2009	Spring				
2009	Annual	SE	Orlando, FL	08/30-09/02/09	

109.1 Annual Convention.

109.1.1 Annual Convention. Labor Day weekend each year is reserved for the Annual Convention. No other shows may be held the weekend of the Annual Convention with the following exception. A club may receive permission to hold a show on the Annual weekend upon application to the Board. Application must state specific reasons for the request for exemption and why such a show would have no impact on the Annual.

109.1.1.1 The rotation for the Annual Conventions shall be: Mid Pacific - 2010, Mid Atlantic - 2011, Great Lakes - 2012, Northwest -2013, Northeast - 2014, International - 2015, Southwest - 2007, South Central - 2008, Southeast - 2009.

109.1.1.2 Proposals to host the Annual Convention in the designated region must be received for the Annual Meeting 3 years prior to the proposed convention.

109.1.1.3 In the event no club submits an acceptable proposal, any club in any region may submit a proposal to host the Annual Convention by the agenda deadline for the Semi-Annual Meeting 2½ years prior to the convention and a notice soliciting such proposals shall be published in the TICA TREND.

109.1.1.4 The subsequent designated order of rotation will remain the same.

109.2 Meetings of the Board.

109.2.1 All Board Meetings shall be scheduled for a minimum of 2 days.

109.2.1.1 Meetings of the Board shall be the fourth full weekend in January (Winter Meeting, the third full weekend in May (Spring Meeting) and the week immediately preceding Labor Day weekend (TICA Annual).

109.2.1.2 The Winter Meeting shall be held in Harlingen TX without a show OR at a location outside the United States in conjunction with a show, approved by the Board.

109.2.1.3 The Spring Meeting shall be held in the United States, rotating from Central to West to East, with or without a show. The meeting venue must be at or near a major international airport at a hotel with adequate meeting space, full restaurant service and airport shuttle.

109.2.1.4 The Winter and Spring meeting locations shall be selected by the Board without consideration of accompanying show.

109.2.1.5 Minutes of all meetings of the Board of Directors shall be completed within 10 working days following the meeting.

Corrections to 2007 Semi-Annual Meeting Minutes

1. Unanimous consent to allow the Rules Chair, Dewane Barnes, Judging Administrator, Bobbie Tullo, Legal Advisors, Laurie Schiff and Frances Young, and Translator, Kenji Arai to be present during the Executive Session. Without objection.

25. Motion was made by Caruthers and seconded by Fisher to advance Al Walbrun to ***Ring and School Instructor***. Motion carried.

43. Unanimous consent to approve as "Value Added Registrations" (effective 05/01/07) a payment of \$15 (\$20 for non members) at the time of registration or transfer prior to being shown as an adult, to automatically secure all titles, champion/champion alter/master through Supreme Grand Champion/Supreme Grand Champion Alter/Supreme Grand Master earned by the cat. Without objection.

44. Unanimous consent that beginning 05/01/07, non-members will pay \$2 more than active TICA members for all registrations. Without objection.

55. Motion was made by Wood and seconded by Christian to poll the LaPerm Breed Group concerning adding an asterisk to the breed and a revised outcross policy, with the explanations on the asterisk and outcrosses provided by Genetics Chair, Solveig Pflueger. Motion carried unanimously.

72. Motion was made by Parkinson and seconded by Fisher changes to Standing Rule 2013 to read:

2013.1 Permission to Judge. A TICA judge may judge any TICA show any place at any time. Only Allbreed judges may judge non-TICA shows ~~outside the United States and Canada~~ as *guest judges*.

2013.1.1 International Assignments. TICA Allbreed Judges invited to judge non-TICA shows as *guest judges* shall advise the Judging Administrator.

2013.1.2 *A TICA judge, in addition to being licensed by TICA, may be licensed by any Traditional Association [affiliated with the World Cat Congress or other independent Traditional Associations] and may judge as a Traditional judge for that association.*

Rationale: The above proposed changes bring equality to all TICA judges. Currently, only judges outside of North America can be licensed by and judge for Traditional Associations.

Motion carried with Ashley, Caruthers, Christian, Crockett and Parris opposed. (See Motion #77.)

77. Motion was made by Parkinson and seconded by Caruthers to reconsider Motion #72. Motion carried with the President breaking the tie vote; Dickie, Fisher Parkinson Parris and Wood were opposed. On reconsideration Motion 72 carried with the President breaking the tie; Ashley, Caruthers, Christian, Crockett and Parris were opposed.

The International Cat Association, Inc.

Board Governance

PREFACE

to By-Laws, Registration Rules, Show Rules, Standing Rules
Uniform Color Descriptions and Standards

The By-Laws take precedence over ALL other Rules, followed by the Registration Rules, Show Rules, Standing Rules, and Uniform Color Descriptions, in that order. The Registration Rules, Show Rules, Standing Rules, and Uniform Color Descriptions shall take precedence over any individual Breed Standard UNLESS that Standard is MORE restrictive than the general rules applying to ALL breeds, in which case the Standard shall take precedence.

ARTICLE ONE: *Committee Charter*

The purpose of this committee is:

- ◆ To infuse a desire for and commitment to best practices in governance within the TICA Board of Directors.
- ◆ Review and recommend to the full Board governance processes such as agenda design and management, Board action follow up, budget and strategic planning "rhythm", and meeting evaluation.
- ◆ Oversee development of TICA Board policies, including "Board Ethics."
- ◆ Solicit recommendations and arrange for Board "educational" sessions about TICA's business and operating processes.

ARTICLE TWO: *Ethics*

Confidentiality. Members of the Board of Directors shall use information belonging to or obtained through their affiliation with TICA solely for the purpose of performing services as a Board member for TICA. All such information is confidential. Members of the Board may not disclose, divulge, or make accessible confidential information to any person, including relatives, friends and business and professional associates, other than to persons who have a legitimate need for such information and to whom TICA has authorized disclosure.

Members of the Board of Directors are reminded that Standing Rule 109.2.8 specifically prohibits the dissemination of information related to any matter discussed in Executive Sessions of the Board.

Members of the Board must exercise good judgment and care at all times to avoid unauthorized or improper disclosures of confidential information.

Conduct. Members of the Board of Directors are expected to abide by the TICA By-Laws, Show Rules, Registration Rules, Judging Program (if applicable), and all Board rulings. While members of the Board of Directors are expected and encouraged to discuss and debate proposals presented during Board meetings, once a decision is made, it is the expectation that the individual Directors will abide by and support the action of the Board, even though the prevailing position might not have been their own.

Members of the Board of Directors are ambassadors for and representatives of TICA at all times, and shall conduct themselves accordingly.

ARTICLE THREE: Action by Board Ballot

The By-Laws of the Association provide that a Director may request a ballot be taken on an issue between formal meetings of the Board. These are to be submitted through the Business Manager. The President and Vice President may request action on an issue directly.

It is the policy of the Board that ballots submitted between meetings be kept to a minimum and, generally, be limited to items for which action must be taken prior to the next regularly-scheduled Board Meeting or those items of a routine nature which do not require extensive debate.

Ballot Issues Initiated by a Regional Director.

- ◆ Issues which come to the attention of a Regional Director, and for which they feel a Board vote is necessary, must first be submitted to the full Board for discussion.
- ◆ A period for discussion will be set by that Director.
- ◆ At the conclusion of the discussion period, that Director (or any other) may decide to submit the issue for a formal ballot.
- ◆ The motion and an explanation must be submitted to the Business Manager who will submit the formal ballot for vote.
- ◆ As each individual board member votes, their vote shall be made known to the remaining members of the Board.

Use of Board Ballots for Consent Agenda Items.

- ◆ The President should consider the use of a Board Ballot prior to the actual meeting of the Board for those items which are of a more routine nature, require little discussion or are generally for information only purposes.
- ◆ These items might require a “receipt be noted” action by the Board.
- ◆ It will be the responsibility of individual Board members to read these items, ask appropriate questions and then vote on those items.
- ◆ If there is an individual item that a Board Member feels deserves debate and discussion, rather than the answering of simple questions, it may be pulled from the Consent Agenda Board Ballot and placed on the regular meeting agenda for discussion and action.

ARTICLE FOUR: *Meeting Agenda Management* **Amended Board Governance Policy**

Meeting Agenda Management

It is the policy of the Board that the agenda be efficiently managed in order to engage the Board in the most important business facing the Association and reflect the discussions necessary for the highest and best use of the Board of Directors.

Time Management

The agenda items should be assigned suggested time limits. The Board finds this useful in managing discussions.

Additionally, when there are items and reports that do not need to take up meeting time for discussion, they should be placed on a consent agenda. This would include items that the Board needs to take action on but could easily be read by the board members, questions asked ahead of the meeting, and passed without discussion or debate. If a particular item is felt to need discussion or debate (not just a simple question answered), it can be pulled off the consent agenda and added into the regular agenda, at the request of a Director.

Governance Cycles

There are at least three major categories of agenda items which are recurring and components of which might be presented to the Board in cycles. They include the Budget cycle, Legislative cycle, and the Committee cycle.

Budget Cycle

Topics for Annual Meeting

- Review wrap up of prior year budget
- Review results of prior year's indicators (in business plan)

Topics for Winter Meeting

- Review and accept prior year's audit report
- Mid-year budget review
- Review mid-year indicator reports
- Adopt new budget for next year

Topics for Spring Meeting

- Strategic planning (review of business plan)
- Review budget status

Legislative Cycle

Topics for Annual

Proposals which, if passed, require membership vote

Proposals which require no membership vote

Topics for Winter Meeting

Proposals which require no membership vote

Topics for Spring Meeting

Proposals which require no membership vote

Committee Cycle

Topics for Annual

Report on prior year's accomplishments

Receive and approve recommendations for new goals

Topics for Winter Meeting

Report on progress of goals

An additional cycle is the Governance Cycle, which includes a review of the make up and viability of regions every 3 years.

Follow Up Report

A follow up report will accompany each set of meeting minutes. Follow up items will be reported on or included in the next meeting agenda. The follow up report will list any action that the Board had requested during the prior meeting, the person assigned the task, a timeframe for accomplishment, and status. Part of every agenda would be the review of the follow up report.

Proposed Governance Policy

Publishing Minutes of the Meetings of the TICA Board of Directors

Reporting Executive Sessions

It is expected that the published minutes of the general board meeting record that the Board went into executive session, what was discussed, and the outcome of that discussion. For example, the general minutes of the meeting may record that the Board went into executive session to consider advancement and re-licensing of judges.

The general minutes would then record the outcome of that consideration, omitting the name of the maker and second of the motion. E.g., “The Board of Directors went into executive session to consider advancement and licensing of judges. All judges were re-licensed with the exception of Judge A who was to be considered re-licensed only upon completion of requirements. Applicants A, B and C were accepted into the Judging Program. Judges D, E, and F were advanced to Approved Allbreed Judge.

The Board should maintain separate minutes of the executive session meeting which, if appropriate, go into more detail and reflect the deliberation and reasoning behind whatever action the board took in executive session.

Reporting outcome of voting:

The outcome of voting on motions will be either noted as “carried” or “denied”. The use of “carried unanimously” shall be used only if requested by the Chair and agreed to by the Board.

When there are amendments to a main (original) motion, only the final outcome of the main motion is recorded with a “parenthetical” that the main motion had been amended: E.g., Upon amendment, Motion made by X and seconded by Y to amend Show Rules as follows.

When a motion is reconsidered, only the outcome of the main motion is reported. E.g., Motion to amend Show Rules, upon reconsideration, is denied. OR, Motion to amend Show Rules, upon reconsideration, carries.

.

ARTICLE FIVE: *Travel Reimbursement:* *President/Vice President (Officers)*

In accordance with Standing Rule 1011.4.3, the travel expenses of the President and Vice President to attend Board meetings are to be reimbursed by the Association, if funds are available.

Procedures for Implementation of Policy:

Reimbursable Expenses:

- ◆ If an Officer chooses to travel by car to a meeting, reimbursement for transportation will be based on the lesser of:
 - ◆ Mileage at the prevailing rate allowed by the Internal Revenue Service **OR**
 - ◆ The lowest reasonable airfare available, including any additional ground transportation required. The Officer must demonstrate that the cost of travel by car is the lesser by submitting a brief analysis, comparing the two. Officers will be reimbursed for hotel and meals at the same rate that is available for Regional Directors.

Claiming Reimbursement:

- ◆ Officers may claim reimbursement under this policy by completing and submitting the TICA official Expense Report.
- ◆ All original receipts must be attached for any expenses claimed which are not paid for directly by the Association or included in per diem. Expense reimbursements for the Vice President must be approved by the President, prior to payment. Expense reimbursements for the President must be approved by the Chairman of the Finance Committee, prior to payment.

ARTICLE SIX: *Travel Reimbursement:* ***Regional Directors***

Policy: It is the policy of the board that a portion of the transportation expenses of the Regional Directors will be reimbursed when they attend Board Meetings.

- ◆ North American RDs - Up to \$300 for meetings held in North America
- ◆ International RDs - Up to \$800 for meetings held in North America

For meetings held internationally:

- ◆ Directors from the continent in which the meeting is held - Up to \$300
- ◆ Other directors - Up to \$800

Procedures for Implementation of Policy: If a Director chooses to travel by car to a meeting, the director may be reimbursed:

- ◆ Mileage at the prevailing rate allowed by the Internal Revenue Service **OR**
- ◆ The cost of an airline ticket. The Director must demonstrate that the cost of travel by car is the lesser by submitting a printout of the lowest available fare between the airport nearest to the Director and the location of the meeting. Directors judging the show and those using mileage award tickets will not be reimbursed.

Hi All:

I promised I would do a bit of analysis on the Yearbook and report to you all. As we all know, the inventory in the EO is quite high. Thanks to everyone for taking some of the prior books. I ordered 3 cases and have been selling the books just to cover my shipping.

As of February, after our meeting, here is what I noted:

2003 Yearbook, printed 550 copies, 175 went to the EO, they shipped out 15 and have 160 remaining, \$12,000+ cost in inventory

2004 Yearbook, printed 500 copies, 233 went to the EO, they shipped out 61 and had 172 remaining, \$17,000+ cost in inventory

2005 Yearbook, printed 600 copies, 262 went to the EO, they shipped out 52 and had 210 remaining, \$18,000+ cost in inventory

Somehow or another we managed to have 700 copies of 2006 Yearbook printed. If sales follows years past, we could be looking at only 400 copies in sales. If that is the case, we would have 300 copies remaining at a cost somewhere in the \$27,000+ range.

The old saying is that: "If you keep doing the same thing, you'll keep getting the same result." Sooooo, we need to do something different this year in order to reduce our loss in yearbooks==since we have 700 to deal with. This excess in yearbook inventory could translate into additional loss to our bottom line.

Any thoughts? I do find that people are willing to buy yearbooks if I have them at shows. So far, I've been selling old books; people do ask me about the new ones. Maybe we all should have some to sell. If we all sold 8 new books, we could come close to taking care of 100 books and reducing potential loss.

You must also know that the Yearbooks cost us AT LEAST twice as much as we sell them for.

Vickie Fisher

2007 Russia Ballot Results

I agree that Russia will become NOT Isolated area from 1st of May
2007

- 4 Yes
- 7 No

2007 American Bobtail Breed Group Results

Vote for ONE

□ **Category I:** This category is for breeds which typically differ from one of the older established breeds or from the general feline population on the basis of a single gene locus. Many of these breeds have originated as spontaneous mutations within the domestic cat population. Others have appeared within established breeds and may be the result of earlier mutations or outcrosses. Regardless of origin, these breeds are still in active development and may need to cross back to a parental breed to improve type or augment a limited gene pool. With few exceptions these breeds generally have little to gain from use of cats of unknown backgrounds.

Registration Rules **37.2.2** states: "**Requirements for Championship Exhibition.** There can be no outcross to other breeds except within a breed group within the three generation pedigree. No unknown or unregistered cats may appear within the three generation pedigree."

□ **Category III:** This category is for breeds which typically differ from one of the older established breeds or from the general feline population on the basis of a single gene locus. Many of these breeds have originated as spontaneous mutations within the domestic cat population. Others have appeared within established breeds and may be the result of earlier mutations or outcrosses. Regardless of origin, these breeds are still in active development and may need to cross back to a parental breed to improve type or augment a limited gene pool. With few exceptions these breeds generally have little to gain from use of cats of unknown backgrounds.

Registration Rules **37.4.2** states: "**Requirements for Championship Exhibition.** There can be no unknown or unregistered cats within the three generation pedigree unless a special exception is made for the breed due to an unusually limited gene pool. Hybridization is acceptable within the pedigree provided these outcrosses are to one of the listed accepted outcross breeds. (See Requirements for Registration, 37.4.4.)

Standing Rules **307.4.2** states: "Category III breeds must have an SBT(V), AOP, BOP or COP status code to be eligible for championship competition."

Neither category creates difficulty for a cat coming in under the ancestry registry.

Both categories require that any cat brought in as an O1T be bred to SBT status for showing, after being registered with the following procedure: A signed Certificate Form (Form #R- 4067) from three TICA Allbreed judges stating that they have handled the cat in question and find that it sufficiently meets the standard for its breed to be used in a breeding program.

Additional Registration Rules which apply to both categories:

37.8.2 A change to a more restrictive category shall apply only to cats born ten or more weeks subsequent to the date the change is approved and the membership is notified. (This allows for litters which are in utero at the time the change is approved.) Cats born prior to this date will still be accepted according to the earlier requirements.

37.8.4 No cat's registration shall be rescinded due to subsequent change in registration category for the breed.

21 **Category 3**

3 **Category 1**

Exception Report

- There were three with no e-mail addresses/no votes.
- There were nineteen that did not vote.

Total of eligible voting members	<u>46</u>
Total of Voting members	<u>24</u>
Total of no votes	<u>22</u>

The International Cat Association, Inc.

Business Plan

PREFACE

to By-Laws, Registration Rules, Show Rules, Standing Rules, Uniform Color Descriptions and Standards

The By-Laws take precedence over ALL other Rules, followed by the Registration Rules, Show Rules, Standing Rules, and Uniform Color Descriptions, in that order. The Registration Rules, Show Rules, Standing Rules, and Uniform Color Descriptions shall take precedence over any individual Breed Standard UNLESS that Standard is MORE restrictive than the general rules applying to ALL breeds, in which case the Standard shall take precedence.

TICA Business Plan

The “**Vision**” of The International Cat Association, Inc. (TICA) is:

To be the cat fancier’s choice for registration, exhibition, comradery, and guidance on feline care and welfare and genetically sound, responsible breeding.”

The “**Mission**” of the International Cat Association (TICA) is:

- To be the most accurate and comprehensive feline registry in the world.
- To encourage and sanction cat shows that are both enjoyable and educational.
- To promote comradery among cat fanciers worldwide.
- To encourage the caring, responsible ownership of cats and the responsible breeding of pedigree cats.

The “**Values**” of TICA are that it will:

- Respect, honor, and promote the welfare of all cats.
- Maintain an accurate and comprehensive genetic registry.
- Foster comradery and good sportsmanship.
- Provide friendly, efficient customer service.

The essence of TICA is captured in its **Motto**:

“TICA for fabulous felines, fun and friendships!”

History. The International Cat Association was organized in the summer of 1979. The first Annual Board of Directors' Meeting was held in August, 1979, in Atlanta, Georgia and the first Annual International Convention and Awards Banquet was held in Pasadena, California, on Labor Day weekend in 1980.

TICA's unique genetically-based registry has encouraged world-wide participation and is the largest genetic registry in the world. What started on a trial basis has become another hallmark of TICA. The organization follows a judging format which eliminates any reference to status, title or identification of the show entries. With enthusiastic acceptance by exhibitors, the Board of Directors approved an unprecedented process whereby cats are judged purely on their merits at the time of judging.

TICA's oldest chartered club is the Commencement Cat Club, founded in Olympia, Washington on July 30, 1979. TICA became truly "international" in September of 1979 when the All Japan Cat Club was chartered. TICA clubs include charters in Argentina, Austria, Australia, Belgium, Brazil, Canada, France, Germany, Iceland, Japan, Malta, Mexico, the Netherlands, Peru, the Philippines, Puerto Rico, Russia, Switzerland, and the United States.

Structure. TICA is guided by a Board of Directors, comprised of a President, Vice President, and Regional Directors. The officers and directors are elected for 3-year terms by the TICA general membership.

The President is the Chief Executive Officer and official spokesperson for the Association and is authorized to take any action on behalf of the Association necessary to conduct the day-to-day operations of the Association. Authority to enter into contracts or file lawsuits is given to the President only by specific approval of the Board. The President presides at the Annual Convention and all other meetings of the membership and the Board of Directors.

The Board of Directors is charged with the administration of the affairs of the Association and with policy formulation and implementation. Any proposed changes to the Show Rules, By-Laws and/or Registration Rules must be submitted by the Board to the membership for a vote of ratification or denial.

TICA members are represented by Regional Directors. It is the Board's desire to maintain sufficient regions so that directors may adequately perform their duties to their members yet cause regions to be somewhat "equal" to each other in membership and activity. TICA currently has 13 regions which are: South America, Northern Europe, Southern Europe, Asia, Great Lakes, Great Plains, Northeast, Mid Atlantic, Mid Pacific, Northwest, South Central, South East, Southwest. The Associate Director for Australia and New Zealand has resigned and not been replaced. Effective January 1, 2007, the Great Plains Region will be dissolved and its membership absorbed by the South Central, Southwest, Great Lakes and Northwest Regions. The South America Region has been returned to Associate Director status. However, the region's progress towards developing itself into a more viable region will be reviewed as early as May, 2008.

Responsibilities of the Regional Directors include scheduling shows for the regions, promoting Regional Awards, promoting judging schools and seminars in conjunction with shows, recruiting new clubs and members, and the dissemination of information to the clubs in their regions.

The Board of Directors employs a Business Manager/Executive Secretary, who may also be Treasurer, to manage the business affairs of the Association. The Business Manager serves in an advisory capacity to the Board and is not a voting member.

The Board of Directors appoints the Judging Administrator and has also created standing committees to serve in an advisory capacity to various functions of the Association. These standing committees are the following:

- Computerization Committee
- Feline Welfare Committee
- Finance Committee
- Genetics Committee
- Governance Committee
- Household Pet Committee
- International Development Committee
- Legal Committee
- Legislative Committee
- Marketing Committee
- Publications Committee
- Rescue Committee
- Rules Committee
- TIFS Junior Achiever Committee

Board Governance Policy.

Accountability. The Board understands that its duty is to see that the organization acts in the best interests of the members whom it serves, including the cat fancy, in general. Board members bring perspectives and knowledge from outside endeavors, different geographical areas and diverse cultures. Although Regional Directors represent single regions and consider the perspective of those specific regions, they must also consider the best interests of TICA as a whole, as well as the cat fancy in general. Directors do not represent single constituencies. The Board acts with diligence and objectivity on behalf of the members as a whole.

Responsibility. The Board focuses its work on major responsibilities:

- Defining the ends, policies, and goals of the organization, beginning with the mission, vision, and strategic plan
- Making and supporting decisions that advance the ends
- Monitoring organizational performance and exercise accountability for results, especially in the areas of mission effectiveness, financial stewardship, strategic direction, and customer service
- Taking responsibility for the Board's own effectiveness

Exemplary Conduct. Exhibit trust and respect toward colleagues and management, honor the confidentiality of sensitive information, and be aware of and disclose any (or potential) conflicts of interest.

Mission-Driven. Board work is designed to enhance the mission, vision, values and strategic direction of the organization.

Value-Added Work. The Board focuses its meetings and other work on activities that add value for the organization, with an emphasis on high-level, strategic matters and critical issues affecting the future of the organization and the cat fancy.

In order to ensure that sufficient time is available for the Board to discuss and act at a strategic level, a third meeting has been added to the annual meeting schedule. While the Annual meeting remains unchanged, the Board has created a Winter meeting, to be held on the 4th full weekend in January, and a Spring meeting, to be held the 3rd full weekend in May.

Since the Board of Directors is a volunteer board, it is important to maximize the ability of members and advisors to attend and minimize the expense to the organization and individual directors and advisors. To that end, the Board has determined that both the Winter and Spring meetings will occur over weekends, rather than during the week, minimizing the need for absence from work.

Winter meetings will be held at TICA's Executive Office location of Harlingen, Texas. An exception may be considered if an international club submits a request to host a show in conjunction with the Board meeting. Spring meetings will rotate location within

the United States from a Central U.S. location, to a West Coast location, and then an East Coast location. These meetings will occur at a hotel at or near a major international airport.

Membership. Membership in TICA supports:

The maintenance of a cat and cattery registry.

A recognition system which includes the development and maintenance of breed standards, show licensing, granting of titles and awards.

Training and certification of judges.

Training and certification of show clerks.

Information networks for breeders and fanciers to enhance their knowledge of the responsible care of felines.

Who may join? Membership shall be open to any individual person who is interested in owning, breeding or exhibiting domesticated cats.

Members are divided into classes, as follows:

Regular Member. Those members 18 years of age or older who have paid the regular membership fee. Regular members are eligible to vote and to receive all rights, privileges and honors accorded.

Family Member. Additional members of a regular member's family, over the age of 18 years, who pay family membership dues. Family members have the same rights and privileges as regular members. Only one family member per regular member may vote.

International Member. Those members 18 years of age or older who have paid the international membership fee. International members are eligible to vote and to receive all rights, privileges and honors accorded.

International Family Member. Additional members of an International member's family, over the age of 18, who pay international family membership dues. Family members have the same rights/privileges as International members, excluding a TICA TREND subscription. One additional family member per international member may vote.

Junior Member. Those members under 18 years of age who pay junior membership dues. Junior members have the same rights and privileges as regular members except the right to vote and hold office.

Life Member. Those members who pay the life membership fee. Life members have the same rights and privileges as regular members.

Schedule of the membership dues, payable the first of May for the ensuing year:

Regular Member - \$25	International Member - \$30
Family Member - \$10	International Family Member - \$15
Junior Member - \$10	International Junior Member - \$15
Regular Member-5 year - \$110	International Regular-5 year - \$135
	Life Member - \$1,000

What are the benefits? Membership, first and foremost, gives an individual the right to vote. A distinguishing feature of TICA is the fact that individual members may vote on issues, directly, not through club representation. Membership also includes the right to belong to a breed section of choice.

Members receive a complimentary subscription to the TICA Trend, the official bi-monthly magazine of the Association which contains the following:

- Quarterly financial report and annual audit report of the Association
- Regional Awards (Aug/Sep)
- International Awards (Oct/Nov)
- Candidate Election Statements (Oct/Nov)
- Hall of Fame, TICA Treasure, Lifetime Achievement
- Judge of the Year/Member of the Year Ballots
- Annual Service Awards
- Membership Ballot Results
- Photos of Applicants to the Judging Program
- Notices of Intent - Breed/Trait Advancements
- Officer's Reports
- Recall Petitions/Rebuttals
- Initiative and Referendums/Rebuttals
- Five-year chart showing membership numbers by region (Feb/Mar)

Membership is not required to register cats, attend shows, achieve titles, win awards, or belong to a club. New members must complete the application for which includes an agreement to abide by the rules and regulations of the Association, pay the required fee for membership dues and have at least one cat or a cattery name registered with TICA. A member's region of record is the region where the member resides.

Customer and Market Analysis. TICA's customers are the individuals - *breeders and fanciers* - in the cat fancy who seek the services and support provided by the Association. Potential customers are animal lovers who are interested in and care about the welfare of cats.

While potential markets for TICA's services might be reflected in the memberships of other cat fancier and registry organizations, another potential market for TICA's services might be reflected by the circulation of the primary cat magazine, CAT FANCY. Junior exhibitors and alliances with animal welfare and rescue groups may also be market potentials.

Key Success Indicators. The following are the *key success indicators* that the organization chooses to track as indicative of its success in fulfilling its **Vision** and **Mission**:

*Growth in the number of cats exhibited in TICA shows.

Region	1999	2000	2001	2002	2003	2004	2005	2006

*Growth in registrations

TICA Registrations by Year:

1998	1999	2000	2001	2002	2003	2004	2005	2006
14,682	14,677	14,783	15,524	16,338	17,160	18,127	19,565	

Key Business Strategies.

Maintain the genetic-based registry.

Register Household Pets; recognize and honor them on an equal basis with pedigreed cats.

Maintain unique show format. (Judging without known titles, friendly show atmosphere)

Membership entitles an individual vote.

Integrate business processes in order to deliver timely and professional customer service.

Support the development of new clubs in order to increase the number of show opportunities for current members and as a way to encourage more interest in the cat fancy.

Preserve and expand the cat fancy through strategic alliances.

Deliver a quality recognition program.

Expand TICA's international presence.

Operations. TICA operates through a paid staff located in the Executive Office in Harlingen, Texas. The President and remaining members of the Board of Directors are volunteers which are partially reimbursed for their expenses in holding office. Additional volunteers staff various appointed positions and standing committees. Members of the Board of Directors serve as liaisons to the standing committees.

Objectives of The International Cat Association, as stated in its By-Laws, are:

- The registration of the pedigrees of all breeds of felines and catteries;
- The promulgation of rules governing the management of the Association and cat shows sanctioned by the Association;
- The licensing of cat shows held under the auspices of the Association;
- The establishment of comprehensive Standards for all breeds of domesticated cats;
- The honoring of outstanding felines, their owners and breeders for their accomplishments;
- The dissemination of information to promote the knowledge and interest of breeders, owners, exhibitors and the general public concerning the breeding, exhibition and improvement of breeds, and the care and welfare of all cats; and,
- The promotion of educational and friendly relations between cat owners in this country and all other countries of the world.

Major Business Processes. The following business processes of the Association support the accomplishment of the above objectives and attempt to organize, categorize and define its "business" and support functions.

Membership Process. TICA is a membership organization, totally dependent on sales of memberships and services to provide sufficient resources to maintain its operations. Members provide input into the governance of the organization and into such critical activities as establishing breed standards, registration rules, and show rules. The primary communication medium for the organization is its official magazine, The TICA Trend.

Purpose. To attract and retain members by providing quality service and those services and benefits desired by the members.

The TICA TREND.

Purpose. Provide a communication medium to members of upcoming show information, information useful to breeders and fanciers which may enhance the welfare of cats, information relative to the governance of the organization, and a means to recognize cats who deserve recognition for their accomplishments. The TREND is available to non-members on a subscription basis.

Registration Process. TICA's primary business activity is as a registry of cats. One of the Association's unique features is its genetic-based registry, which allows significant freedom to recognize new breeds and colors as they are discovered and developed.

Purpose. To create and maintain breed standards and track/certify the pedigrees of cats presented to the Association for registration. Historical data on registration activity within the major classes of registration are attached.

Breed Standards.

Purpose. Maintain a uniform system of rules whereby new breeds and colors are considered and approved for registry and competition. Administer a system of breed committees which advise the Board of Directors of the necessity of changes to existing breed standards.

Breeder Services.

Purpose. To provide additional services in support of breeders and fanciers.

Awards Process. TICA maintains a system of competition, centered around points earned by cats at local cat shows. The Association sanctions local clubs and their shows. The clubs are financially responsible for their shows.

There are three ways a cat may officially receive acknowledgment for its accomplishments:

- Titles
- Regional Awards
- International Awards

A significant number of TICA's business processes are designed to support this activity including maintenance of show rules, providing supporting show supplies and insurance, tracking wins for titles, scoring shows for regional and international wins, supporting regional and international awards ceremonies, and providing a yearbook to recognize and honor the winners.

Purpose. The Awards Process was established to provide a venue for both breeders and fanciers to compete for titles and awards for their cats, thereby fostering the development and maintenance of breed standards and creating an environment for social and informational exchange.

Clubs.

Purpose. Clubs provide the avenue for TICA to conduct an awards program, to generate interest in the cat fancy and cultivate friendship among fanciers and breeders.

The current number of chartered clubs is as follows:

1999	2000	2001	2002	2003	2004	2005	2006
502	522	537	552	572	588	610	632

Shows.

Purpose. Shows, which are sponsored by individual TICA chartered clubs, are the means by which the awards program is carried out. Shows provide the setting for exhibitors to compete for awards and titles. Without shows, there would be no awards program. Shows, additionally, foster an interaction with cat fanciers which encourages interest in the cat fancy and provides a social setting.

Scoring.

Purpose. The Scoring process is necessary to provide a framework by which competition is measured and to reliably, systematically, and timely record scores generated by cats in competition so that cats and breeders can be honored by annual and regional awards.

Recognition - Titles and Awards.

Purpose. To provide a three-tiered approach to recognizing the accomplishments of breeders and fanciers through the granting of titles and the awarding of Regional and International Awards and thereby, again, fostering the interest in the cat fancy.

The TICA Yearbook.

Purpose. TICA's flagship publication giving tribute to our organization.

Judging/Clerking Administration.

Purpose. The Judging/Clerking Administration purpose is to provide qualified judges and clerks to support the awards program.

Business Operations.

Purpose. To carry out the day-to-day business of the Association in an efficient and effective manner.

Goals for next year:

Strategic goals.

1. Set up a program to encourage household pet registrations by rebating to qualified 501(c)(3) organizations \$1 of each new registration they are responsible for. **STATUS:** Functional but not marketed—work continues on developing this program.
2. Pursue a partnership with a major corporate sponsor in order to promote TICA, shows and showing. **STATUS:** Royal Canin partnership is continuing.
3. Pursue the possibility of TICA hosting a Madison Square Gardens cat show as a marketing and educational tool. **STATUS:** The Board has determined that this show is cost prohibitive at this time.

4. Review and approve an E-Business strategic plan at the 2005 Annual Meeting in order to provide quick and convenient service to our customers. **STATUS:** The Board has determined that this show is cost prohibitive at this time.

5. Ebiz Committee to develop and implement an Ebiz application before the beginning of the next show season. **STATUS:** This committee has been dissolved. The webmaster, however, in addition to “online membership”, intends that additional web services will be operational by the Annual meeting. These may include Registration and Confirmation of Wins.

6. Study the possibility of and benefits to seeking tax exempt status. **STATUS:** This was determined not to be feasible; tax status will remain as is.

7. To address the concern of the “graying of the cat fancy”, the President was asked to appoint a committee to look into combining the current junior exhibitor program with TIFS Junior Achievers program and report back to the Board with a recommendation by the Annual. **STATUS:** The Junior Achievers program has been implemented and enthusiasm is growing steadily, thanks to regional coordinators and mentors.

8. The Board believes that TICA should be more active in feline welfare and feline rescue activities. The President was asked to create and appoint members to a TICA Feline Rescue Committee. The Feline Welfare Committee should be reconstituted. Both committees are to draft charters and report to the Board at the Annual. The President was also asked to appoint a TICA member to the Joint Purebred Rescue Board of Directors. **STATUS:** This has been completed.

Operational goals.

1. Increase TREND advertising revenues to offset increase in production and mailing costs. **STATUS:** Board will review TREND report at the Annual.

2. Complete and implement a new Executive Office automated scoring system. **STATUS:** The Board has tasked the Executive Director and staff to implement automatic titling by the Annual meeting.

3. Continue to improve the quality of the Yearbook. **STATUS:** A Committee was appointed to review the Yearbook. The Committee report will be presented at the Annual meeting.

4. In order to better coordinate shows throughout the regions, the Directors will establish and use a “Groups” calendar function to list and track shows in the regions. **STATUS:** This was completed.

5. In order to ensure that the committee system is functioning effectively, the Board referred to the Rules Committee the following tasks:

a. Draft purpose of the Board Liaison to committees. **STATUS:** Standing Rule 106.4 was updated and approved.

b. Draft definition of the role of the Chairs of the committees. **STATUS:** Standing Rule 106.4.8 defines the International Development Committee. With the change from International to International Development Committee, draft amended committee charter and focus. **STATUS:** Standing Rule 106.4.8 defines the International Development Committee.

6. Define roles of the Legislative and Feline Welfare Committees. **STATUS:** Rules Committee is working on an update for the Feline Welfare Committee which should be on the Annual Agenda.

Add By-Laws 19.2.7 (Sharon Ann Paradis)

19.2.7 Should any Regional Director be unable to attend a meeting of the Board of Directors due to circumstances beyond the Regional Director's control, such as airline flight cancellations, public transportation strikes, or impassable highways then the regional Director will be allowed to participate in the Board Meeting via audio and/or video conferencing technology.

Rationale: No Regional Director would intentionally miss attending a Board Meeting. By allowing the use of 21st century technology the Region he/she represents will not be penalized because of his/her absence. Every cell phone on the market has an integrated speaker and most hotels have telephone conference call capability; most hotels now have wireless internet connections.

Rules Comments:

LS - Attending meetings via telephone is, at best, unwieldy and impractical and, at worst, impossible as it is already very difficult at times to hear and understand everything being said when people are in the same room. The purpose of a physical meeting is to allow the board members to interact and discuss matters in a face to face manner. It is also impossible to maintain a record of votes, or to allow for secret ballots (as are held regarding some matters) with remote attendance. Additionally, confidentiality of the board meetings is difficult as is; with no ability to ascertain and control who is actually listening to the meeting, confidentiality, which is required by the bylaws in certain circumstances, cannot be maintained.

Further, the membership just voted to eliminate proxies under far more restrictive circumstances than this proposal. As this proposal would allow attendance at meetings without actually being present in any circumstances whatsoever, I would not recommend this proposal.

No region is "unrepresented" - each director must make decisions that are in the best interest of TICA, not individual regions.

FY - If this is considered, the party who wishes to attend a meeting in such a manner should be responsible for all expenses and details of setting up the procedure.

MW - I'd like to take a different approach to this. I would suggest that we amend the By-Laws to include the possibility of a Director attending a Board meeting via video or teleconference. And that the Director (or Region) pay for any additional expense (taking into account any saving on unused airfares, lodging and meals).

This then shows that TICA is being progressive and would allay some of the negative vibes about the removal of proxies. Whether this provision is actually put into practice is then an entirely different matter.

The relevant Director(s) could attend Executive Sessions by phone - but abstain from voting because of the impracticability of participating in a secret ballot.

Amend Judging Program (Pascale Portelas)

Article 3 - Training Program

43.3.1 Training will consist of :

43.3.1.1 A minimum of 40 ring training sessions

43.3.1.2 *Completion of a closed book exam*

43.3.1.3 A minimum of four solo sessions. Solo Judging cannot be started until all ring training sessions have been completed *and closed book exam passed.*

Add:

43.3.2.6 *Upon completion of ring training all trainees shall take a closed book exam proctored by a Licensed Instructor prior to starting solo rings.*

43.3.2.6.1 *Closed book exam will consist of 50 questions and must be passed with a score of 80%.*

43.3.2.6.2 *Exam will take place in a show hall and will last 2-3 hours.*

43.3.2.6.3 *If exam is failed, additional training will be recommended and exam may be retaken in 3 months.*

Article 4 - Probationary and Approved Specialty Judge

44.2 When the training portion of the program *and final exam has been completed*, the rest to remain the same....

44.2.1 All training, *including final exam* and all solos, must be scheduled the rest to remain the same

Article 8 - Acceptance of Judges from Other Cat Associations

48.7.1 An applicant who is a licensed allbreed judge in his/her current association at the time of application shall be granted a license ONLY AFTER the applicant has trained with TICA Instructors, handling all cats and kittens in a minimum of six different TICA shows. Prior to licensing, the applicant shall *have completed the closed book exam and one solo training session* handling a minimum of 30 cats, kittens or alters. The applicant shall write breed critiques on all breeds not recognized in the association in which the applicant previously judged.

48.7.2 An applicant not currently licensed to judge all breeds of cats from a non-domestic association where licensing is by Group shall be granted a license ONLY AFTER training a minimum of 10 shows with licensed TICA Approved Allbreed Judges, six of which must be licensed Instructors, handling those breeds not currently licensed to judge, handling all applicable entries. In addition, the applicant shall do three general training sessions handling all cats and kittens in three different shows. The applicant will stay in the judging ring the entire day for ALL training sessions handling any additional cats the Instructor requires. Prior to licensing the applicant shall *have completed the closed book exam and two solo training sessions* handling a minimum of 30 cats/kittens or alters. The applicant shall write breed critiques as assigned by the Judging Administrator.

Comments:

DB - I disagree with the JP proposal for the following reasons:

1. I feel that we should not keep changing the judging program at every Board meeting. I think we need to step back for awhile so we have some stability in the program.
2. This seems to me to be just another hurdle which will discourage people from applying to the judging program
3. I agree with Kay that this violates the agreement we made with applicants when they entered the program.
4. In my mind, this implies that the ring training that is being done is not adequate. Our judging requirements are now stricter than those of any other association. While we certainly need the most qualified judges, aren't we going a little overboard?

AR -It does seem strange to take the test before you go to school. If we consider the exam our entrance exam, perhaps there should be another before graduation. Or would some of the entrance exam material be more appropriate as "final" exam material?

JA Comment: If this is adopted, the entrance exam to the judging program would be considerably smaller than it is now, it would consist mainly of the rules of the association with some breed and genetics questions. The closed book exam at the end of training would consist of more in-depth breed and genetics questions. A sample of the closed book exam is enclosed with the proposal.

Amend Judging Program to add 43.3.1.3 - Training Fees (Pascale Portelas)

43.3.1.3 Training Fees. Fees of (\$ 25.00 /\$30.00) should be paid to the Instructor at the time of the training session. Preference should be given to judges who are licensed Instructors for the training session.

PRO: Motivate judges to accept trainees. Reward the judge for sharing his knowledge. Slow down some trainees

CON: Training already expensive for the trainee. Some trainees cannot afford it.

Comments:

LS - On the one hand, it is extra work to train people, however, limiting this (or giving preference) to "instructors" simply changes the motivation to become a training judge from one of wanting to share/train to one of wanting to make more \$\$\$\$. Plus I'm not sure that I want judges who care all that much about \$30 to be the most influential on our trainees. Also, and I may be wrong, but I don't think training someone on one class of cats is that big of a deal (as opposed to doing an entire day). Finally, I can't see this being financially feasible for much of anyone -at 40 training sessions, even at \$25, it adds another \$1000 in costs to the trainee.

MW -Well Put. I feel exactly as you about this. (Reference LS comment)

NP - I train judges because I want to, not because of the \$\$\$\$.

DB - I am opposed to this and concur with Laurie's comments.

AR - People tend to value more the things for which they have to pay. This might make trainees a little more selective about the judges with whom they choose to train and it might slow down some of those who are intent on thundering through the requirements so fast that they don't absorb anything. Those who are uncomfortable accepting a fee for their training could have the trainee make their checks payable to a charity such as the Morris Animal Foundation.

FY - I have a picture in my mind of a judge who might want a little extra money trying to train too many trainees at one show.

Amend Registration Rules 36.3.1 (Solveig Pflueger)

Current rule:

36.3.1 When no cats of breeds other than the breed of the cat being registered appear within a three generation pedigree but one or more of the cat's parents, grandparents, or great grandparents is/are either unknown or unregistered cats of the breed in question, no ancestry registration number for a cat in Category I - V shall be issued without a signed Certification Form (Form # R4067) from three TICA Allbreed judges stating that they have handled the cat in question and find that it sufficiently meets the standard for its breed to be used in a breeding program.

Proposed rule:

36.3.1 A cat of a recognized breed for whom one or both parents either are unknown or are not registered with TICA or an association which has a reciprocal registration agreement with TICA may be registered in the ancestry record of the association if the application for registration is accompanied by a signed Certification Form (Form # R4067) from three TICA Allbreed judges stating that they have evaluated the cat in question and find that it sufficiently meets the standard for its breed to be used in a breeding program.

36.3.1.1 This process may also be applied in the case of non-standard representatives of mutation breeds when the phenotype of a parent or sibling suggests that the designation as a non-standard member of the breed is appropriate. Under such circumstances judges should make an allowance for the cat not meeting the breed standard for the trait in question.

36.3.1.2 The certification requirement does not apply to cats being registered as domestic shorthairs or domestic longhairs for use in an established breeding program. It also does not apply when both parents are registered with TICA or a reciprocating association, although other rules may affect the registration status of such cats.

Rationale: There is a conflict between the current rule and RR Article 10, and between 37.3.3 and 37.4.4. This proposal serves to remove those conflicts.

Amend Show Rule 211.2 (Elektra Hammond)
Rules Approved 3/20/07

Current Rule:

- 211.2 The preface page must include the following information:
- 211.2.1 Full name of the club(s) sponsoring the show.
- 211.2.2 Names of all officiating judges.
- 211.2.3 Names of the show committee indicating official position.
- 211.2.4 Date(s) of show(s).
- 211.2.5 Name of the master clerk.

Amend to read:

- 211.2 The preface page *MUST be included with every copy of the catalog, including the Master catalog,* and must include the following information :
- 211.2.1 Full name of the club(s) sponsoring the show.
- 211.2.2 Names of all officiating judges.
- 211.2.3 Names of the show committee indicating official position.
- 211.2.4 Date(s) of show(s).
- 211.2.5 Name of the master clerk.

Rationale: Since the Preface Page includes all of the information that identifies the show (date, club, judges, etc.), it should be included with the master catalog to easily identify which show the catalog is for.

Amend Standing Rule 203.1.1

203.1.1 ALL Preliminary New Breeds (PNB), ~~and~~ Advanced New Breeds (ANB) *and New Traits (NT)* must have a TICA registration number prior to entry in any TICA show. No Preliminary New Breed, ~~or~~ Advanced New Breed *or New Traits Breed* may enter a show with a “registration pending”.

Rationale: Consistency in the New Breed Classes for all new breeds being shown

Add Standing Rules 303.4 Championship Advancement Class (Housekeeping)

303.4 Advancements from Registration Only to Preliminary New Breed, from Preliminary New Breed to Advanced New Breed, from Advanced New Breed to Championship or from New Traits to Championship shall take effect on May 1 of the ensuing year.

Rationale: Nowhere in the rules is it stated exactly when advancements take effect.

TRT Grizzly Bare - seal mink standard Minskin male

Dear TICA's Executive Office, Genetics Committee and Board of Directors,

Please accept this application for Preliminary New Breed for consideration of the Minskin (MS) at the TICA Annual in Albuquerque, New Mexico August 29~31, 2007.

In accordance with TICA's bylaws, this application is being submitted in compliance with the following:

33.5.1 Requirements for Application. A breed recognized for Registration ONLY may apply for Preliminary New Breed status upon completion of the following:

33.5.1.1 At least 15 cats which have attained the age of 8 months are registered with TICA;

On Wednesday February 28, 2007; TICA's executive office reported that there are 59 Minskin cats registered, up to date, with TICA (see below).

33.5.1.2 At least 10 litters have been registered with TICA;

On Wednesday February 28, 2007; TICA's executive office reported that there are 51 Minskin litters registered, up to date, with TICA (see below).

From: Paul McSorley [mailto:trt@minskin.com]

To: registration@ticaeo.com

Subject: Minskin Request

Dear TICA,

The Minskin breed section is in the process of submitting application for acceptance as Preliminary New Breed with TICA.

As the board approved Contact Person for the Minskin breed; I am kindly requesting the following:

Article 33.5.1.1 At least 15 cats which have reached the age of 8 months are registered with TICA

***Will you please inform me of *how many Minskin cats are individually registered* with TICA?**

Article 33.5.1.2 At least 10 litters have been registered with TICA

***Will you please inform me of *how many Minskin litters have been registered* with TICA?**

Thank you for your time.

Kind regards,

Paul McSorley – TRT Cattery
Contact Person/Chair – Minskin
207-778-6233

To: 'Paul McSorley'

Subject: RE: Minskin Request

Paul,

There are 59 Minskin cats registered and 51 Minskin litters up to this date.

Thea

TICA

33.5.1.3 At least five TICA members in good standing, in at least three different regions are actively breeding the breed ("actively breeding" means breeding at least one litter within the previous 2 years);

More than five TICA members in good standing are in the Minskin breed section and there are members in more than three different regions who are actively breeding Minskins:

1) Paul McSorley – NE
441 Intervale Road
Temple ME 04984

2) Jon Gour
106-176 The Esplanade
Toronto ON M5A 4H2
Canada

3) Toni Stephens
PO Box 305
Star City AR 71667

4) Nina L Adkins
916 CR 702
Cleburne TX 76031

5) Dai Green
PO Box 63
New Richmond WI 54017

6) Carla J Epperson
5072 Stonespring Way
Anderson IN 46012

7) Barb Ochse
14 Lily Lane
Gorham ME 04038

8) Dr. Alfred Pappalardo
9 Center Street
Provincetown MA 02657

9) Lynne Daggett
736 E Street
Fernley, Nevada 89408

33.5.1.4 Submission of an Application for Acceptance as a Preliminary New Breed to the Executive Office and a copy to each member of the Genetics Committee 120 days prior to the Board Meeting at which approval is sought, which includes the following:

33.5.1.4.1 A Letter of Intent to apply for approval as a Preliminary New Breed, including a proposed Preliminary New Breed Chairperson and the names and addresses of the proposed Preliminary New Breed Committee to be confirmed by the Board;

Paul McSorley – Board approved Contact Person; requesting approval as PNB Chairperson for the Minskin with Breed Committee Names and addresses provided above (excluding Nina Adkins)

33.5.1.4.2 A proposed breed name that is unique (if not already assigned);
Minskin (MS)

33.5.1.4.3 A proposed breed standard that is unique;

MINSKIN (MS) BREED STANDARD

(2005 standard, currently pending new changes per Poll results and board approval)

*** see new proposed Minskin (MS) Breed Standard, with changes, included in application.**

Color/Pattern.....5

CATEGORY: All.

DIVISION: All.

COLORS: All.

HEAD:

Shape: Rounded, wider than long, with no flat planes.

Ears: Large, open and alert, with slightly rounded tips. Broad at the base with bell cups giving a hobbit-like appearance.
Placement is as much on the side of the head as the top.

Eyes: Large and round. Set wide, more than an eye's width apart. Expression is open and alert.

Muzzle: Short and broad. Prominent whisker pads.

Chin: Firm and strong, aligning with the tip of the nose.

Nose: Slight curvature at the end, neither straight nor humped.

Profile: Visible stop.

Neck: Well developed and flexible. Not bulky.

BODY:

Torso: Semi-cobby, may appear longer due to short legs. The back is straight but allowance may be made for a slight rise from shoulders to tail as the back legs are, or may appear to be, slightly longer than the front legs. The chest is broad, strong and well muscled.

Legs: Short. The front upper and lower forelegs should be equal in length. The back thigh and lower legs approximately equal in length and may be slightly longer than front legs.

Feet: Rounded, compact and strong. All four feet point directly straight forward and not inward or outward.

Boning: Sturdy, not fine boned, may appear and feel heavier with muscling.

Tail: Slightly longer than the body, tapering gently from the base to a slightly blunted tip.

Musculature: Hard, lean and muscular.

COAT:

Length: Short. Fur-points; The fur extending from the legs may rise up onto the shoulders, the hips and the buttocks. The temples (forehead in front of ears) are noticeably sparse with bareness extending from the top of the eyes to the frontal base of the ear. Furnishings, if any, are sparse. Ear muffs may or may not be present. Whiskers may be present, sparse, broken or absent.

The neck, chest and abdomen may appear hairless but are covered in a very thin, fine down. Both adults and kittens may have some wrinkling to the skin but this is more apparent in kittens.

Texture: Rippled and soft like a fine cashmere garment.

PERMISSIBLE OUTCROSSES: Munchkin, Sphynx, Burmese and domestic shorthairs, not a member of a recognized breed.

GENERAL: The Minskin is a noticeably small and stocky cat with a sweet expression and a hobbit-like appearance. They have a rounded head, large round eyes and a semi-cobby body. Minskins are easy to identify by their short, soft fur-points and their short-stature.

The Minskin coat has an overall look and feel of a soft cashmere garment and they are quite warm to the touch.

The short-stature of the Minskin accentuates their hobbit-like appeal; this is the result of a natural spontaneous autosomal dominant mutation. Their size and stature does not hamper mobility or quality of life. They are swift and agile, sweet tempered and respond well to being handled.

LOCKETS: Penalize

ALLOWANCES: Mild bowing in the front legs is allowed. Consideration should be given to seasonal and hormonal variations in the coat.

PENALIZE: Narrow chest; cow hocked; foreign type; undershot chin; small or close-set eyes.

WITHHOLD ALL AWARDS (WW): Extensive hairlessness or completely rex-coated, lack of fur-points.

DISQUALIFY (DQ): Sway back.

DEFINITIONS:

Fur-points: Short, closely packed soft fur, covering the entire mask, ears, legs, tail and scrotum.

Fur-points are defined by the density of the fur on the outer extremities in comparison to the rest of the body which is visibly more sparsely coated.

Temperament must be unchallenging; any sign of definite challenge shall disqualify. The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm. **In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications:**

a cat that bites (216.9),

a cat showing evidence of intent to deceive (216.10),

adult whole male cats not having two descended testicles (216.11),

cats with all or part of the tail missing, except as authorized by a board approved standard (216.12.1),

cats with more than five toes on each front foot and four toes on each back foot, unless proved the result of an injury or as authorized by a

Board approved standard (216.12.2),

visible or invisible tail faults **if Board approved standard requires disqualification** (216.12.4),

crossed eyes **if Board approved standard requires disqualification** (216.12.5),

total blindness (216.12.6),

markedly smaller size, not in keeping with the breed (216.12.9),

depression of the sternum or unusually small diameter of the rib cage itself (216.12.11.1).

See Show Rules, ARTICLE SIXTEEN for more comprehensive rules governing penalties and disqualifications.

Minskin (MS) Breed Standard May 1, 2008

COMPARISION BETWEEN THE MUNCHKIN AND THE MINSKIN STANDARDS

	Minskin	Munchkin
Head Shape:	Rounded, wider than long, with no flat planes.	Medium-sized, broad, modified wedge with rounded contours. Forehead is flat, rounded top head with high cheekbones. Heads on males may appear broader.
Ears:	Large, open and alert, with slightly rounded tips. Broad at the base with bell cups or jugs. Placement is as much on the side of the head as the top.	Medium to medium large (in proportion with head). Broader at base, ending slightly rounded tips. Placed as much on top of head as on the sides, not flaring; alert. Furnishings long hair acceptable.
Eyes:	Large and round. Set wide, more than an eye's width apart. Expression is open and alert.	Medium large: Walnut shaped. Placed rather wide apart to give an open and alert expression and at a slight angle toward the base of the ears. No relationship between coat and eye color. Deeper, more vivid colors preferred.
Chin:	Firm and strong, aligning with the tip of the nose.	Firm, but not unusually prominent.
Muzzle	Short and broad. Prominent whisker pads.	Medium in length
Nose	Slight curvature at the end, neither straight nor humped.	Medium in length, slight bump is acceptable.
Profile:	Visible stop	Slight stop.
Neck:	Well developed and flexible. Not bulky.	Medium in length, thick. Firmly muscled. Not extremely long nor overly short and thick.
BODY: Torso.	Semi-cobby, may appear longer due to short legs. The back is straight but allowance may be made for a slight rise from shoulders to tail as the back legs are, or may	Thick semi-foreign body. Medium sized, medium long. Slight rise from the shoulders to tail as the back legs are slightly longer than front legs. Well-rounded chest and

	appear to be, slightly longer than the front legs. The chest is broad, strong and well muscled.	firm hips. Females may be smaller than males.
Legs	Short. The front upper and lower forelegs should be equal in length. The back thigh and lower legs approximately equal in length and may be slightly longer than front legs.	Short. Upper and lower forelegs equal in length. Hind legs: Thigh and lower leg approximately equal in length. Slightly longer than front legs.
Feet	Rounded, compact and strong. All four feet point directly straight forward and not inward or outward.	Round, compact: Medium (females), medium large (males).
Tail:	Slightly longer than the body, tapering gently from the base to a slightly blunted tip.	Medium thickness tapering to a rounded tip: Length in proportion to body. Carried erect with in motion.
Boning:	Sturdy, not fine boned, may appear and feel heavier with muscling.	Medium
Musculature:	Hard, lean and muscular.	Medium to substantial.
Coat. Color and Pattern: Length:	Short. Fur-points; The fur extending from the legs may rise up onto the shoulders, the hips and the buttocks. The temples (forehead in front of ears) are noticeably sparse with bareness extending from the top of the eyes to the frontal base of the ear. Furnishings, if any, are sparse. Ear muffs may or may not be present. Whiskers may be present, sparse, broken or absent. The neck, chest and abdomen may appear	MK: Medium, Solids: have less of a dense coat. ML: Semi-long.

	hairless but are covered in a very thin, fine down. Both adults and kittens may have some wrinkling to the skin but this is more apparent in kitten	
Texture:	Rippled and soft like a fine cashmere garment	MK: Plush, all-weather resilient with medium undercoat and lustrous appearance. ML: Silky, all weather with moderate density and medium undercoat. Slight to moderate ruff permissible. Britches are shaggy, tail has full plume
General Description	<p>The Minskin is a noticeably small and stocky cat with a sweet and alert expression. They have a rounded head, large round eyes and a semi-cobby body. Minskings are easy to identify by their short, soft fur-points and their short-stature.</p> <p>The Minskin coat has an overall look and feel of a soft cashmere garment and they are quite warm to the touch.</p> <p>The short-stature of the Minskin accentuates their otter-like appeal; this is the result of a natural spontaneous autosomal dominant mutation. Their size and stature does not hamper mobility or quality of life. They are swift and agile, sweet tempered and respond well to being handled.</p>	<p>The Munchkin's distinctive short legs developed from a spontaneous autosomal dominant mutation which has occurred several times in the domestic cat. Munchkins exhibit shortening and may have slight bowing of the long bones. The spine is unaffected and similar in form and flexibility to that seen in other domestic cats. The short legs do not hamper mobility or survival ability. The breed has been established from spontaneously occurring domestic cat lines with augmentation by outcrosses to other domestic cats.</p> <p>Munchkins are outgoing, intelligent, and respond well to being handled. They are accepted in both long and short coat lengths. The Munchkin</p>

		and the Munchkin longhair are distinguished only by the appearance of the coat. The shorthair having a medium length plush, resilient all-weather coat and the longhair a semi-long silky all weather coat.
Allowances:	Mild bowing in the front legs is allowed. Consideration should be given to seasonal and hormonal variations in the coat.	White lockets or buttons are permitted. Stud jowls in males.
Penalize:	Narrow chest; cow hocked; foreign type; undershot chin; small or close-set eyes.	Cow hocking excessive bowing, protruding sternum, foreign type, snub or excessively long nose.
Disqualify:	Sway back	Sway Back.
Definitions:	<u>Fur-points:</u> Short, closely packed soft fur, covering the entire mask, ears, legs, tail and scrotum. Fur-points are defined by the density of the fur on the outer extremities in comparison to the rest of the body which is visibly more sparsely coated.	
	Temperament must be unchallenging; any sign of definite challenge shall disqualify. The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm. In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications:	Temperament must be unchallenging; any sign of definite challenge shall disqualify. See Show Rules, ARTICLE SIXTEEN for more comprehensive rules governing penalties and disqualifications.</p>
--	--	--

33.5.1.4.4 A proposed breeding program;

The Minskin breed began development in 1998 within a well structured and established International Award Winning TICA Cattery. With suitable and unrelated lines of outcross, the first standard furpointed Minskin kittens were born in 2000 and the numbers of registered Minskin breeders have continued to grow from year to year.

The Minskin working group and breed section are committed to sharing, trading, buying, selling and exchanging outcross kittens to satisfy and expand a healthy Minskin gene pool. Minskin breeders in the United States and Canada are working together and we also hope to help in developing Minskin breeding programs to cat fanciers in Europe, South Africa, Australia, Russia and abroad.

The intentions of the Minskin working group are continued expansion of the Minskin gene pool through exchange and outcross with suitable domestic cats which are not a member of a recognized breed. The Minskin breed section has voted by a poll, to request that the Board of Directors allow the Minskin breed to be recognized by TICA as a "Category I Breed". Veterinarian and Minskin breeder Alfred Pappalardo owns several Minskin cats and he oversees the overall health of the Minskings along with numerous veterinarians across the U.S. and Canada. If any questionable health related issue arises, one perhaps seen in any domestic feline, those kittens/cats are culled from the breeding program immediately. We have not seen any breed specific health problems in the Minskin.

Furpoints are a consistent set coat within the Minskin gene pool. There is a balance that breeders have found which is between nearly-naked and fuzzy-coated. There have been numerous standard furpointed kittens produced over the past nine years. On occasion there will be a sparser coated kitten but those kittens make for wonderful pets and there is a demand for them in breeding programs as well.

The focus for the future development of the Minskin breed is HEALTH, uniqueness, temperament, structure, balance, type and vigor. Outcross of healthy lines continues to enhance future development of this remarkable and unique new breed.

There are currently hundreds of Minskin cats in their ever growing vast gene-pool.

Minskin Breed History

Minskins are a hybrid breed which expresses two combined, naturally occurring traits. They have a sparse coat with “fur-points”, unusually short legs and a very unique look. The breed as we know it today began in Boston, Massachusetts. In 1998, the first draft of the Minskin Breed Standard was written and it was at that time that select cats were bred to a very unique line of short-legged felines which derived from an International award winning cattery.

The Minskin's short legs are the result of a dominant genetic mutation, affecting only the long bones of the front and rear legs. This mutation apparently occurred spontaneously within the feline gene pool and any cat that possesses this gene will exhibit the short legs. A cat that has received the “short-statured gene” from one parent will produce Minskin kittens at an approximate ratio of one short to one tall kitten.

Cats with short legs are not new to the scientific world: An English Veterinary Record of 1944 contains an entry by Dr H.E. Williams-Jones who describes four generations of cats with short limbs, including an 8 1/2 year old black female, documented as having had an extremely healthy life. Her dam, great dam, and some of her progeny were similar in appearance. The cat's movements were described as ferret-like, but other than the short legs the cats were reported to be normal and healthy in every way. Unfortunately, these cats seem to have disappeared during World War II, not surprising in that many feline bloodlines, even established ones, disappeared completely during this period of deprivation.

In 1956, Max Von Egon Thiel of Hamburg, Germany described a cat that he had first seen in Stalingrad in 1953. The cat had unusually short legs but was in no way functionally hindered and was seen playing among its normal siblings and other young cats. At times it was noted to sit on its haunches with its front legs in the air, similar to the alert stance of a prairie dog.

Because of this behavior, the cat was dubbed the “Stalingrad kangaroo cat” by the author. Based on the description, this undoubtedly represents the same trait seen previously in Great Britain.

In a paper published by Dr Solveig Pflueger (Jan '99), she states: “One concern I had when I first began working with short-legged cats in 1990, was that there might be a risk for malformed homozygous kittens. This was not an unreasonable fear based on the lethality of homozygous achondroplasia in humans. However, I have bred short-legged cats together, without producing anything vaguely resembling the phenotype of homozygous achondroplasia.

There is sufficient data at this point to suggest that abnormal homozygotes similar to human achondroplasia are unlikely to appear with future breedings." She further states; "I believe that short cats are happy and healthy cats".

Minskins became an established breed for registration with The International Cat Association in 2005.

Minskins are being reproduced in other parts of the world and are gaining acceptance by cat fanciers and breeders. They have proven themselves to be extremely popular with the Judges in the USA and the public is smitten with them; watching these happy little cats strutting up and down the cat walk, then sitting like prairie-dogs on their haunches!

Agility

Minskins love to wrestle and play with each other and with their long-legged feline friends, happily unaware that there's anything different about them. Nor do their feline companions treat them like members of the vertically challenged. Most Minskins also adore dogs, both large and small.

Fanciers assert that Minskins can do anything an ordinary cat can do, except leap to the top of the refrigerator. Many Minskins can jump onto the kitchen counter, while others take a more scenic route. They are playful but not destructive.

There is something intriguing about a Minskin, you really have to see them for yourself to understand their appeal. Maybe it's a maternal thing; a kitten that never grows up. They appear to be small and kitten-like throughout their lives and tend to melt one's heart. Truth is that they are strong and robust, swift and agile. They speed over the ground and dash under a bed without ducking. Considering their height, they are extremely powerful climbers and jumpers!

Personality

Regardless of the controversy surrounding them, Minskins go on being just what they are... cats. Self-assured, outgoing and friendly. These little low riders are affectionate and curious, leaving no part of the home or its inhabitants unexplored and fully investigated.

As well as having sweet natures, Minskins are affectionate, outgoing and intelligent. They love company, especially that of children with whom they seem to be especially popular. They are exceptionally playful and get along well with other cats, dogs and pets. Minskins are very amusing to watch, which is a real bonus in anyone's life is. They're excellent hunters and love a good game of fetch or feather teaser, but when playtime is over, all they want is a warm lap to snuggle into and strokes from a loving hand, just like any other domestic cat.

Qty	Description	Each	Extended
1	APPLICATION FEE - PRELIMINARY NEW BREED - MINSKIN	50.00	50.00
		DAR Total	50.00
		Amount Paid	50.00
		PAID IN FULL	

33.5.1.4.6 A proposed two-letter breed designation code, which shall be automatically included in the Registration Rules upon approval as a Preliminary New Breed (if one has not been assigned previously).

Minskin (MS)

33.5.1.5 At least 90 days prior to the Board Meeting the Genetics Committee shall forward a written report commenting upon the application. Comments from individual members may be attached to the report as needed. Such report may recommend approval to advance to Preliminary New Breed status, recommend denial of advancement, that further requirements be met prior to approval, return to Registration ONLY status, or may make further comments.

pending

33.5.1.5.1 Any advancement to Preliminary New Breed status is entirely within the discretion of the Board of Directors.

Please take into consideration that the Minskin breed has been in development for nine years, since 1998.

33.5.1.5.2 The Preliminary New Breed Chairperson serves at the pleasure of the Board of Directors, and may be replaced at any time.

Understood

33.5.1.6 Cause a Notice of Intent to Apply for Advancement to Preliminary New Breed status to be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.

Comments:

- *These changes provide a more accurate description of the Minskin breed – McSorley
- *I like the new wording better, especially the ‘otter’ description – Stephens
- *The suggested revisions are more appropriate for this breed - Ochse

<the following sections are the suggested changes to the Minskin Breed Standard>

HEAD:

Ears: Large, open and alert, with slightly rounded tips. Broad at the base with bell cups
<*remove> “giving a hobbit-like appearance” <*add> “or jugs”.

PERMISSIBLE OUTCROSSES:

<*remove> “Munchkin, Sphynx, Burmese and” <*leave> Domestic shorthairs, not a member of a recognized breed.

GENERAL:

The Minskin is a noticeably small and stocky cat with a sweet <*add> “and alert” expression.
<*remove> “a hobbit-like” expression. They have a rounded head, large round eyes and a semi-cobby body. Minskins are easy to identify by their short, soft fur-points and their short-stature. The Minskin coat has an overall look and feel of a soft cashmere garment and they are quite warm to the touch.

The short-stature of the Minskin accentuates their <*remove> “hobbit-like” <*add> “otter-like” appeal; this is the result of a natural spontaneous autosomal dominant mutation. Their size and stature does not hamper mobility or quality of life. They are swift and agile, sweet tempered and respond well to being handled.

WITHHOLD ALL AWARDS (WW):

<*remove> “Extensive hairlessness or completely rex-coated” <*leave> Lack of fur-points.

POLL #3

***Minskin Breed Section vote for Application for Acceptance as a Preliminary New Breed:**

Comments:

* The Minskin breed has been in development for nine years and it is time for this unique breed to advance – McSorley

C: acceptance in TICA - Stephens

C: Minskins are such a joy in our family and it is time to advance this viable breed in TICA – Ochse

C: After working with this remarkable breed for 7 years and 4 generations I feel it is appropriate that this ever growing popular cat be acknowledged as a separate breed - Gour

C: Comments: I have been working with the Minskins since 2001 and find them extremely unique and very healthy. I would love to be able to show them in Preliminary New Breed, like I was able to show the Munchkins in NBC when I started out in 1996. These cats are truly different than the Munchkins.

C: ***From:** CJEpperson@aol.com

Subject: Minskin

TICA Board of Directors

I am writing to encourage you to accept the Minskin cat for Preliminary New Breed recognition. As a breeder of 7 years, I have never had a cat who's appearance and personality 'stands alone' like the Minskin does. When you have a Minskin who fits the standard for this breed, you have a very unique looking cat that you cannot help but want to touch. Their cashmere coat and fur points makes them distinctly a Minskin. As far as health goes, I have had absolutely no problems. Their playfulness and appearance makes them a total joy to own and love.

Thank you,
Carla J Epperson
Blackkats Cattery
Great Lakes Region

CJ Epperson
5072 Stonespring Way
Anderson, Indiana 46012
Ph. 765-378-0014

C: I would like to express my commitment to the Minskin breed. Although I am new to the Cat Fancy, I am a long time breeder of Chinese Shar Pei and before that , the Jack Russel Terrier (JRTCA days).

I began this adventure with the Minskins and greatly admire and appreciate the integrity of the work and vision Paul McSorley has used to found this breed and move it forward. I also admire his loyalty and trust in the process TICA has set. I have never once heard Paul complain or make demands that his chosen breed be exempt from this process. He has remained centered and faithful to the Minskin and the TICA process.

This breed has become a family project at my house. I have 3 teenagers with various degrees of autism. The ability of these cats to bring out so many positives in my children emotionally and on an educational level (my daughter has studied the genetics) is amazing. My older son with Aspergers spends much time being happy now and holding and petting them. They have provided him a way to distress (sensory integration) and have brought all of us closer as a family. The cats have been a life saver for me and to be working on a breed with such integrity and so much to offer helps me to focus on the positive and be creative within the physical limits now placed on my life. Thank you, Toni Stephens – KindredOne Cattery

<*remove> “Extensive hairlessness or completely rex-coated” <*leave> Lack of fur-points.

POLL #3

***Minskin Breed Section vote for Application for Acceptance as a Preliminary New Breed:**

YES VOTE: LD

NO VOTE:

ABSTAIN:

Comments: I have been working with the Minskins since 2001 and find them extremely unique and very healthy. I would love to be able to show them in Preliminary New Breed, like I was able to show the Munchkins in NBC when I started out in 1996. These cats are truly different than the Munchkins.

Subject: Minskin Breed Section POLLS

Importance: High

Minskin Breed Section Members,

Please complete the following three polls and be sure to write your name, address, phone number and email address at the bottom.

Return to: trt@minskin.com ASAP. You may mark your yes or no answer with an "X" or your initials. Comments are optional.

If you don't understand something or have a question, please contact me directly.

Thank you,

Paul McSorley – Minskin Breed Chair

Minskin Breed Section Polls (page 1 of 3)

The following three polls were conducted by Chair Paul McSorley and voted on by TICA's Minskin Breed Section (February 2007) for the following:

Page 1). Breed Category change.

Page 2). Minskin Breed Standard Changes

Page 3). Minskin Application for Acceptance as a Preliminary New Breed.

POLL #1

***Change the Minskin from a Category IV to a Category I breed.**

YES VOTE: PM

NO VOTE:

ABSTAIN:

Comments:

POLL #2

***Minskin Breed Section vote for changes to the Minskin (MS) Breed Standard:**

YES VOTE: PM

NO VOTE:

ABSTAIN:

Comments:

(the following sections are the suggested changes to the Minskin Breed Standard)

HEAD:

Ears: Large, open and alert, with slightly rounded tips. Broad at the base with bell cups

~~*remove~~ "giving a hobbit-like appearance" ~~*add~~ "or jugs".

PERMISSIBLE OUTCROSSES:

<*remove> “Munchkin, Sphynx, Burmese and” <*leave> Domestic shorthairs, not a member of a recognized breed.

GENERAL:

The Minskin is a noticeably small and stocky cat with a sweet expression and <*remove> “a hobbit-like” <*add> “an alert” expression. They have a rounded head, large round eyes and a semi-cobby body. Minskins are easy to identify by their short, soft fur-points and their short-stature.

The Minskin coat has an overall look and feel of a soft cashmere garment and they are quite warm to the touch.

The short-stature of the Minskin accentuates their <*remove> “hobbit-like” <*add> “otter-like” appeal; this is the result of a natural spontaneous autosomal dominant mutation. Their size and stature does not hamper mobility or quality of life. They are swift and agile, sweet tempered and respond well to being handled.

WITHHOLD ALL AWARDS (WW):

<*remove> “Extensive hairlessness or completely rex-coated” <*leave> Lack of fur-points.

POLL #3

***Minskin Breed Section vote for Application for Acceptance as a Preliminary New Breed:**

YES VOTE: PM

NO VOTE:

ABSTAIN:

Comments: The Minskin breed has been in development for nine years. It is time for this unique new breed to advance.
