

THE INTERNATIONAL CAT ASSOCIATION, INC.

2013 Annual Board Meeting

Bellevue, Washington

August 28-30, 2013

(Open Session)

August 28, 2013, Wednesday, 9AM

		ACTION	TIME	PAGE
Welcome and Call to Order				
1. Roll Call	Fisher	Verbal	-	
2. President's Remarks	Fisher	Verbal	-	
Consent Agenda 9:45-9:50AM				
1. Future Meetings	EO	Approve		6
2. Minutes, Corrections/Additions	EO	Approve		
Governance 9:50AM-NOON				
1. Follow Up Report	EO	Discussion		7
2. Update on MEET THE BREEDS	Hogan/ Hicks	Discussion		
3. Reciprocal Judging Agreement with ACFA	Fisher	Approve		8
4. World Cat Congress 2014 WCC Executive Proposal	Fisher	Discussion		9
Fife Proposal				10
5. Board Governance - Decorum	Fisher	Approve		11
BREAK - 10:30-10:45AM				
5. World Cat Congress 2013 Prop 1 Respecting Sanctions Prop 2 Mandatory Testing	Fisher	Discussion		
6. Interim Director for South America	Fisher	Discussion		
Fiduciary				
1. Year End Financial Review	EO	Accept	To be furnished	
2. Hotel and per diem rates	BOD	Approve		
LUNCH - NOON-1:15PM				
EXECUTIVE SESSION (See Executive Agenda)			1:15-5PM	

August 29, 2013, Thursday, 8:30AM

	ACTION	TIME	PAGE
PROPOSALS		8:30AM-NOON	
<u>By-Laws</u> (Requires Membership Approval)			
1. Amend By-Law 14.1 Breed Section Membership	BOD	Approve	12
2. Amend By-Law 112.2	BOD	Approve	13
<u>Registration Rules</u> (Requires Membership Approval)			
1. Amend Registration Rules RR 37.6.4.2 & 37.6.4.3, 31.6 Requirements for Registration	Bird	Approve	14
<u>Show Rules</u> (Requires Membership Approval)			
1. Amend Show Rule 22.4 Show Licenses	Bangle	Approve	15
2. Amend Show Rule 23.7.1 Altering HHP	BOD	Approve	17
3. Amend Show Rule 23.7.1 Altering HHP	Haraguchi	Approve	18
4. Amend Show Rule 212.3 and 212.4 Extend Finals/Rosettes Awarded	BOD/Lopez	Approve	19
5. Amend Show Rule 216.12.5 Crossed eyes	Hogan	Approve	21
BREAK - 10-10:15AM			
<u>Standing Rules</u>			
1. Amend SR 202.3 Define Show Weekend	BOD/Barton	Approve	22
2. Amend SR 209.2 Show Entry Form	BOD	Approve	23
3. Revise SR 307.4 Category III, Add Asterisk to American Bobtail	Sylvia	Approve	24
4. Revise SR 1012.3 Definition of Isolated Area	BOD	Approve	25
5. Amend SR 2014 Judges Fees	Fisher	Approve	26
<u>UCD</u>			
1. Add Sepia Tabby Colors	Parkinson	Approve	27
2. Amend Seal Sepia Tabby Color Description	Parkinson	Approve	28

2016	Annual	SW			

TICA Standing Rules state:

109.1 Annual Convention.

109.1.1 Annual Convention. Labor Day weekend each year is reserved for the Annual Convention. No other shows may be held the weekend of the Annual Convention with the following exception. A club may receive permission to hold a show on the Annual weekend upon application to the Board. Application must state specific reasons for the request for exemption and why such a show would have no impact on the Annual.

109.1.1.1 The rotation for the Annual Conventions shall be: Mid Pacific - 2010, Mid Atlantic - 2011, Great Lakes - 2012, Northwest - 2013, Northeast - 2014, International - 2015, Southwest - 2016, South Central - 2017, Southeast - 2018.

109.1.1.2 Proposals to host the Annual Convention in the designated region must be received for the Annual Meeting 3 years prior to the proposed convention.

109.1.1.3 In the event no club submits an acceptable proposal, any club in any region may submit a proposal to host the Annual Convention by the agenda deadline for the Semi-Annual Meeting 2½ years prior to the convention and a notice soliciting such proposals shall be published in the TICA TREND.

109.1.1.4 The subsequent designated order of rotation will remain the same.

109.2 Meetings of the Board.

109.2.1 All Board Meetings shall be scheduled for a minimum of 2 days.

109.2.1.1 Meetings of the Board shall be the fourth full weekend in January (Winter Meeting), the third full weekend in May (Spring Meeting) and the week immediately preceding Labor Day weekend (TICA Annual).

109.2.1.2 The Winter Meeting shall be held in Harlingen TX without a show OR at a location outside the United States in conjunction with a show, approved by the Board.

109.2.1.3 The Spring Meeting shall be held in the United States, rotating from Central to West to East, with or without a show. The meeting venue must be at or near a major international airport at a hotel with adequate meeting space, full restaurant service and airport shuttle.

109.2.1.4 The Winter and Spring meeting locations shall be selected by the Board without consideration of accompanying show.

109.2.1.5 Minutes of all meetings of the Board of Directors shall be completed within 10 working days following the meeting.

Reciprocity Agreement

The International Cat Association, Inc. (TICA) and the American Cat Fancier Association (ACFA) hereby enter into this agreement of reciprocity under the following conditions:

1. Any Allbreed judge in good standing with his/her Association may guest judge for the other Association.
 - a. Requesting clubs must following the appropriate rules of invitation and approval set out by each Association.
 - b. Each Association will notify the other of any suspension or termination of judging licenses among its respective judging panels.
1. Membership in the other Association is not required.
2. Judging rules, fees and all other conditions will be governed by the rules of the Association which sanctions the show.
3. Judges will use the Breed Standards of the Association which sanctions the show.
4. Either TICA or ACFA may terminate this Agreement at any time by notifying the other in writing. Judges holding contracts at the time of termination will be allowed to complete those contracts.

World Cat Congress

promoting harmony in the cat fancy

□□=□□

Proposal from the WCC Executive for the Annual Meeting 2013

Genetic Tests for Hereditary Defects

The Executive Committee proposes that all WCC members seek to make it mandatory that all breeding cats within their organisations be tested for any adverse hereditary condition if and when such genetic tests are available. In the event that both parents of the cat in question have been tested negative for a specific adverse gene, further testing for that gene is not necessary.

Rationale

At the present time not all of the nine members of the WCC have any mandatory testing in place. With the huge advances that have been, and are still being made, in genetic testing, it is surely time that all the members of WCC attempted to take steps to protect the health of the cats whose interests they are representing.

It is understood that each member is autonomous and that the delegates cannot commit them to a specific action, but to make representations to their bodies would be within the scope of the delegates and agreement to do so would be seen as a positive action by the WCC.

FEDERATION INTERNATIONALE FELINE - FIFe

General Secretary of the World Cat Congress
Mrs. Penelope Bydlinski

AU – Beachmond, Queensland 4211
Australia

FIFe Proposal for the Business Meeting of the WCC, Cambridge 20th May 2013

Torslanda, 18th March 2013

Dear Mrs. Bydlinski, dear Penny,

Please find below the FIFe proposal for this year's World Cat Congress Meeting.

We would appreciate it if you can send a confirmation of receipt.

Kind regards,
Annette Sjödin
FIFe President

Addition to the Constitution

If a WCC member suspends or expels a judge or an officer, they shall inform all other WCC members. The other WCC members shall not accept such a suspended or expelled judge or officer as their judge or member, unless the member that suspended or expelled the individual has agreed in writing.

Motivation:

We find it hard to understand that whilst as members of the WCC we vouch to "promote harmony", one member would accept, as one of its judges or officers, a person who has been suspended for a serious offence by another member. We feel that this does not promote harmony and neither is it a sign of respect.

BOARD GOVERNANCE POLICY

Decorum during discussion and debate

In following the guidelines of Roberts Rules of Order it should be noted that rules are provided for appropriate conduct during discussions and debate. The rules stress that in debate a member must confine remarks to the question, be courteous in language and deportment, avoid all personalities, not arraign the motives of a member, and emphasize that it is not the man but the measure that is the subject of debate. It is the duty of the Chair to enforce these behavioral guidelines.

The same rules regarding behavior necessary for “decorum during debates” are essential for group e-mail communications. Robert’s Rules were drafted before the arrival of e-mail, but it is clear that group e-mail communications are now common and can invite debate. Consequently, the same guidelines for civility, particularly the absence of attacks on personalities, apply to official group e-mail communications.

Policy Statement. Directors are obligated to act with proper decorum. Although they may disagree with the opinions of others on the board, they must act with respect and dignity and not make personal attacks on others. Accordingly, directors must focus on issues, not personalities and conduct themselves with courtesy toward each other and toward employees, appointed officials, contractors and members of the association.

Amend By-Law 14.1: Breed Section Membership (Board Directive)

Workitem:

Revise 14.1 to be the same requirements as 14.1.1

Rationale:

At present, there is no control over eligibility for membership of an initial Breed/Breed Group when a person joins TICA. However there are requirements to join additional breed sections. There is the potential for a Breed/Breed Group Section to be “stuffed” with new members who have no real knowledge of the breed

Amendment:

14.1 Breed Section. A Breed Section(s) shall be established for each breed or breed group and one or more sections for household pets. Each member shall automatically be eligible to apply to belong to one Breed/Breed Group Section as a part of his or her membership.

14.1 Breed Section. A Breed Section(s) shall be established for each breed or breed group and one or more sections for household pets. Each member ~~shall automatically be eligible to apply to~~ must show proof of ownership of the breed or breed group in order to belong to one Breed/Breed Group Section as a part of his or her membership otherwise they will be assigned to the Household Pet Section.

14.1.1 Any member may belong to additional Breed/Breed Group Sections by applying for and paying an additional fee AND by showing proof of one of the following:

14.1.1.1 Individual registration of a cat of the breed/breed group in the three years immediately preceding application.

14.1.1.2 Registration of a litter of the breed/breed group in the three years immediately preceding application.

14.1.1.3 Showing a kitten, cat, or alter of the breed/breed group in the three years immediately preceding application.

14.1.1.4 Ownership of a kitten, cat or alter of the breed/breed group

Comments:

(CB) I agree that this is a sensible revision of By-Law 14.1 for many different reasons. I do feel that the proof of ownership should be of a TICA registered cat of the breed or breed group. Definitions of breeds and “breed groups” sometimes vary considerably from one registry to the next. It may be precisely the owners of cats that don’t meet the TICA definition, may have a strictly local definition, who may want to vote for changes in the international breed standard in TICA without knowing much about it.

(KV) I would like to see the process what happens when the proof of ownership of a pedigreed cat has been submitted later. What is the effective date of the change of the breed-section then? Must the proof be a "TICA-registered-cat"?

Amend By-Law 112.2: Regions (Board Directive)

Workitem: Review rules and update “United States and Canada” to North America

Rationale: At present the rules use “United States and Canada” and “North America” inconsistently. Implementing consistent use of North America throughout the rules unless there the rule addresses a situation unique to either country.

Amendment: 112.2 Other Countries. Other countries outside ~~the U.S. and Canada~~ North America shall be represented by an Associate Director to handle the needs of that particular country. Countries will be grouped into regions according to their geographic location. When sufficient residents of a region become members of the Association the Board will establish a full directorship for that region including a Regional Director who shall be entitled to vote and enjoy all rights and privileges of Regional Director.

Amend Registration Rules
RR 37.6.4.2 & 37.6.4.3: Requirements for Registration (Bird)

Work Item:

Member input to clarify Registration Rules for non-permissible outcrosses

Rationale:

It is unclear to members what constitutes a non-permissible outcross.

Amendment:

37.6.4.2 A P Foundation bred to an N Foundation will result in an N designation until the non-permissible outcross is no longer within the 3 generation pedigree. For a P designation, there can be no non-permissible outcrosses in the three generation pedigree.

37.6.4.3 Any cat with a parent, grandparent or great grandparent that has a non-permissible domestic outcross within its 3 generation pedigree will have the term N Foundation in its description. For a definition of non-permissible see Article One, 31.6.

31.6 Non-Permissible: A non-permissible domestic outcross is a cat of a domestic origin that is not specifically listed as a permissible outcross in the approved breeding program

Comments:

(AB) The problem with having a definition (or anything actually) in more than one place introduces the possibility for error and inaccuracy because you have to remember to change it in all places where it occurs. Would you be OK with moving the sentence to the Glossary and changing the reference here to say **For a definition of non-permissible, see the Glossary.**

(MW) Include the definition in article 31.6

(CB) Agree with Martin – add definition to 31.6

Amend Show Rules 22.4: Show Licenses (Bangle)

Work Item: Wording to specify April shows must be licensed before April 1st.

Rationale: There were some unexpected shows that had late licensing which has caused ill-feelings, particularly because they impacted the scoring.

Amendment: A show shall not be held under the auspices of this association, nor shall the cats be entered in that show be awarded any regional, international and/or title points, unless the show has been issued a show license at least **30** ~~15~~ days prior to the first date of the show. ~~The Board is authorized to consider granting an exception to this rule.~~

22.4.2 A show license shall be issued upon the following requirements having been met:

22.4.2.1 A completed show application has been submitted, listing the total number of rings (AB, SP, HHP and/or Congress);

22.4.2.2 The club applying for the show license is in good standing;

22.4.2.3 The application is accompanied by the insurance fee or that fee has been waived; ~~The completed show application is submitted to the Executive Office no later than 30 days prior to any show to occur in April of the current show season.~~

Standing Rules:

202.4.2 Show Licenses. Licenses are issued upon payment of license fees provided any Guest Judges have been approved, club charter renewal fees have been paid and a current list of club officers names and addresses has been provided to the Executive Office. Once applied for, no changes may be made to the number and type of rings without 1 week's written notice to the Executive Office. The time limit on the exemption from license fees for newly chartered clubs is 1 year.

202.4.2.1 Show Supplies. Show supplies shall be sent upon receipt of license application in the Executive Office in accordance with 22.4.2. **Show supplies shall include one copy of the current Show Rules and By-Laws, including supplements and updates (do we really need this?)** ~~Clubs will be responsible for any additional shipping charges incurred for expediting show supplies.~~

Show Rules:

22.4.3 All fees must be paid to the Executive Office at least **30** ~~15~~ days prior to the opening day of the show unless other arrangements have been made in writing with the Executive Office.

Standing Rules:

202.4.3 Show License Fees

202.4.3.1 \$15 per Allbreed Ring

202.4.3.2 \$15 per Specialty Ring (LH/SH)

202.4.3.3 \$10 Breed specialty or Household Pet ring (must be at least 20 entries present and competing per Show rules 21.69, 21.71 and 21.72)

202.4.3.4 \$10 per Allbreed Household Pet Ring (Stand Alone Show)

202.4.3.5 \$5 per Specialty Household Pet Ring (Stand Alone Show)

202.4.3.6 The club is required to pay these fees.

202.4.4 Late Show License Application.

The Executive Office shall charge a \$25 late Application for Show License Fee to any club that does not have the proper paperwork in the hands of the Executive Office staff ~~60~~ 45 days prior to the show.

Show Rule 23.7.1: Altering of HHPs (Board Directive)

Work Item: Clarify that HHP Kittens do not require altering to be shown.

Rationale: The intent of this rule was not to demand HHP Kittens be spayed or neutered in order to be shown. Some Countries and some Vets do not condone early spay/neuter - the change is to clarify that they must be spayed or neutered to compete after 8 months of age.

Amendment:

23.7.1 Household pet adults must be altered to be ~~registered and/or~~ shown in TICA.

Comments:

(NP) This makes sense.

(MW) I agree this makes the intent of the rule clearer.

Amend Show Rule 23.7.1: Altering Household Pets (Haraguchi)

Work Item: Require provision to the EO of date of altering for all HHPs.

Rationale: HHP adults must be altered to be registered and/or shown in TICA. However a kitten can be registered and/or shown in TICA as a HHP kitten even if the kitten is not altered. The unaltered kitten grow up and may continue to be shown in the HHP Adult class. This proposal is to clarify that the altering is required for the HHP adults.

Amendment: Household pets must be altered in order to be registered and/or shown in TICA. The altered date of the HHP adults must be submitted to the Executive Office of TICA. If the altered date is not provided to the Executive Office of TICA, all points and/or wins for Annual Awards acquired by the cat shall be lost.

Comments:

(AB) We asked for clarification through Hisae if this was to submit a document of altering or whether they just wanted a note sent. Hisae was not able to get an answer.

(EC) I think she means that a HHK with a number goes right into HHP when they turn 8 months, and without a certificate from the vet, there is no way to confirm that a female has been spayed.

(AB) Right. But we don't require people to provide proof of altering today so while she is suggesting the rule change as it relates to kittens, it actually applies to all HHP. It is going to require more work on the part of the office. Also, people who are coming in to HHP as new to TICA may not have their certificate of spay or be able to get one if it was done before they acquired the cat. Have we really seen an issue with this?

(CB) There's a big difference between requiring proof of neutering – such as a neutering certificate from a vet – as opposed to asking someone to send an email (or whatever) to submit the date of neutering of the cat. The latter is obviously much, much easier and cheaper. I'm not the one proposing this. Personally, I don't think anything needs to be done to the current HHP/HHPK system. But I read what she wrote. Literally she is saying she wants to clarify to people – basically re-emphasize – that they really do need to neuter the cat before showing in the HHP class. And she is saying she wants people to submit the date of neutering to the EO. If that's really what she means, it's pretty harmless. The question is – does it truly accomplish anything? On one hand, people could just send in a date and lie about it. OTOH, having to send in a date does re-emphasize that TICA expects the cats to be neutered.

3-6. Amend Show Rules 212.3 & 212.4: Finals Rosettes (Board Directive)

Work Item: Extend to all the classes the number of Final rosettes awarded equal to the number of cats competing up to a maximum of 10. **Note: the HHP adult piece of this rule has already been submitted to the Board and implemented. The addition here is to do the same for the Championship classes.**

Rationale: Treat all classes in the same way.

Amendments: 212.3 If there are 10 or MORE ~~FEWER THAN 10~~ cats, kittens, ~~or~~ alters, household pet adults or household pet kittens competing, judges in either allbreed or specialty rings shall present the top ~~five~~ ten. However, if there are fewer than TEN ~~five~~ entries in any class, the club is required to provide rosettes for the number of entries competing.

212.4 Number of Rosettes Awarded

212.4.1 Cats, kittens, alters, household pet adults and household pet kittens - The number of rosettes awarded in all these classes shall be equal to the number of cats competing up to a maximum of 10.

212.4.2 Top 10 Format – 10 or more Cats Present: When 10 or more cats, kittens, alters, household pet adults or household pet kittens are present, the judge shall award Best through 10th Best final awards.

~~212.4.2 Top 5 Format - 20 or Fewer Cats Present: When 20 or fewer cats, kittens or alters are present, the judge shall award Best through Fifth Best final awards.~~

~~212.4.3 Top 6 to 9 Format - 21 to 24 Cats Present: When 21 to 24 cats, kittens, alters or household pets or household pet kittens are present, the judge shall award final awards as follows:~~

~~When 21 cats are present, Best through 6th Best, except HHP Adults and HHP Kittens, See 212.4.1.~~

~~When 22 cats are present, Best through 7th Best, except HHP Adults and HHP Kittens, See 212.4.1.~~

~~When 23 cats are present, Best through 8th Best, except HHP Adults and HHP Kittens, See 212.4.1.~~

~~When 24 cats are present, Best through 9th Best, except HHP Adults and HHP Kittens, See 212.4.1.~~

~~212.4.4 Top 10 Format – 25 or more Cats Present: When 25 or more cats, kittens, alters or household pets or household pet kittens are present, the judge shall award Best through 10th Best final awards.~~

Comments:

(SL) Yes to all HHP's and all Alters. No on the rest except in remote areas.

(BT) While I am in favor of expanding the number of finals for HHPs and possibly even Alters I am not in favor of expanding them for Championship cats. I agree with those that commented it would be demoralizing to new exhibitors if the use of WW was used more.

(CB) Some breeds are more common in some regions than others. Cats shown in regions where their breed is uncommon will automatically get finals and will appear to be more successful show cats than cats in regions where there is more competition. This may be bad for breeds and demoralizing to many breeders.

(EC) I have never been in favor of treating one class differently than another. I haven't judged a show in a LONG time where I couldn't find 10 cats for a final that were at least credible examples of their breed. Conversely, I have judged a lot of shows with only 20 present where there were more than 10 cats deserving of finals. I'm remembering back to the early days of TICA when I was a specialty judge and in certain regions, there were LOTS of cats entered, and not very many were truly final worthy - we still finalled them.

(CL) I'm not supporting the idea of extending the up-to-top 10 for all the classes. Basically, because in some places you might have a small show and judges would not feel comfortable using 10 of them in the final because the quality (in terms of the standard) is not good. If we are going to use the up-to-top 10 format, then we need to be very careful when we are judging and use the WW more often. It's not a problem with HHPs, they only need to be clean and in good condition. If they are not, then we can WW. With purebred cats it's not enough to be clean and in good condition, we also have the standard to pay attention.

(SA) I am not in favor of expanding this beyond the HHP classes if this results in more WW. This will be very demoralizing for the new exhibitor.

(AB) Agree with both sets of comments (BT, CL & SA).

(KV) I wouldn't want to change the number of finalists. It makes TICA-titles inflationary - I always liked the way that our titles mean something. You cannot make everybody happy.

(MW) Carlos makes a good point about the difference between judging HHPs and pedigrees. I agree that WW can be very demoralizing to an exhibitor (whether new or old) - and TICA has a reputation for being sparing with WW. I'm very uncomfortable about extending Top 10 to all classes.

(MA) Yes to extending to 10 finals for hhp and possibly alters but not for kittens and ch cats.

Show Rule 216.12.5: Crossed Eyes (Hogan)

Work Item: Update to make DQ of crossed eyes a DQ

Rationale: Crossed eyes are a health issue and need to be eliminated from all breeds.

Amendment:

216.12.5 Crossed eyes are a disqualification, ~~, at the discretion of the judge, or as required by a Board approved standard.~~

Comments:

(AB) We need to make the abbreviated version in each standard and the rule consistent with each other.

Standing Rule 202.3: Define show weekend (Board Directive/Barton)

Work Item: Define show weekend.

Rationale: As clubs look for different ways to curb expenses while running shows, they are seeking new models such as having shows on Mondays, working with pet expos etc. Traditionally we have thought of a show as on a weekend and assumed the weekend consisted of Friday, Saturday and Sunday. However there is no reason that a show cannot be held during the week and in fact historically this is how the cat fancy began. Our concern is always for the welfare of the cat and so we have limited the number of rings but those rings do not have to be on the traditionally accepted weekend so we need to modify the rule to take these factors into account.

Amend Standing Rule 202.3

202.3 The maximum number of times a judge may judge any single cat during any ~~show-weekend~~ three consecutive days is as follows:

202.3.1 Two times in 1 day.

202.3.1.1 Any cat in violation of this rule will only be scored for its two lowest scoring rings on this day under this judge. In the rings where it is not scored it is to be regarded as PO, and the places it obtained are to remain vacant.

202.3.2 Three times in 2 days.

202.3.2.1 Any cat in violation of this rule will only be scored for its three lowest scoring rings on these two days under this judge. In the rings where it is not scored it is to be regarded as PO, and the places it obtained are to remain vacant.

202.3.3 Four times in 3 days.

202.3.3.1 Any cat in violation of this rule will only be scored for its four lowest scoring rings on these two days under this judge. In the rings where it is not scored it is to be regarded as PO, and the places it obtained are to remain vacant.

Standing Rule 209.2: Show Entry Form (Board Directive)

Work Item: Review the entries standing rule and amend it to allow for electronic entry forms

Rationale: Most clubs today are taking entries online which, strictly speaking, is not using an authorized TICA entry form. Adding a clause to the existing Standing Rule for entries brings the clubs into compliance with the TICA rules. The key elements of the entry form are to collect the information needed for each entry and to obtain explicit agreement from the exhibitor to comply with TICA Rules.

Amendment:

209.2 All entries must be on the official TICA Entry Form [or an electronic equivalent that includes the same information and includes an agreement to abide by and uphold the Rules of this Association.](#)

Pros:

Allow for electronic entry forms that clubs are using
Ensures the same information is provided
Obtains an explicit agreement to abide by and uphold TICA's rules

Cons:

Extra work to make the change
Different clubs may have different formats for their electronic form

**Revise the
American Bobtail
307.4**

Add Asterisk to American Bobtail as per 307.4.2 below:

307.4.2 Category III breeds must have an SBT (V), AOP, BOP or COP status code to be eligible for championship competition. 01T (V), 02T (V), 03T (V), A1P, B1P, C1P, A2P, B2P, C2P, A3P, B3P, or C3P cats may be permitted for championship competition if specifically permitted by the breed and marked by an asterisk.

NOTE: Breeds marked by an asterisk (*) have an unusually limited gene pool and thus may still benefit from augmentation of the available gene pool by inclusion of cats conforming to the standard but which are of unknown or unregistered ancestry.

Comments:

(NP) I agree the proposal is in order. I believe, however, they need to go to Category I, or be honest about the breed origins, and go to Category IV! They are neither a Natural breed nor a Mutation breed.

(BT) I also agree that the proposal is in order and that they should be a Category 1 breed – although I could see where they would also fit into Category 1V

(CB) The American Bobtail is currently a category 3 breed. According to the Registration Rules, the asterisk is intended for category 3 breeds that have such a limited gene pool that they are likely to benefit from being given an exception. It seems to me that the evaluation of the gene pool is a decision for the Genetics Committee. As far as I am concerned, the proposal is in order. They have the right to request the exception. It is allowed under current rules. It just depends on whether the Genetic Committee agrees that they will indeed benefit as a breed from having looser outcrossing rules once again.

(EC) - Solveig has asked that we table this, as there are ongoing genetic studies on the tail mutations. She would like to get results before deciding which way to go

(AB) I agree the proposal is in order however if we are going to make an exception I would like to see a review date set as to whether the exception continues to be necessary (once every 2 years). Right now more breeds in this category have exceptions than ones that don't and none of the breeds with exceptions have review dates. For example, the Nebelung which has had an exception for at least 10 years. And there should be a breeding program provided that shows how they will return to the appropriate category for the breed.

1-2. Revise Standing Rule 1012.3: Isolated Area (Board Directive)

Work Item: Ensure the Isolated Area description is wide enough to cover all aspects that isolate a group of exhibitors.

Rationale: In reviewing the blanket change (“United States” to “North America”) as directed by the Board, Rules Committee identified that this change did not work for this particular Standing Rule. An alternative approach is therefore proposed. There are also isolated areas inside North America as well as outside of it.

Amendment: 1012.3 Isolated Areas. ~~Areas outside of the contiguous states of the United States, and Canada~~ in which exhibitors have limited show opportunities due to geographic isolation and other factors, such as travel constraints, the area's average exhibitor base, and the average number of rings available in the area during a show year. An Isolated Area designation qualifies the area for Isolated Area title requirements and other considerations.

Comments:

(CL) perfect description for an isolated area.

(NP) I like Martin’s suggestion as well. It makes no difference what continent!

(BT) Fine with me as well.

(EC) I think it is good, but it is pretty open - under this we could have a lot more isolated areas - like Montana or South Dakota

Amend 2014: Judges Fees (Fisher)

Work Item: Consider raise for judges

Rationale: Judge's fees have not been raised in nearly 20 years but expenses judges incur to judge have been steadily rising. Other organizations are compensating their judges at a higher rate. For example, an Approved All Breed judge in CFA is given \$1.35 per entry.

2014.1.1.1 Approved Allbreed Judge - **\$1.25** ~~\$1.00~~ per entry.

2014.1.1.2 Provisional Allbreed Judge - \$1.00 ~~\$0.75~~ per entry.

2014.1.1.3 Approved Specialty Judge - \$.75 ~~\$0.60~~ per entry.

2014.1.1.4 Probationary Specialty Judge - \$.60 per entry

Comments:

(KV) - I am in favor as it has been nearly 20 years since the fees have been raised.

Add Sepia Tabby Colors to UCD (Parkinson)

BLUE SEPIA TABBY: Bluish-grey markings against a dusty blue to silvery-cream ground. Rufous tonings pinkish cream. Nose leather pink outlined in blue. Paw pads blue.

CHOCOLATE SEPIA TABBY: Chocolate markings against a creamy fawn to old ivory ground. Rufous tonings reddish-gold. Nose leather pinkish orange outlined in chocolate. Paw pads chocolate.

LILAC SEPIA TABBY: Dove grey markings against a delicate mushroom to pinkish-cream ground. Rufous tonings pinkish-fawn. Nose leather pale pink outlined in dove grey. Paw pads dusty pink.

CINNAMON SEPIA TABBY: Old gold markings against a rich cream ground. Rufous tonings on ear tips, nose, underside of paws and tail intensify the color to bronze. Nose leather pinkish orange outlined in bronze. Paw pads pink.

FAWN SEPIA TABBY: Pinkish-salmon markings against a pinkish-cream ground. Ear tips, top of head and back brushed with a faint lilac bloom. Rufous tonings salmon pink. Nose leather pale pink outlined in salmon pink. Paw pads pink.

***Amend Seal Sepia Tabby Color Description
to UCD (Parkinson)***

Seal Sepia [\(Sable\)](#) Tabby: Ground color ranging from a silvery fawn to a warm “old ivory” tending to yellow tones, resembling unbleached muslin. Any rufous toning should be reddish brown. Tabby pattern rich sable brown. Ivory or cream spectacles encircling the eyes. Eyeliner and nose outline to be dark seal brown. Ivory or cream whisker pads and chin desirable. Tail tip dark brownish black (seal brown).

Revise Judging Program 48.4

48.4 The applicant shall send the completed Application for Instructor to the Judging Administrator to be received NO LATER THAN May 15 for application at the Annual, October 15 for application at the Winter Meeting or January 15 for application at the Spring Meeting. This applies to all applicants, including those outside of [North America](#).

Revise Judging Program 49.4.6.5

49.4.6.5 Must resign their current Judge's License prior to applying, **if applying from an association within [North America](#)**.

Revise Judging Program

49.6 All applicants must meet the basic requirements of 49.4; however, as the individual circumstances in each case are different, in considering applicants from regions/countries other than [North America](#), it is recommended that each applicant be considered separately for any additional requirements. The Board may approve the applicant at an appropriate level, require additional work, or deny the applicant. With the approval of the Board, the Judging Administrator may designate someone residing in a particular country/region to act as an assistant in that country/region.

Revise Judging Program

49.7.1.1 An applicant who is licensed less than Allbreed in another domestic association (i.e. an Association headquartered in [North America](#)) must complete the requirements of 44.3 and a minimum of half the training requirements in Article Four of the Judging Program (44.7 through 44.9).

Comments for Breeds Annual 2013

American Bobtail – Add Asterisk per Category 3 – 307.4.2

(NP) I agree the proposal is in order. I believe, however, they need to go to Category I, or be honest about the breed origins, and go to Category IV! They are neither a Natural breed nor a Mutation breed.

(BT) I also agree that the proposal is in order and that they should be a Category 1 breed – although I could see where they would also fit into Category 1V

(CB) The American Bobtail is currently a category 3 breed. According to the Registration Rules, the asterisk is intended for category 3 breeds that have such a limited gene pool that they are likely to benefit from being given an exception. It seems to me that the evaluation of the gene pool is a decision for the Genetics Committee. As far as I am concerned, the proposal is in order. They have the right to request the exception. It is allowed under current rules. It just depends on whether the Genetic Committee agrees that they will indeed benefit as a breed from having looser outcrossing rules once again.

(EC) Solveig has asked that we table this, as there are ongoing genetic studies on the tail mutations. She would like to get results before deciding which way to go.

Australian Mist – Transfer New Breed

(BT) It appears everything is in order for this application.

(CL) The application for the Advancement of the Australian Mist from Registration Only to Advanced New Breed under the Transfer New Breed Process is in order according the Registration Rules.

(CB) The Australian Mist application for advancement to Transfer New Breed appears to be in very good order.

(EC) I'm fine with this.

Khao Manee – ANB Application

(CB) The KhaoManee application for ANB is not complete. There is not sufficient evidence that they have met the requirements to advance to ANB status.

(EC) Reserving judgement until the application is complete.

Napoleon – ANB Application

(BT) With the additional information provided by the breed chair I feel that the application is in order.

(CB) The Napoleon ANB application appears to be in order. However, for a number of reasons, it is not entirely clear what are the details of the intended breeding program. I suggest that the directors discuss this with the working chair at the Annual Meeting, if possible.

Savannah – 1st year of 3 year probationary championship report

(BT) It looks fine to me - Brigitte covered all bases.

(CB) I have reviewed the Savannah breed report, their first since earning championship. I find it is in order. Excellent report.

(MW) An excellent report demonstrating continued viability of the breed in Championship.

(EC) Looks fine.

Thai – 3rd year of 3 year probationary championship report

(MW) This is the final Thai report following 3 years in Championship. I'm delighted to see consistent growth and active participation in TICA. I wish the breed well for the future.

(BT) The Thai has continued to present a presence in many Regions in TICA and continued to grow. They have met their requirements for the 3 years after being accepted for Championship reports. Good job!

(EC) - Looks fine.

Thai Breed Report for the TICA 2013 Annual Meeting Summary of Our Third Year in Championship

Page 1 of 2

Prepared by:
Cristy Bird, Dr.P.H.
Chair, TICA Thai Breed Committee

June 27, 2013

I. Background.

The TICA Board of Directors granted championship status to the Thai breed at the Winter Meeting in January, 2010. Our first show season in championship began May 1, 2010 and ended April 30, 2011. Our second show season began May 1, 2011 and ended April 30, 2012. Our third show season began May 1, 2012 and ended April 30, 2013. **This is the third of the three annual breed reports required after a new breed is granted championship.** See Registration Rules 33.8.15.

II. Cats Registered.

Each year a new championship breed must register at least 25 cats. In the 2012-2013 season, **at least 148 Thais** were registered in TICA. The Thai breed has exceeded the requirement for cats registered. See attached file from the Executive Office (**thai_reg_list2013.xls**).

III. Cats Shown.

Each year a new championship breed must show at least 10 unique cats in at least 3 regions. According to data from the Executive Office, **at least 70 Thais** were shown during the 2012-2013 show season across three classes. Of these, **at least 57 Thais** were registered, unique individual cats. Because Lesley Hart says it is not possible for her to provide a full year of show result data, and it is challenging for breed chairs to do so manually, we may if anything be **underestimating** the number of cats shown.

Thais were shown in at least 11 regions: EN, ES, EW, GL, MA, MP, NW, SC, SA, SE, and SW.

I am attaching a list of the cats shown (**TH_sho2013.xlsx**). It is the file provided by Lesley Hart from the Executive Office, but it has been edited to remove repeats. (Most of the cats listed were actually shown at more than one show.) I also added as many cats as I could manually locate in show reports that were shown from May 1, 2012 through September 2013 (dates which Lesley stated she was unable to include in the file).

We conclude that the Thai breed has exceeded the requirements for showing this past show season.

IV. Number of active Thai breeders.

The table below lists the breeders who are **current** members of TICA, of the Thai breed section, and have registered a litter of Thai kittens with TICA during the past 2 years.

See table on page 2.

Active Thai Breeders and Recent TICA Litter Registrations			
Name	Thai Litter#	TICA Cattery Name	TICA Region
1. Alice Billman	03P 022113	Alicats	GL
2. Cristy Bird	02P 100612	Sarsenstone	SW
3. Robert Crawford	SBP 030611 (reg 6/6/11)	Siamxpress	SE
4. Nancy Day	SBP 122812	Stonearch	SW
5. Frank Diegmann & Beverly Loo	SBP 031413	Marveloo	SW
6. Sandra Engle	03P 020313	Sandypoints	MA
7. Cynthia Hopper	SBP 120112	Wicca	EW
8. Keeling-Look, Emma & Adrian	SBP 061112	Emrys	EW
9. Katia Lembo	SBP 080912	LaCorteDelSiam	ES
10. Carmelita Mares	SBP 011113	Diabrillante	SW
11. Rodrigo Mendivil	03P 062211	Diplomaat	SA
12. Stephanie Peters	SBP 091312	Tsara	MA
13. Cheri Pugh	SBP 053013	Maewkaew	GL
14. Connie McCarthy	SBP 061711	Archenland	SW
15. Karen Mordecai	SBP 011213	Spottydreams	EW
16. Julie Singleton	SBP 110412	Sialaxy	EW
17. Brigitte Sierck	SBP 112312	Lasjoyasthai	EN
18. Seline M. Smith	SBP 013013	Thaitails	MA
19. Nancy Stuck	SBP 092212	Nancyclaws	MA
20. Marilyn Tennyson	SBP 020913	Cloudcity	SC
21. Marjorie Tennyson	SBP 072511	Blackfootriver	NW
22. Jenni Toivoniemi	02P 092612	Pienpeto	EN

According to RR 33.8.15, we are required to maintain at least 5 active breeders in at least 3 regions. Active breeders must be members of TICA and the Thai breed section, and they must have registered a litter within the past 2 years. (For reference, this report was assembled in June, 2013, because that's when we had data from Lesley Hart to work with.) **We now have 22 active breeders in 10 regions.** We have expanded the number of regions with active breeders compared to previous years. Some additional breeders did not qualify for the list above because they did not keep their memberships up to date, though they did register litters and show cats. We have more than met the requirements for active breeders during the past year.

V. Conclusion.

In the third year of championship, the Thai breed has more than met the requirements for maintaining championship status. Compared to both of the previous two years, we have expanded the number of Thai registrations and regions where Thais are bred and shown. We have also expanded the number of active breeders. The breed has shown consistent, gradual growth and continuous active participation in TICA.

Minskin Breed Report - TICA 2014

TICA BOD, EO, Genetics Committee,

In April, 2012 Animal Planet Cats 101 debuted the Minskin as a featured breed on the series and it has become one of the most popular episodes watched: <http://animal.discovery.com/tv-shows/cats-101/videos/minskin.htm> and it is still airing on repeat episodes, making the breed more popular than ever. Breeders are receiving Minskin kitten inquiries daily from all over the world. The response has been amazing with incredible feedback.

Since the airing of Animal Planet Cats 101 and other YouTube videos, it was brought to my attention that there are two versions of the AP video:

- 1) Free online viewing; Animal Planet website, YouTube, etc
- 2) Amazon.com for .99 cents you can purchase and download on 2 electronic devices: Animal Planet Cats 101 Season 4 Episode 4 with the full length TV version which includes an extensive interview with Paul McSorley, in addition to footage of Minskins at a NauTICAts TICA Show in Sturbridge MA. This footage includes NERD Francine Hicks, Judge James Reardon and many more...

Minskin Facebook page: <http://www.facebook.com/#!/pages/Minskin-Cats/128371490598253>

Registrations should be on the rise with a number of non-registered cats, from breeders who did not keep accurate breeding records, registering their cats as "Foundation Registry".

This should bring dozens of cats from numerous new catteries to registration. Unfortunately, they will have UNKNOWN background, with no pedigree. This is something outside of my personal practices of keeping accurate pedigree information with proper registrations. I spoke with Leslie Bowers about it and she explained it to me as "unless the cats were already registered with the same birth date, TICA would allow for Foundation Registration". Enough said.

Bald Minskins are being referred to as "Bambino" and we are working on getting them registered as Minskin.

Rex-coated Minskins are referred to as "Teddy Rex" but a Minskin is a Minskin as it stands today.

I feel strongly that all of these varieties should be "breed grouped" with the "Munchkin" breed. For years it has been well known that the recessive "Rex" gene was introduced early on in the foundation cats used in the Munchkin development. The gene is there, has emerged on more than one occasion. Recessives CAN be forever. This would allow for everyone to utilize what they have and register them accordingly, reducing confusion and allowing everyone to breed what they love on a "what you see is what you get basis". This is the fundamental basics of what TICA was originally built on.

Please consider and expect that there will be a slower breed progression than what is usual, being a double mutation breed. The Minskin is a complex breed, they were intended to be.

The oldest living Minskin "Lola" who is over 13 years old, is doing incredibly well with no health issues and showing no signs of deterioration and going strong has her actual registered name suggests "TRT Strong and Invincible Lola".

TRT Cattery (TheRiteType) will be celebrating 25 Years in 2014.

MINSKIN

SERENGETI BREED COMMITTEE REPORT
JUNE 2013

Two thousand and twelve was a significant year for the Serengeti Breed. Breed Group Chair and Breed Founder, Karen Sausman, attended the TICA Winter Board meeting in Bogotá, Columbia to present a request to promote the Serengeti Cat to Advanced New Breed. The Board approved the advancement with some small changes in descriptive wording in the Serengeti standard. All of the members of the Serengeti Breed Group want to thank the Board for acknowledging our work over many years to create this breed. We are committed to continuing our efforts to meet and exceed the requirements for Championship status.

Serengeti Cats continue to be popular in many regions of the world with expanding activity in the UK and Europe and much interest developing in Australia and New Zealand.

A summary of our breed's litter numbers and registrations includes the following:

Total Serengeti litters since inception – 293 litters up from 271 a year ago

Total individual Serengetis registered since inception of the breed – 460 up from 436 a year ago.

Serengetis continue to be shown in TICA with the number of cats gradually increasing each year. Getting cats to the shows continues to be our biggest challenge. There are several new owners that are growing out kittens expressly to show them this season and then start their breeding programs.

Serengetis continue to attract the interest of cat magazines . We had articles in CATS USA 2013 and the August 2013 issue of Cat Fancy . Serengetis also are featured in the new UK published book – Beauty of the Cat

I would like to thank our breed advisor, Bobbie Tullo, for her continued unwavering support our effort to create the Serengeti Cat.

Respectfully submitted

Karen Sausman
Breed Group Chair

To:
The Directors of The International Cat Association (TICA),
Members of TICA Rules Committee
Members of TICA Genetics Committee

Application for the Advancement of the Australian Mist from Registration Only to Advanced New Breed under the Transfer New Breed Process.

The Working Group of Australian Mist owners/breeders wishes to submit this application for the advancement of the Australian Mist to be considered at the 2013 Annual Board Meeting in Bellevue, WA.

The Australian Mist, not unsurprisingly, is mostly found in Australia but in recent years has also been introduced to the UK and also the US. We believe that recognition with TICA at ANB status will greatly help its adoption outside its native Australia.

The Australian Mist originated in Australia in 1979 by Dr Truda Straede, and was developed over more than twenty years. The Australian Mist has a very large gene pool originally derived 50% from European-type Burmese, 25% from Abyssinians and 25% from Domestics. Outcrossing to the source breeds is no longer recommended.

The Australian Mist is known for its exceptional temperament. It is a well-balanced, gently contoured cat of moderate foreign type, with no tendency to extremes in any of its characteristics. Both males and females have well sculpted facial features creating an open generous expression. The males are usually slightly larger than females, with facial characteristics and musculature more developed. Muscle development, coat texture and eye color achieve adult expression by 2 years of age.

“Misting” is a term referring to an effect whereby the tabby pattern definition is diffused by a combination of the sepia color restriction gene, the relative thickness of the agouti hairs and non-agouti hairs, and the length of banding on the agouti element lending an ethereal appearance.

In 1979, Dr Straede proposed an experimental breeding programme with the approval of the Royal Agricultural Society of NSW Cat Control (this body was replaced with Cat Fanciers' Association of NSW, a member body of the Coordinating Cat Council of Australia). In 1986 the first fourth generation litter was accepted for registration with RASCC as “Spotted Mists” and was also eligible for Championship status with that body. At the same time, ACF also accepted the breed for Championship.

In June 1997 the marbled pattern was accepted by both the RASCC and the Waratah State Cat Alliance (then part of ACF) and it was added to the allowable patterns in the breed and from the 1st January 1998 marbled Mists were eligible to compete for Championship status in both bodies as well as ACF.

/Continued

On the same weekend in June 1998 both of the then current co-ordinating cat bodies in Australia (CCCofA and ACF) accepted the need to change the name of the breed brought about by the inclusion of the marbled pattern. The rationale was to avoid the awkward naming such as Marbled Spotted Mists or Spotted Mists (Marbled). The name was unanimously changed to “Australian Mists”.

On the 1st January 1999 the breed was accepted for Championship status by the New Zealand Cat Fancy (NZCF). In August 2004 the Australian Mist was accepted as a Championship breed by the World Cat Federation (WCF). It was also accepted for Championship status in 2011 by the ACFA (American Cat Fanciers Association).

In 2011 it was recognised by the GCCF (Governing Council of the Cat Fancy of the UK) and in June 2013, a recognition show for the breed was held at a FIFe show in the UK.

As breeders and/or owners of this distinctive and wonderful breed, we hope that the Board will consider our application favourably and look forward to presenting to you at the TICA 2013 Annual Board Meeting in Bellevue, WA.

Respectfully,

Val King, UK

Application for Advancement from Preliminary New Breed to Advanced New Breed Status for Khao Manee

33.7.1 Requirements. A Preliminary New Breed may apply for Advanced New Breed status upon completion of the following:

33.7.1.1 At least 1 year has passed since the breed was first advanced to Preliminary New Breed Status.

Preliminary New Breed was approved Sept 1, 2011 and became effective May 1, 2012.

33.7.1.2 At least 100 cats, which have attained the age of 8 months, are registered with TICA; of these at least fifty (50) must either correspond to requirements for the assigned registration category for Championship or have a registration code such that the offspring could be eligible for Championship.

TICA registered KM

(8 months or older by Sept 1, 2013)

COAT/COLOR/PATTERN	20	Points
Texture and length.	12	
Body color	8	

CATEGORY: Traditional

DIVISIONS: Solid

COLORS: White

PERMISSIBLE OUTCROSSES: Thai born non-white cats of very average, moderate body and head type.

HEAD:

Shape: Modified wedge, medium width, moderate length. From full front, face appears elliptical, with focus points just below outer corners of eyes. Fairly prominent cheek bones also lie along an inner ellipse with same focus points. Tip of nose and tips of ears form points of equilateral triangle. Inner eye corners lie along line from nose tip to ear tip.

Forehead: Long; very slightly convex.

Profile/Nose: Nearly straight, but with slight, straight, downhill slope from brow to just below eyes. Nose may have a slightly convex profile.

Eyes: Slightly to moderately large. But not oversized, nocturnal or protruding. Plump oval in shape. Set a bit more than an eye width apart. Lines drawn from corner to corner of each eye slant toward 10 and 2 o'clock

Eye Color: Odd-colored, one blue and one green or yellow. Two blue, two green, or two yellow eyes also permissible. One or both eyes may be pigmented with both blue and another color. Brilliance of eye colors and eye color contrast preferred. Any eye color permitted

Ears: Slightly large, wide at the base, oval tips. They should be somewhat longer than width at base. Ears should point toward 11 and 1 o'clock. Ears should be well separated from each other, a bit less than an ear base width apart. Allow for light furnishings.

Muzzle: Medium in length and width. Muzzle break is moderate, forming boundary of hemispheric, rounded muzzle.

JUN 12 2013

Chin: Moderate, proportional to the nose.

Neck: Medium in length and width.

BODY:

Torso: Medium. Underbelly is mostly firm, level and parallel to the ground, but some loose skin on the underbelly is permissible.

Legs: Medium to slightly long.

Feet: A long oval, medium in size in proportion to cat.

Tail: Medium. As long as the torso, tapering gradually to the tip. Tail tip kinks accepted.

Boning: Medium to slightly refined (females) or medium to slightly robust (males).

Musculature: Very firm, but cat should look agile and feel flexible and springy, not meaty or heavy. Males should have more muscle than females, but should not be cobby or thick-necked.

COAT/COLOR/PATTERN:

Texture: Slightly open, smooth enough to reveal musculature, with a moderate under coat in most circumstances, very natural, not overly groomed, not coarse nor very fluffy, naturally varies with environmental temperature.

Length: Medium length short coat, naturally varies with environmental temperature.

Body Color: Very even, snowy white.

GENERAL DESCRIPTION:

The ideal cat of this breed is a medium-sized cat of semi-foreign type, descended from and resembling the native Khao Manees of Thailand. It is a shorthaired, completely white cat with odd-colored eyes, but same-colored eyes are perfectly permissible. Indeed, the original eye color of the breed may have been limited to blue.

The history of the Khao Manee probably began when the Thai people developed the Khao-plort, an all-white cat with "mercury" colored eyes (most likely gray-blue eyes). The Khao-plort is described in the *Tamra Maew*, the Siamese Cat Poems of Thailand that are 200 to 700 years old. It is not certain when the cat fanciers of ancient Siam began to favor odd-colored eyes in their Khao-plort cats, but they must have done so by about 100 years ago at latest. The cats at that point came to be called Khao Manees, which means "white gem." Khao Manee as of the twentieth century had become the preferred name in Thailand for the breed, although the breeders still often use Khao-plort as an alternative name.

Khao Manees are derived from the native race of cats still seen in Thailand today. Like other native cats of Thailand, they should have characteristics suitable for the hot, wet, tropical climate, including a lithe, but not extreme, body, medium length nose (handles hot air better than short noses), a very short smooth coat, and muscular and athletic but never bulky body.

Preserving the resemblance to native Khao Manees includes, for example, preserving the natural sexual dimorphism. (Males should typically be 8 to 11 pounds and may have slightly heavier boning than females. Females should typically be 6 to 8 pounds.) It implies that characteristics more typical of Western breeds, such as very round heads or copper colored eyes, are to be avoided.

The personality of the Khao Manee, like that of all the native cats of Thailand, is communicative, though not necessarily noisy. They are active, playful, curious cats. They love to interact with people and hate to be left alone and ignored. The Khao Manee is highly intelligent. This is not a reserved, self-sufficient, independent breed. But it is a great breed for those who like cats that are all but human in their personalities and needs.

ALLOWANCE:

Stud jowls in males. Males also have significantly heavier chest and shoulder musculature. Colored spots limited to the head in kittens and young adults only. Tail faults that do not significantly shorten the length of the tail or significantly distract from the overall appearance.

PENALIZE:

Males resembling female cats in size, boning, or musculature. Females so large, heavy in boning or musculature that they resemble males. Round eyes. Oriental eyes. Short or blunt muzzle. Very long or pointy muzzle. Narrow upper head or narrow space between ears. Small ears, very large ears, or ears set low or high (significantly above or below 11 and 1 o'clock). Very straight profile. Tail fault that noticeably shortens the length of the tail.

WITHHOLD WINS (WW):

Roman profile. Pronounced stop. Pronounced convex forehead. Fluffy or stand-out coat. Cobby body. Obesity. Colored markings or clumps of colored hairs on cats over 18 months of age. Paw pads and nose leather other than pink.

DISQUALIFICATION:

Crossed eyes. Visible protrusion of the cartilage at the end of the sternum (xiphoid process).

DIAGRAMS:

male

female

Temperament must be unchallenging; any sign of definite challenge shall disqualify. The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm.

In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications: a cat that bites (216.9), a cat showing evidence of intent to deceive (216.10), adult whole male cats not having two descended testicles (216.11), cats with all or part of the tail missing, except as authorized by a board approved standard (216.12.1), cats with more than five toes on each front foot and four toes on each back foot, unless proved the result of an injury or as authorized by a board approved standard (216.12.2), visible or invisible tail faults if Board approved standard requires disqualification (216.12.4), crossed eyes if Board approved standard requires disqualification (216.12.4), crossed eyes if Board approved standard requires disqualification (216.12.5), total blindness (216.12.6), markedly smaller size, not in keeping with the breed (216.12.9), and depression of the sternum or unusually small diameter of the rib cage itself (216.12.11.1). See Show Rules, ARTICLE SIXTEEN for more comprehensive rules governing penalties and disqualifications.

JUN 12 2013

- June 26, 2013
- TO: TICA Board of Directors
- From: Terri J Harris, Working Group Breed Chair
- Subject: Napoleon Advanced from PNB to ANB
- Please find attached the required documentation necessary for the Napoleon Breed Group advancement from Preliminary New Breed to Advanced New Breed. You might note that the breeders have exceeded the necessary requirements, and have actually met the requirements to advance from ANB to Championship except for the time restraints. I am proud to present this information to you as Working Group Breed Chair, and hope that the board will approve the advancement of the Napoleon to the next step where we can continue promoting, exhibiting and educating about this new breed. *I Have included an additional page with interesting statistics about the Napoleon*
- It has been my pleasure to encourage, guide and educate breeders and pet owners alike, about the advancement process in TICA. My experience in the process with the Munchkins has afforded me the knowledge to lead, once again, in the development of a new breed in TICA. I am convinced that the Napoleon breed does, indeed, exhibit significant difference from other dwarf breeds and the necessary appeal to flourish in the cat fancy. At this time, we do not find it necessary to make any changes to the current standard.
- The Napoleons have a “purposely bred” look about them differentiating them from Munchkins, Napoleons should not appear to be Persians on short legs as they have no break and are not extreme in facial qualities, breeders are striving to eliminate all tearing and breathing issues and avoid “peke faced” looking cats; grooming issues are minimal on a beautiful non-cottony coat, with a pleasing combination of roundness and substantial boning on short legs, Napoleons are easily recognizable as a separate breed than either parental influence, and by keeping the current standard we hope to maintain that look. I have worked hard to keep them from becoming Persian type cats on short legs, with some disaccord amongst breeders who would like to see the breed go that way, by keeping the current standard I feel the breed is headed in the right direction.
- We hope that the board recognizes the efforts to produce this new breed as successful and grant us advancement as requested.
- Sincerely,
- *Terri J. Harris*
- Terri J. Harris, Working Group Breed Chair for the Napoleon Breed Group

 THE INTERNATIONAL CAT ASSOCIATION, INC. 
PRELIMINARY NEW BREED ADVANCEMENT TO ADVANCED NEW BREED

Name of Breed: Napoleon / Napoleon Longhair

33.7.1 Requirements. A Preliminary New Breed Class Breed may apply for Advanced New Breed status upon completion of the following:

33.7.1.1 At least 1 year has passed since the breed was first advanced to Preliminary New Breed Class Breed status.
Date (meeting) advanced to PNB: Philadelphia, PA Sept 2011

33.7.1.2 At least 100 cats, which have attained the age of 8 months (at the time of application), are registered with TICA; of these, at least fifty (50) must either correspond to requirements for the assigned registration category for Championship or have a registration code such that the offspring could be eligible for Championship.
List cats by name and registration number.

33.7.1.6 Submission of an Electronic Application for Acceptance as an Advanced New Breed Class to each member of the Genetics Committee and Rules Committee at least 90 days prior to the board meeting at which approval is sought. Any proposed modifications to a previously approved standard must be submitted with the application. Following approval of proposal by the Genetics and Rules Committee, the application must be submitted by the Working Group Chair to the TICA Executive Office at least 60 days prior to the Board Meeting for inclusion in the agenda. Any comments of the Genetics or Rules Committees must be included. The application must include the following:

33.7.1.6.1 A Letter of Intent to apply for approval as an Advanced New Breed Class Breed, signed by at least ten TICA members in good standing;
Include a list of names, addresses, and membership numbers in the application packet.

33.7.1.6.2 A proposed breed standard with permissible outcrosses, if any, approved by the Rules and Genetics Committees;
Include as a separate document in the application packet.

33.7.1.6.3 A proposed breeding program with any proposed changes;
Include outline of breeding program in the application packet.

33.7.1.6.4 A processing fee of \$50;
Include copy of DAR in application packet.

33.7.1.7. A Notice of Intent to Apply for Advancement to Advanced New Breed Class Status must be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.
Date submitted for publication in the TREND: Feb/March 2013, previously Jan 2013
At the meeting of the Board where application is made: August 2013

14.1 Breed Section. A Breed Section(s) shall be established for each breed or breed group and one or more sections for household pets. Each member shall automatically be eligible to apply to belong to one Breed/Breed Group Section as a part of his or her membership.

14.1.1 Any member may belong to additional Breed/Breed Group Sections by applying for and paying an additional fee AND by showing proof of one of the following:

- 14.1.1.1 Individual registration of a cat of the breed/breed group in the three years immediately preceding application.
- 14.1.1.2 Registration of a litter of the breed/breed group in the three years immediately preceding application.
- 14.1.1.3 Showing a kitten, cat, or alter of the breed/breed group in the three years immediately preceding application.
- 14.1.1.4 Ownership of a kitten, cat or alter of the breed/breed group.

113.1 Qualification. Each member in good standing, one whose dues are paid and who has no outstanding indebtedness to TICA or to any TICA club, and who is not/was not on the Temporary Suspension List on the qualifying date, who was a member in good standing 6 months prior to the first day of the month in which a ballot is to be mailed, shall be eligible to vote.

114.2 Announcement of Candidates. After the initial election, any member who has been a member in good standing for 2 consecutive years immediately preceding shall be eligible to seek office and shall declare his candidacy in writing to the Executive Office not more than 6 months nor less than 2 months before the election month with the filing fee established by the Board of Directors. If no member in the region or no member in the breed section has been a member for the 2 years immediately preceding the election, the 2 year membership requirement shall not apply. This shall entitle the candidate to be listed as a candidate for the office sought in every issue of the newsletter including the newsletter prior to the ballot being mailed to the membership. Each candidate shall be entitled to publish a summary of his/her experience, credentials and platform in accordance with Standing Rules 1014.3. No other advertisement, endorsement or article on any candidacy may be printed in the official newsletter. Candidates who are drafted by write-in vote of the membership shall fulfill all qualifications of those filing for office.

15.4.2 Qualifications for Election to a Breed Committee. Candidates for election to a Breed Committee shall provide documentation of having met the following requirements for election:

- 15.4.2.1 Have met the eligibility requirement(s) to vote in any TICA election (See By-Laws. 113.1)
- 15.4.2.2 Have met the requirements for breed section membership (See By-Laws 14.1)
- 15.4.2.3 Have paid TICA membership dues for the 3 years of the applicable term.
- 15.4.2.4 Have a TICA Registered Cattery (except for the HHP Breed Committee).
- 15.4.2.5.1 Have bred and registered with TICA a minimum of two litters of the appropriate breed within the 3 years immediately preceding the election (except for the HHP Breed Committee).
- OR
- 15.4.2.5.2 Have owned and shown a cat of the appropriate breed in a minimum of five shows within the three show seasons immediately preceding the election. (Note: Applicants for Household Pet Breed Committee(s) must meet this requirement to qualify for breed committee election.)

15.4.3 No member shall be a member of more than three breed committees.

15.5 No person shall be eligible to serve as an elected officer of this Association who is an officer of another similar association, or who has any outstanding indebtedness to TICA or to a TICA club.

14.1 Breed Section. A Breed Section(s) shall be established for each breed or breed group and one or more sections for household pets. Each member shall automatically be eligible to apply to belong to one Breed/Breed Group Section as a part of his or her membership.

14.1.1 Any member may belong to additional Breed/Breed Group Sections by applying for and paying an additional fee AND by showing proof of one of the following:

- 14.1.1.1 Individual registration of a cat of the breed/breed group in the three years immediately preceding application.
- 14.1.1.2 Registration of a litter of the breed/breed group in the three years immediately preceding application.
- 14.1.1.3 Showing a kitten, cat, or alter of the breed/breed group in the three years immediately preceding application.
- 14.1.1.4 Ownership of a kitten, cat or alter of the breed/breed group.

113.1 Qualification. Each member in good standing, one whose dues are paid and who has no outstanding indebtedness to TICA or to any TICA club, and who is not/was not on the Temporary Suspension List on the qualifying date, who was a member in good standing 6 months prior to the first day of the month in which a ballot is to be mailed, shall be eligible to vote.

114.2 Announcement of Candidates. After the initial election, any member who has been a member in good standing for 2 consecutive years immediately preceding shall be eligible to seek office and shall declare his candidacy in writing to the Executive Office not more than 6 months nor less than 2 months before the election month with the filing fee established by the Board of Directors. If no member in the region or no member in the breed section has been a member for the 2 years immediately preceding the election, the 2 year membership requirement shall not apply. This shall entitle the candidate to be listed as a candidate for the office sought in every issue of the newsletter including the newsletter prior to the ballot being mailed to the membership. Each candidate shall be entitled to publish a summary of his/her experience, credentials and platform in accordance with Standing Rules 1014.3. No other advertisement, endorsement or article on any candidacy may be printed in the official newsletter. Candidates who are drafted by write-in vote of the membership shall fulfill all qualifications of those filing for office.

15.4.2 Qualifications for Election to a Breed Committee. Candidates for election to a Breed Committee shall provide documentation of having met the following requirements for election:

- 15.4.2.1 Have met the eligibility requirement(s) to vote in any TICA election (See By-Laws. 113.1)
- 15.4.2.2 Have met the requirements for breed section membership (See By-Laws 14.1)
- 15.4.2.3 Have paid TICA membership dues for the 3 years of the applicable term.
- 15.4.2.4 Have a TICA Registered Cattery (except for the HHP Breed Committee).
- 15.4.2.5.1 Have bred and registered with TICA a minimum of two litters of the appropriate breed within the 3 years immediately preceding the election (except for the HHP Breed Committee).
- OR
- 15.4.2.5.2 Have owned and shown a cat of the appropriate breed in a minimum of five shows within the three show seasons immediately preceding the election. (Note: Applicants for Household Pet Breed Committee(s) must meet this requirement to qualify for breed committee election.)

15.4.3 No member shall be a member of more than three breed committees.

15.5 No person shall be eligible to serve as an elected officer of this Association who is an officer of another similar association, or who has any outstanding indebtedness to TICA or to a TICA club.

Supporting Information

33.10.1 The breed must have been at Championship status for a minimum of 5 years in at least 2 full members of the World Cat Congress.

Australian Mists were accepted for Championship by ACF (Australian Cat Federation) and by CCCofA (Coordinating Cat Council of Australia) in 1998. The breed was also accepted for Championship by NZCF in 1999.

Australian Mists were accepted for Championship by WCF (World Cat Federation) in 2004.

The breed is currently in the process of Championship recognition in GCCF and FIFe.

33.10.2 A minimum of 10 cats registered with TICA during the 12 months preceding the application

As of 10 June 2013, a total of 37 Australian Mists have been registered in TICA, including 8 in the show year 2011/2012 and 11 to date in show year 2012/2013:

TICA Cat Registrations by year for: AUM AUSTRALIAN MIST

Printed 06/10/2013

11	24 June 2013	MOUNTAIN MISTS NOELANI OF KARENA	SBT 071311 xxx
12		MOUNTAIN MISTS PZAZSHIRAZ OF KARENA	SBT 020412 xxx

33.10.3.1 A letter of intent to apply for Advancement, signed by at least five TICA members in good standing;

The following have supplied letters of intent (attached):

Val King, UK	(EW)
Mary Stuart, UK	(EW)
Karen Henneke, Kansas	(SC)
Norma Anderson, South Dakota	(GL)
Kay Hanvey, Washington	(NW)
Judith Wegner, North Carolina	(SE)
Martin Wood, UK	(EW)

33.10.3.2 A proposed breed standard, approved by the Genetics Rules Committees, including any permissible outcrosses

The proposed breed standard was submitted to the Rules and Genetics Committees on 8 May 2013 and has been approved by both. The TICA breed standard has been taken from the Australian Mist standard supplied by the breed founder, Dr Truda Straede, and edited by Nancy Parkinson and Dr Straede to meet TICA's standards and terminology. A copy of the Breed Standard is attached to this application.

33.10.3.3 An indication that the breed is to be categorized as an Established Breed, a Natural Breed, a Mutation Breed or a Hybrid Breed and the rationale for the proposed category.

The breeders request that Australian Mists are categorized as an Established Breed (Category I) since the breed has a wide gene pool and outcrossing to the source breeds is no longer recommended.

33.10.3.4 A proposed Working Group Chair for the breed.

Val King (EW Region) is proposed as the Working Group Chair.

33.10.3.5 A processing fee of \$50.

As per e-mail instructions from Leslie Bowers, the processing fee is to be paid after this application is submitted. A copy of the relevant DAR will be provided in time for the Agenda.

33.10.3.6 Statistics from the other organizations showing number of cats registered and shown during the last 5 years. If official statistics are not available, then copies of pages from show catalogues may be provided to demonstrate that sufficient cats have been shown and bred in other organizations to ensure it is a viable breed within TICA.

Australian National Cats Inc (a member of WCF) has registered a total of 736 Australian Mists between 2003 and May 2013.

Of these, 590 were kittens and the remainder were adults imported onto the register. This information was supplied by Bambi Edwards (Lead Tutor and International Judge) in an e-mail to Judith Wegner (attached).

The following pages provide copies of show catalogues from the last 5 years, showing the exhibition of Australian Mists at various shows:

Sunshine Cooloola Cat Club, Aug 2010

QFA Jan 2011

QFA Jan 2013

QFA 23&24 Mar 2013

WNCA Sydney Pet & Animal Expo, 6-8 Nov 2009

WNCA, 22 Nov 2009

WNCA 13th Anniversary Show 5&6 June 2010

Application for Advancement from Preliminary New Breed to Advanced New Breed Status for Khao Manee

33.7.1 Requirements. A Preliminary New Breed may apply for Advanced New Breed status upon completion of the following:

33.7.1.1 At least 1 year has passed since the breed was first advanced to Preliminary New Breed Status.

Preliminary New Breed was approved Sept 1, 2011 and became effective May 1, 2012.

33.7.1.2 At least 100 cats, which have attained the age of 8 months, are registered with TICA; of these at least fifty (50) must either correspond to requirements for the assigned registration category for Championship or have a registration code such that the offspring could be eligible for Championship.

TICA registered KM

(8 months or older by Sept 1, 2013)

Intent letter- Terri Harris

Dear Board Members,

I want to offer my sincere thanks to the board for appointing me as Working Group Breed Chair for Napoleon breed group. I stepped up when others quit and have worked hard to develop this breed as TICA would like to see it, substantially different from either parental group, at times this has been a struggle, but I have stood my ground. This is my personal letter with my personal opinions.

The Napoleon should not, in my opinion, resemble a Persian on short legs, which is more-or-less the vision of the founder. I, too, desired a dwarf breed where the non-standards were appealing and bred Munchkins to several different unacceptable outcrosses trying to find the niche, before the founder ever acquired a cat to start with. These cats were registered as Munchkins with unacceptable outcrosses until the Napoleon name was dubbed to the Persian outcrosses and a standard written. I, early on, recognized the appeal of a Munchkin with a more purposely bred look, and at the time the Munchkins were not an accepted breed, back in the days of NBC. Once the Munchkin did achieve registration and subsequent Championship status my breeding of Napoleons was only occasional, the demand was there, but I started concentrating on Munchkins that met the TICA standard. Since 1994 I have been a TICA member, my membership has never lapsed. I have produced many titled Munchkin cats and continue to do so, but my emphasis has switched to the Napoleon. I appreciate the ability to breed according to the standard with the desired consistent results, and, importantly, the non-standards are as desirable as the standards.

There has only been a small influx of new breeders in Napoleons, but the numbers are growing; I have placed breeding stock in a few different countries and TICA regions, and mentored new breeders as well as breeders that have worked with other breeds. I enjoy this, a lot. I love the Napoleon breed, although I openly admit I am not thrilled with the name choice.

At times it has been difficult, keeping breeders on the goal of producing a cat that does not scream Persian on short legs, I have been frustrated as a small faction are pushing for this type in looks and coat, and proclaiming the standard as lese majesty, but with the help of our board liaison I have persevered and continue to try and produce a breed that stands on it's own, according to standard as written now. With continued breed seminars and education to our judges and the public we as an association can achieve this goal with this breed. I plan to continue to work towards this goal and look forward to Championship status.

Sincerely, Terri Harris

Dear Sirs and Madams:

RE: NAPOLEON BREED ADVANCEMENT TO ADVANCED NEW BREED

This letter is in support of advancement of the Napoleon to Advanced New Breed (ANB). I began breeding cats in 2006 and Napoleons in 2007. By 2009, I was only interested in breeding the Napoleon. This cat with its unique temperament captured my heart and I saw no need to search any further for my favorite feline.

I worked alongside a dedicated group of breeders to advance the Napoleon to Preliminary New Breed for two years until I became ill. It took me well over a year to recover from my illness, including heart surgery. The first thing I wanted when I was well enough was to get some of my cats back to continue my breeding program on a smaller scale, which I am now doing. My own small contribution to the advancement is to ensure each Napoleon is counted by registering them myself. My clients provide the name and I send in the blue slip and pay for the registration on every pet Napoleon I place.

My breeding program is very specific. I breed for health and temperament. I only breed towards the furtherment and betterment of this breed by breeding out faults and breeding in specific traits that enhance the breed. The beauty of the Napoleon is a natural by-product in this cat! I have watched this cat become wildly popular all over the world and have a long waiting list for breeders and pet owners world over. It should be noted that my non-standard Napoleons are just as popular. They are quite easily placed into loving pet homes and I have received inquiries on my non-standard kittens for breeding programs, also. I get calls on a daily basis inquiring about the Napoleon and I hear the same thing over and over – people want this temperament regardless of the length of the legs. Something in the mixture of the Persian Breed Group with the Munchkin Breed Group created this unique temperament and it is a winning combination.

I believe that we have only seen the tip of the iceberg with the popularity of this breed. After every Show where a group of Napoleons have gathered I get calls from people who saw them there and want one! Many Napoleon breeders are new to Showing, but are enthusiastic and want to learn. I have attended Shows to learn the ropes and cannot wait to get my own kittens in there, which I hope to do by year's end. In the meantime, many of my cats are being Shown all over the country and more are being used in breeding programs all over the world. The Napoleons are here to stay and we continue our quest to learn and grow and are excited about the future when the Napoleon competes in Championship status.

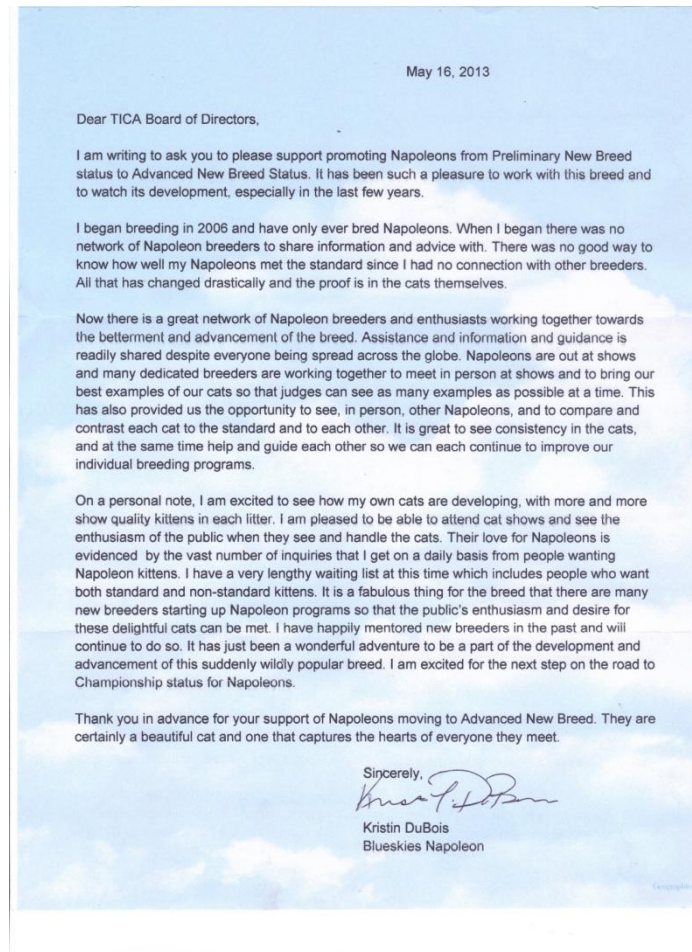

Both my husband and son work side by side with me in my breeding program and are TICA Members. They have signed below to add their request for advancement of the Napoleon to mine. Thank you so much for your consideration of our advancement petition.

Purpplelace Cattery
Hinckley, MN
Napoleon Cats and Kittens

I am dedicated to this wonderful breed and would like to see it move forward to the next level with TICA. I plan to breed as close to the standard as possible to keep the quality of the Napoleons consistent with the outlined description.

I also plan to show my cats and hope to produce some of the first Napoleon champions. I feel this is an excellent way to make the public aware of what is happening with this outstanding breed of cats.

I hope we can move forward to the next level this fall.

Sincerely,

Sandra Groleau

Letter of Intent – Lisa Martin

The International Cat Association
Board of Directors

Dear Sirs and Madams:

RE: NAPOLEON BREED ADVANCEMENT TO ADVANCED NEW BREED

My Name is Lisa Martin and I have the registered Cattery, NapTimeNapoleon. Before this past fall, I didn't know what it meant to be a good breeder. I had been breeding one pair for several years to produce Napoleons. I didn't understand how important it is to have registered cats, to promote the breed, to have written contracts, and so much more. I just knew what a Napoleon was and I was having a litter or two a year because I love the breed and I love having the ability to help other people get the chance to love them as much as I do.

Then I came across a Napoleon breeder who explained to me what a good breeder is and invited me to join the Facebook groups. I quickly was taken into the family of Napoleon breeders who have taught me so much! I can never express my gratitude to David Hodge and Joe Smith for teaching me so much along with all of the other breeders in these groups. Now I know what a good breeder is and what it means to the breed as a whole, I have worked hard to create an excellent cattery that produces healthy, beautiful kittens.

My first goal as a breeder is to educate new breeders and pet owners. If I had someone teach me years ago, I would be much farther along with my program. I can't tell you how many people call me about getting a Napoleon that I have spent hours on the phone

Page 1

with educating them about Napoleons but also about what it means to be a good owner and how to pick the right cat for them.

I truly love this breed. Until you have owned a Napoleon, you can't understand how different they are from any other breed. Another goal of mine is to raise the awareness of how the non-standard Napoleons are just as great as the standards. Yes, the short legs are unique but that is not what defines a great Napoleon. In my opinion, Napoleons are defined by the great personality, the beauty and grace that comes from the rounded face, eyes, wide ear set, the ears being smaller, the short muzzle, and the thick cobby body. I breed long haired Napoleons and I love the fact that their hair is beautiful like a Persian but the grooming is so much easier. I believe this is such an advantage to this breed because many pet owners don't want to do the grooming a Persian requires but they want the look. I have had people request non-standards just for this reason. I believe the non-standards should be allowed to compete in the show hall along with the standards. Right now, a pet owner would have to register a non-standard as a household pet in order to be able to show the pets they love. I personally don't think that is fair.

I am a small cattery but I plan to expand. There is a great demand for my kittens and I believe every Napoleon breeder has the same problem. The demand for Napoleons far outweighs the supply right now. The breeders I know are very dedicated to seeing this breed get to Championship status. We are going to as many shows as possible and spreading the word about this amazing breed. I can say for myself that I am willing to do everything I can to advance Napoleons.

Page 2

This breed deserves to be advanced and I believe in the coming years, the Napoleon will be one of the most popular cat breeds around. I hope that T.I.C.A. has the faith I have in this breed and will allow us to advance.

Thank you for considering Napoleons for Advanced Status,
Lisa Martin
NapTimeNapoleon Cattery

Letters of Intent - McMullen

May 11, 2013

Dear TICA Board of Directors:

We are writing in regards to the advancement of the Napoleon from Preliminary New Breed to Advanced New Breed. We are in a unique position. We have been Napoleon pet owners for the past 3 years. We purchased our cat with only pet intentions. At once we were taken in by Madi's sweet personality and disposition. She is gentle and easy going, however quietly intelligent. We have loved watching her grow and develop.

In learning more about the Napoleon breed we have learned that they are relatively new in the cat world. We asked how the process for being a recognized TICA breed worked and were given direction by several knowledgeable and professional breeders. One way that we decided to "help" was to take our Madi to a show. Her first show was in Wichita, Kansas in September of 1012. She was met with open arms and the judges were very supportive. We learned more about the breed we love and went home feeling glad that we had experienced this. To this point we had never seen another Napoleon "in person" so in April of 2013 we took Madi to her second show in South Bend, Indiana. There were 3 other Napoleon breeders there and we got to see several cats who were absolutely beautiful.

Along the way, we made another decision. We decided to breed this beautiful cat ourselves. Our grandchildren love Madi and she is excellent with them. We have acquired another Napoleon in order to start our own cattery, which we have registered as Purr De Lis Cattery! We are incredibly excited about this venture and want the basis for our cattery to be one of health and temperament. We plan to show our new little girl, who we have named Molly, until she begins having kittens and move forward from there.

Something that you should know is that these beautiful and smart cats simply make people happy! They are adorable and fun! I have a personal story to share with you. My father was in the last months of his life while dealing with advanced cancer. Madi had been with us for a few months when we decided to fly to Kansas from North Carolina (our home at the time) to visit my dad. Madi was small but I wanted to take her as well. My father was bed and chair ridden and hadn't smiled in weeks. Madi sat quietly, looking at him with her huge golden, round eyes. She sat up on her hind feet and "Prairie Dogged" to better "see" my dad...and then, Dad smiled. At a time when joy was so difficult to find, my dad found joy in the tiny gesture of a small cat that was curious about the man in the chair. We lost Dad soon after, but every time we talked on the phone he asked about her and if she was still standing like a prairie dog!

We appreciate your consideration of this advancement and look forward to many wonderful TICA shows in the future!

Sincerely,

Annetta McMullen

Annie and Ron McMullen

Intent Letter – Nikki McMains

Board of Directors, TICA

To be included with letters of
other TICA members.

Dear Ladies and Gentlemen,

My name is Nikki McMains, I live in Oroville, California. We are about 80 miles north of Sacramento, in the gold country of the Sierra foothills. I have been semi-retired for a number of years, and my pets are my joy.

I purchased three Napoleons, two lovely female kittens from Terri Harris, in Florida, and the male from Milada Kaiser, at Kaiser Opera Cattery in Southern California. Milada purchased him from Margie Gardner at Creators Cattery.

I was able to purchase Zorro from Kaiser Opera as she had had him for about two years, and he was the sire of many of her upcoming females. Had he not been, I have no doubt Milada Kaiser could never have parted with him.

Terri Harris' females, and Zorro were the very best Napoleons I could find. I purchased the females in one place, and the male in another because someday I would like to breed a very few exquisite kittens. That is sometime in the future. For now, they are my beloved pets.

Print

I am a big supporter of TICA. I am a member, I have a cattery name, and should Napoleons become showable, I will promote the breed.

Very Cordially Yours,

Nikki McMains

Intent Letter – Linda Osborne

June 10, 2013

TICA:

Please allow me to introduce myself. I am Linda Osborne of Windswept Cattery in Texas. I am a Napoleon breeder and have been for several years. I adore this sweet breed and completely enjoy sharing them with others. Wherever I go with one, I get the chance to tell about the breed and help convert more people to these sweet cats.

I intend to continue breeding Napoleons and working to help them advance to championship status. As soon as I retire, I plan to begin attending shows so I can further help this breed advance in all ways. I take my Napoleons to school and share them with my autistic students, and it is always their most favorite day of the year. I am also looking into taking them into nursing homes in a pet therapy fashion. You see, Napoleons can be promoted in many, many ways, and I intend to continue finding more and more fun ways to do that.

Enclosed you find some copies of some of my litter registrations. Thank you for considering us for advancement.

Sincerely,

A handwritten signature in cursive script that reads "Linda Osborne".

Linda Osborne

"The Most Adorable Cat"

Dear Board of Directors,

My name is Heidi Scharff and I am a TICA member and a member of the Napoleon breed group. It is my intention to continue to promote the Napoleon breed. I own Isla Jewels Napoleon Cattery in Texas and have 2 Napoleon breeding queens as well as 2 male intact Napoleons. It is with joy that I have this breed and my intentions are to continue breeding them to perfect on them using top of the line Persians and Himalayans. I find that the Napoleon breed is so popular and my litters are usually sold before they are born. People who call wanting the Napoleon don't care if it is a standard or non standard. They just love the look. I have registered 3 Napoleon litters.

I am also open to assisting others wanting to breed the Napoleon. In my eyes, they are possibly the most adorable cat!

Thank you for your time

Sincerely,

Heidi Scharff

May 22, 2013

TICA Board of Directors

Dear Board,

It soon will be 18 years ago that I began the Napoleon Cat project. For those of you who do not know, I closed my cattery and stepped away from the Napoleon Cat in 2006. In spite of this, the Napoleon continued to gain in popularity and grow in numbers. The Napoleon can now be found globally with established catteries in many Asian Countries, the UK, France, and South America, to name a few. This is very pleasing to me because the success of a breed cannot rest on the efforts of one person, or even one registration body. There must be something innately attractive and desirable about a breed for it to truly flourish, and I think you will agree that the Napoleon has more than proven itself in this regard.

Attached you will find a photo of a Napoleon that you will never see in a show hall. She is a nonstandard. However, I think this picture is important because this is the reason I began the Napoleon quest. Given that we are dealing with a gene that only grants us short legs 50 percent of the time, it was very important to me to create a cat that is beautiful and unique in both its standard and nonstandard forms. Thank you for your consideration of our request to proceed to Advanced New Breed Status.

Sincerely,

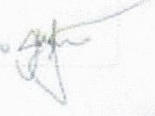

Joseph B. Smith
Founder
