by email at: kserengeti@aol.com
I am hoping we will be able to place this modified standard on the agenda for the next Board Meeting.

Sincerely,

Karen Sausman
Kingsmark Bengals & Serengetis
Serengeti Breed Chair

cc: Bobbie Tullo

DEC 27 2006

THE INTERNATIONAL CAT ASSOCIATION PROPOSAL TO AMEND STANDARDS

By-Laws

17.4 Duties of the Breed Committees. It is the duty of the Breed Committee to represent the Breed/Breed Group Section members on any proposed Breed Standard change, amendment or deletion, submitted by any bona fide voting members of the Breed/Breed Group Section. Any proposal submitted to the Breed Committee must be approved by a majority vote of the Committee prior to the Breed Committee Chairperson forwarding the proposal to the Genetics and Rules Committees for review and approval. It is the responsibility of the Breed Committee Chairperson to forward any approved proposal to the aforementioned Committees within 5 days of approval by the Breed Committee and to return any proposal not approved by the Committee to the person or persons originally submitting the proposal. Individual Breed Committee members may attach comments to any breed proposal submitted to the aforesaid committees or individuals. Upon approval of the Genetics and Rules Committees, the proposal must be forwarded to the Executive Office for balloting of the Breed/Breed Group Section in accordance with 118.2

(2005)

118.2 Amendment of Existing Standards. Proposed Standard amendments including but not limited to the addition or deletion of colors or the adoption of a new Standard for a recognized breed shall be submitted by the Breed Committee Chairperson to the Genetics, and Rules Committees 120 days prior to the Board meeting at which the changes are to be considered. The Genetics and Rules Committees shall act on the proposal within 15 days of receipt. Upon approval of the Genetics and Rules Committees, the Executive Office shall issue a ballot to all bona fide voting members of the Breed/Breed Group Section(s) no less than 100 days prior to the Board Meeting at which the changes are to be considered, to be counted by the official TICA Ballot Judge. Financial responsibility for said poll shall rest with the requesting party(ies).

118.2.2 Breed/Breed Group Section Members shall have at least 45 days from the date of mailing to return the ballot to the TICA Ballot Judge.

118.2.3 Upon receipt of the results of the poll, the Executive Office shall place the proposed changes on the Agenda of the next Board Meeting with the official results of the poll. The Board of Directors may approve the proposal, reject it or refer it back to the Breed/Breed Group Section(s) with suggestions for revision.

Standing Rules

1018.2 Amendments. Proposals to amend Standards shall be considered by the Board of Directors at annual or semi-annual meetings and must be in writing and received in accordance with ARTICLE EIGHTEEN, 118.2 of the TICA By-Laws. **Proposals must be received by the Genetics and Rules Committee no later than 120 days prior to the opening day of the meeting.** Proposals received after the 120-day deadline will be placed on the following meeting agenda.

1018.2.1 Proposals must be on the approved form, R-4023 Proposal to Amend Standards (available from the Executive Office or at www.TICAEO.com).

1018.2.1.1 Notification. Members are to be notified of action taken at the Board Meeting on proposals submitted by them with a target date of 10 working days after completion of the minutes.

<p>GENERAL DESCRIPTION: The ideal Serengeti Cat is a medium sized cat with long legs. It should be in excellent physical condition, very strong and muscular. It should appear as a powerful, squarely built cat with a very upright posture. Also noticeable is the long powerful neck, which blends into the base of the skull without tapering. The head should be a medium wedge with large round eyes and carry huge upright ears. In shape the head is a modified wedge, starting at the nose and flaring out in a straight line to base of ears forming a triangle with a slight break at the whiskers. Cheeks should not be prominent. In profile there is a long, straight line from the top of the head to the bridge of the eyes, then turning down approximately 30 degrees and continuing in a straight line to the tip of the nose with a very slight eyebrow ridge. The muzzle is fine but strong with no muzzle break. From the front view the whisker pads are moderately prominent. The chin is strong and lines up with tip of nose in the same vertical plane, neither receding nor excessively massive. The head is longer than it is wide. Strikingly large ears, equal to the length of the head, are one of the main features of the Serengeti. They are conical with rounded tips. Wide at base with a deep bell, the ears are set upright and close together on the top of the head. The eyes are also an important characteristic of the Serengeti. They should be large and round, neither protruding nor recessed. Much more than an eye width</p>	<p>GENERAL DESCRIPTION: The ideal Serengeti Cat is a medium sized cat with long legs. It should be in excellent physical condition, strong and muscular. It should appear as a graceful, statuesque, squarely built cat with a very upright posture. Also noticeable is the long neck, which blends into the base of the skull without tapering. Strikingly large round-tipped ears, equal to the length of the head, are one of the main features of the Serengeti. They should have a gentle, confident, outgoing and alert temperament.</p> <p style="text-align: right;">DEC 27 2006</p>

<p>apart and separated by a broad nose. Gold is the preferred eye color, followed by any shade of yellow through copper. Green and amber permitted. The Serengeti is generally a spotted cat. Preference given to random spot pattern with some short horizontal bars on the shoulders, spotting extending down the shoulders and hips on to the legs and black rings around the tail. Two-toned spots (rosettes) are not to be rewarded. Solid black and black smoke Serengetis need to have exceptional type in order to compete successfully against the spotted cats. They should have a gentle, confident, outgoing and alert temperament.</p>	
<p>ALLOWANCES: Green or amber eye color permitted. Locket on throat or small spot in groin not to exceed ½" in diameter.</p>	<p>ALLOWANCES: Small locket or small spot on groin</p>
<p>PENALIZE: Spots tending towards bars on side of body; two-toned (rosetted) spots; heavy ticking; small ears; short legs.</p>	<p>PENALIZE: Spots tending towards bars on side of body; two-toned (rosetted) spots; heavy ticking; small ears; short legs.</p>
<p>WITHOLD ALL AWARDS (WW): White tail tip, toes or white anywhere on the body except for small locket described above. Blue eyes. DISQUALIFICATION (DQ): Miniaturization.</p>	<p>WITHOLD ALL AWARDS (WW): White tail tip, toes or white anywhere on the body except for small locket described above. Blue eyes.
