

THE INTERNATIONAL CAT ASSOCIATION, INC.

2015 Annual Board Meeting

The Wyndham Grand Salzburg Conference Centre Hotel

Fanny-von-Lehnert-Straße 7

5020 Salzburg, Austria

September 2 - 4, 2015

(Open Session)

September 2, 2015, Wednesday, 9AM

		ACTION	PAGE
Welcome and Call to Order			
1. Roll Call	Mays	Verbal -	
2. President's Remarks	Mays	Verbal -	
Consent Agenda			
1. Future Meetings	EO	Approve	5
2016 January-Harlingen			
2016 Electronic-May			
2017 January-Portland	Barrett		
2. Minutes, Corrections/Additions	EO	Approve -	
Governance			
1. Follow Up Report	EO	Discussion	6
2. Update on 2016 Annual	Chisholm		

BREAK - 10:30-10:45AM

Fiduciary

1. Year End Financial Review	Fisher	Accept	To be furnished
2. Hotel and per diem rates	BOD	Approve	
3. Marketing Report	Fulkerson	Accept	To be furnished

LUNCH - NOON-1:15PM

Proposals

Registration Rules (Requires Membership Approval)

1. Amend Registration Rules	Harris	Approve	7
RR 33.2.1, 33.2.2, 33.9.1, 39.4			
Structural Mutations			

Show Rules (Requires Membership Approval)

1. Top 15 Finals	Board	Assess	10
------------------	-------	--------------	----

Standing Rules

1. Amend 2017.1	Parkinson/ Lawson	Approve	12
Copy of Judge's books			
2. Amend 901.4.2.	Klamm	Approve	13
Documentation for LA			

BREAK - 2-30-2:45PM

3. Add 907.4 Therapy Cat Title Program	Board	Approve	14
4. Add 401.1 Feedback on Judging Candidates	Harrison	Approve	16
 Judging Program			
1. Amend 410.1.5 Guest Judges	Hicks	Approve	18
2. Amend 418.7 Delete 418.13 - 418.15 Amend 418.16 Hearings	Mays	Approve	19
 Breed Reports			
Comments from Rules/Genetics	Wood	Accept	21
1. Chausie	Tullo	Accept	22
2. Highlander	Lively	Accept	23
3. Minskin	Hicks	Accept	26
4. Minuet	McConnell	Accept	27
5. Savannah	Flachs	Accept	28
6. Serengeti	Sausman	Accept	29
7. Donskoy	Eden		30

September 3, 2015, Thursday, 9AM

EXECUTIVE AGENDA (See Executive Agenda)

Presentations

- | | | |
|--|------------------|--|
| 1. Update on TIFF
The International Feline
Foundation | Hawksworth-Weitz | |
| 2. Non-domestic cats
outcrossing | Hutcherson | |
| 3. Presentation for 2018 Annual
PartyCats | Johnson | |
| 4. Presentation for 2018 Annual
Alabama Paws & Claws Cat Club | Gilmore | |

Discussions

1. Conduct detrimental to
the association (Show Rule 23.6.5)
2. Reciprocity for judges with CFA
- 3 OnLine Litter Registration
(Notification of the owner of the sire)
4. International Countries not in a Region (NON-VOTING)
*Winter Meeting, Motion #8 reads: Motion made by Crockett for unanimous consent to appoint Lisa Dickie to represent the International **Region** as Associate **Director**. Without objection.
TICA By-Laws, 1012.1 states: **International (IN) (NOT A REGION)***
5. Weekend designations to the Standing Rules: 109 **Meetings of the Board of Directors**. (By-Laws, ARTICLE NINE):
NOW 109.2.1 Meetings of the Board shall be held in January (Winter Meeting), in May (Spring Meeting) and the week immediately preceding Labor Day weekend (TICA Annual). All of these Board Meetings shall be scheduled for a minimum of 2 days.
BEFORE 109.2.1.1 Meetings of the Board shall be **the fourth full weekend in** January (Winter Meeting, **the third full weekend** in May (Spring Meeting) and the week immediately preceding Labor Day weekend (TICA Annual).
6. Khaomanee Board Liaison
7. Cost of 5-generation pedigree

Administrative

109.1 Annual Convention.

109.1.1 Annual Convention. Labor Day weekend each year is reserved for the Annual Convention. No other shows may be held the weekend of the Annual Convention with the following exception. A club may receive permission to hold a show on the Annual weekend upon application to the Board. Application must state specific reasons for the request for exemption and why such a show would have no impact on the Annual.

109.1.1.1 The rotation for the Annual Conventions shall be:, International - 2015, Southwest - 2016, South Central - 2017, Southeast - 2018, Mid Pacific - 2019, Mid Atlantic - 2020, Great Lakes - 2021, Northwest - 2022, Northeast - 2023, International - 2024.

109.1.1.2 Proposals to host the Annual Convention in the designated region must be received for the Annual Meeting 3 years prior to the proposed convention.

109.1.1.3 In the event no club submits an acceptable proposal, any club in any region may submit a proposal to host the Annual Convention by the agenda deadline for the Semi-Annual Meeting 2½ years prior to the convention and a notice soliciting such proposals shall be published in the TICA TREND.

109.1.1.4 The subsequent designated order of rotation will remain the same.

109.2 Meetings of the Board.

109.2.1 All Board Meetings shall be scheduled for a minimum of 2 days.

109.2.1.1 Meetings of the Board shall be the fourth full weekend in January (Winter Meeting, the third full weekend in May (Spring Meeting) and the week immediately preceding Labor Day weekend (TICA Annual).

109.2.1.2 The Winter Meeting shall be held in Harlingen TX without a show OR at a location outside the United States in conjunction with a show, approved by the Board.

109.2.1.3 The Spring Meeting shall be held in the United States, rotating from Central to West to East, with or without a show. The meeting venue must be at or near a major international airport at a hotel with adequate meeting space, full restaurant service and airport shuttle.

109.2.1.4 The Winter and Spring meeting locations shall be selected by the Board without consideration of accompanying show.

109.2.1.5 Minutes of all meetings of the Board of Directors shall be completed within 10 working days following the meeting.

No.	ITEM	LEAD	STATUS
1	Experimental Breed Certificate with changes from exhibition to competition	Hart	A2015
2	Refer proposal back to Rules and then Legal on 23.6.7.1 Transfer Traditional Entries to TICA show on opening day of show; Rules should look at 23.6.6 and 23.6.7.	Bourreau	A2015
3	Refer back to Rules for clarification of the Therapy Cat Title program requirements.	Patton	A2015
4	Research and submit the rule changes needed to implement Top 15 finals if 75 or more cats are competing in the class and set timeline.	Rules	A2015
5	Furnish the definition of the color ROAN to the Rules and Genetics Committees for approval.	Rules	A2015
6	Research Registration rule 33.1.2. (per email from M Vasquez 6/8/15)	Rules	A2015

THE INTERNATIONAL CAT ASSOCIATION, INC.
PROPOSAL TO AMEND RULES

1024.1 Amendments. Proposals to amend the Show Rules, By-Laws and Registration Rules shall be considered by the Board of Directors at meetings and must be in writing and received in the Executive Office 60 days prior to the opening day of the meeting. Proposals to be submitted according to ARTICLE SEVENTEEN, 117.1.2 of the TICA By-Laws: "Procedure. Any member may submit a proposal to amend the Show Rules or Registration Rules. Said proposals shall be first submitted to the Genetics, Rules Committee and the Board of Directors in writing, stating the article and section to be amended and the wording of the new or amended section(s). The Board of Directors may approve, reject or refer the matter back to the appropriate committee. If the Board of Directors approves the matter, it shall be submitted to a membership vote on the annual ballot in October."

1024.2 Form and Format. The Board will entertain amendments to the By-Laws, Show Rules, and the Registration Rules at each meeting if presented in the proper format and in the proper time, with the proper authorizations, i.e., Rules Committee, Genetics Committee, etc.; and Standards, breed matters, and judging matters will be entertained at the Annual Meeting. Effective 05/01/92, those submitting proposals for changes must use the approved form. **All proposals must be received in the Executive Office and by the appropriate committees 60 days prior to the meeting.**

1017.1 Amendments. Proposals to amend the Show Rules and Registration Rules shall be considered by the Board of Directors at regularly scheduled meetings. **Proposals from the membership must be in writing and received by the Rules Committee no later than 90 days prior to the opening day of the meeting** to allow time for review in order to reach the Executive Office 60 days prior to the opening day of the meeting. Proposals received by the Rules Committee after the 90-day deadline will be placed on the following meeting agenda. Proposals are to be submitted according to ARTICLE SEVENTEEN of the TICA By-Laws.

1024.1 Amendments. Proposals to amend the By-Laws shall be considered by the Board of Directors at regularly scheduled meetings. **Proposals from the membership must be in writing and received by the Rules Committee no later than 90 days prior to the opening day of the meeting** to allow time for review in order to reach the Executive Office 60 days prior to the opening day of the meeting. Proposals received by the Rules Committee after the 90-day deadline will be placed on the following meeting agenda. Proposals are to be submitted according to ARTICLE TWENTY-FOUR, 124.1.1 of the TICA By-Laws.

DATE: 06-08-2015 AMEND THE: BY-LAWS SHOW RULES REG RULES

State current rule (to include article and/or section number): _____
See attached

State the proposed change or addition (include article and/or section number for addition): _____
see attached

Rationale for proposed change: See attached

Submitted by Terri Harris

State Current Rule (to include article and/or section number):

33.2.1 Domestic Hybrid Breed - A breed developed from a deliberate cross between two existing domestic breeds, incorporating characteristics of both parental breeds into the new breed. Breeds that have a structural mutation as a breed characteristic must not be used as source breeds.

33.2.2 Domestic x Non-Domestic Source Species Hybrid Breed - A breed being developed by means of deliberate foundation crosses between domestic cats and a single non-domestic source species. The domestic cats used must not have a structural mutation.

33.9.1 Any new trait or traits of a Championship Breed, not recognized for competition in the kitten, cat or alter class of that breed, that is not a structural mutation (such as, but not limited to, folded ears, short legs etc.) may be exhibited in the New Traits Class. New Traits Class cats appear in the catalog and judges' books and judges include these cats in judging fees

39.4 Structural Mutations are "owned" by the first breed establishing Championship status that displays that structural Mutation (such as folded ears: Scottish Fold; short legs: Munchkin; Curled ears: American Curls, etc) New breeds may only use this structural mutation with permission (a majority vote of the breed section) of the breed/breedgroup owning it.

State the proposed change or addition (include article and/or section number for addition):

33.2.1 Domestic Hybrid Breed - A breed developed from a deliberate cross between two existing domestic breeds, incorporating characteristics of both parental breeds into the new breed. Breeds that have established a ~~structural~~ mutation as a breed characteristic must not be used as source breeds.

33.2.2 Domestic x Non-Domestic Source Species Hybrid Breed - A breed being developed by means of deliberate foundation crosses between domestic cats and a single non-domestic source species. The domestic cats used must not have an ~~structural~~ established mutation.

33.9.1 Any new trait or traits of a Championship Breed, not recognized for competition in the kitten, cat or alter class of that breed, (such as, but not limited to, folded ears, short legs , curled ears, new coat texture) may be exhibited in the New Traits Class once it is determined by DNA to be different gene than a similar mutation already in use and it will not detrimentally interfere with gene function and possible gene interactions with the parental breed. New Traits Class cats appear in the catalog and judges' books and judges include these cats in judging fees

Proposal to Amend Rules Page 1 of 2

39.4 Mutations described in a standard of a Championship breed (such as folded ears: Scottish Fold; short legs: Munchkin; Curled ears: American Curls, Coat types or patterns such as rexed or Lykoi, etc) may not be duplicated to create new breeds that are actually hybrids. Similar phenotype mutations may be used, *only* if there is DNA evidence that they are in fact different than the original mutation in the Championship breed, it is determined by DNA to be different gene than a similar mutation already in use and it will not detrimentally interfere with gene function and possible gene interactions with the parental breed. **They must be unique genetically.**

Rationale for proposed change: Clarification of new rule. Hybrids borrowing a/the mutations from already established Championship breeds are not “new breeds” This proposal changes the language from ownership of a mutation in established Championship breeds but still protects their unique mutation by requiring that any new mutation be **genetically different than the established mutation**, and furthermore, as determined by the genetics committee will not detrimentally interfere with gene function or have possible negative gene interactions with the parental breed.

Any new mutation that is documented to be genetically different, and without debilitating effects can progress. By taking out the word structural we have now included varying degrees of rex genes, hairlessness or new distinct coat textures i.e. Lykoi. (Pattern)

Any truly unique and genetically different mutation can still be recorded and allowed to progress through TICA’s new breed program. Should a breed group want to allow a mutation in their breed, they can go through New Trait class.

Top 15 Finals (Board Directive)

At the Spring 2015 Meeting, the Board directed Rules Committee to prepare amendments to the rules to implement Top 15 Finals.

In reviewing this, the Rules Committee was unable to reach a consensus on the best way to proceed. In addition, the lack of any information on the programming implications (both in terms of costs and magnitude of system changes) for any such change made reaching any decision difficult.

The following options have been identified, together with pros and cons for each option. Rules requests that the Board confirm which option Rules should use to develop rule changes, or provide an alternative preferred option.

Option 1: Do nothing and leave it as Top 10

Pro: Avoids any expense or work in the EO to change to Top 15 - which affects less than 5% of the shows

Con: No Top 15 Finals

Option 2: Increase all existing Finals points by 50 points, and insert 11th to 15th Best points (using existing method of reducing by 10 points at each stage) but leave existing title points thresholds the same.

Pros: May reduce complexity of change for Top 15; Increase in points value means 11 – 15 Finalists will get more points than non-Finalists.

Cons: All Cats/Alters/HHPs will get titles faster as a result of increasing Finals points - this applies to all shows held and possibly "cheapens" TICA Titles

Option 3: As Option 2 but increase all title thresholds by a suitable percentage (e.g. 25%) to recognise the increase in points values.

Pros: Ensures existing challenge of obtaining TICA titles is maintained for all shows, regardless of count size; Increase in points value means 11 – 15 Finalists will get more points than non-Finalists

Cons: Additional changes to adjust the title thresholds

Option 4: Keep existing points range for Top 10 rings, but in TOP 15 rings only, Finals points are from 250 (AB) or 200 (SP) downwards

Pros: Maintains existing challenge of obtaining TICA titles for the vast majority of shows, yet allows for Top 15 Finals where needed.

Cons: Very complex to implement and administer. May encourage "stuffing" of classes to increase cat count

Option 5: Award 100 points (AB) or 50 points (SP) to each 11th to 15th Best

Pros: Possibly simpler to implement

Cons: Goes against the current TICA ethos of awarding finals and ranking the cats within that Final

Amend Standing Rule 2017.1, JP 44.4.3.4 – Judges’ Books (Parkinson/S Lawson)

Rationale:

Since many clubs have been using the TOES entry program and buying their own three-part NCR paper, there have been issues with the color of the third copy of judges’ books. Rather than specify what color the paper should be, it is only necessary to say that a copy goes to the Master Clerk (and ultimately stays with the club) and that the judge retains a copy. This is technically nothing more than a housekeeping change.

Amend Standing Rules:

2017.1 Judges Books. Judges must forward the COVER and the ORIGINAL (white copy) of all pages of the judge’s book to the Executive Office of TICA within 48 hours after the close of the show. Alternately, judges may forward a scanned document containing the cover and all white pages to the Executive Office within 48 hours after the close of the show. The scanned book must be legible and all pages must be included, otherwise the judge’s book will not be considered complete and timely, and the penalties for a late judge’s book assessed. If a scanned book is used in lieu of the original, the judge must retain the original judge’s book until one year after the close of the show season to which that judge’s book relates, and must provide the original judge’s book to the Executive Office within 48 hours if requested to do so. ~~The yellow~~ **A** copy of all pages of the judge’s book is to be turned in to the master clerk at the proper time during the show. The judge retains ~~the pink~~ **a** copy of all pages of the judge’s book for his/her personal records. At the completion of the show, the Master Clerk will submit the marked catalog and ~~the yellow copies~~ **a copy** of the judge’s books to the Club/Show Committee.

Amend Judging Program

44.4.3.4 Signing judge’s book and giving ~~goldenrod~~ **a** copy to clerk.

Mechanics (pg.64)

Ask the trainee to turn in ~~their goldenrod sheets~~ **a copy of their judge’s book pages** to the ring clerk for review.

Rules Committee Comments:

- A) Yep - needs to be changed. Looks good.
- B) Fine with me
- C) I agree that this is a good change to make

Amend 901.4.2 – LA documentation (Klamm)

Rationale:

With TICA's computerization, it is much easier and faster for the Executive Office to confirm that a Lifetime Achievement Award has been earned. Additionally, since the 2013-2014 show year, in lieu of "copies of the certificates issued by Executive Office", they have allowed a copy of the Official Standings to serve as proof that an RW or an IW has been achieved. While the winners may not be able to be recognized at the Annual, they can certainly be recognized at their Regionals, if that is something that is done in their region.

Amendment:

Change Standing Rule 901.4.2.6.4 to read: Copies of the certificates issued by Executive Office **or copies of the Official Standings posted on the TICA Website by the Executive Office showing that an RW or an IW have been achieved.**

It should be noted that the Lifetime Achievement Award form would have to be changed to reflect the additional documentation if the proposal passes the Board. The specific item would be:

"901.4.2.6.4 Copies of the certificates issued by Executive Office **or copies of the Official Standings posted on the TICA Website by the Executive Office showing that an RW or an IW have been achieved.**"

Rules Committee Comments:

A) I've no objection, although I feel the addition could be a separate list item and 901.4.2.6 tidied up to make things somewhat clearer.

Add Standing Rules 907.4 – Therapy Cat Title Program (Board Directive)

Rationale:

The purpose of these titles is to honor the cats and owners for the dedication required in performing as a therapy team. TICA would be the first cat registry that gives actual titles for these special cats and their owners.

Following agreement to establish a Program at the Spring 2015 Board Meeting, Rules Committee were directed to prepare a suitable set of Standing Rules.

In preparing these rules, the Committee decided that an initial title level (Therapy Cat Novice) was appropriate to encourage participation in the program whilst building up visits to qualify for the other titles.

Rule Additions to Standing Rules:

907.4 Therapy Cat Title Program. The purpose of this title program is to honor cats and their owners for the dedication required in performing as a therapy team. Therapy teams might visit entities including, but not limited to, hospitals, skilled nursing facilities, group homes; schools, after school facilities, or individual's homes for those who are home bound, with the purpose of making a positive difference in peoples' lives.

907.4.1 Eligibility for titles.

907.4.1.1 The Therapy Cat Title Program is available only to TICA members in good standing.

907.4.1.2 Cats participating in the program must

907.4.1.2.1 Be registered with TICA

907.4.1.2.2 Be registered/certified by and affiliated with an approved therapy pet organization

907.4.1.2.3 Complete the required number of visits under the guidelines of the registering/certifying therapy pet organization

907.4.2 Requirements for titles.

907.4.2.1 The title of Therapy Cat Novice (TCN) will be awarded upon a team's completion of 10 visits.

907.4.2.2 The title of Therapy Cat (TC) is awarded after the team has completed 50 visits.

907.4.2.3 The title of Therapy Cat of Excellence (TCX) is awarded after the team has completed 100 visits.

907.4.2.4 The title of Therapy Cat of Distinction (TCD) is awarded after the team has completed 200 visits.

907.4.3 Claiming titles. Upon completion of the required number of visits, titles may be claimed by

907.4.3.1 Completing the official claim for title form, documenting and certifying the required number of visits.

907.4.3.2 Submitting the required processing fee of \$20.

907.4.4 Recognition. Upon successful completion of each title level, the therapy cat will receive the appropriate certificate and badge.

907.4.5 Approved pet therapy organizations.

907.4.5.1 The Executive Office will maintain and publish a list of approved organizations.

907.4.5.2 Generally, therapy animal organizations which are recognized by the AKC (or the equivalent national canine registry) for Therapy Dog titles will be considered approved organizations.

907.4.5.3 Additions to the list may be requested by submitting proof that an organization is an organized therapy animal group, it conducts a screening program for volunteers and their cats, provides educational material on volunteering in therapy situations, and provides for insurance for their volunteers and animals

907.4.6 Members participating in this title program must certify that they understand that this title program is not a Service Animal program and TICA's awarding of titles must not be used to gain any special access or privilege afforded to Service Animals.

Rules Committee Comments:

A) I like it! I think it's a great program! This way cats that do this all the time will get recognition for their work.

B) I like this too. I might even give it a try!

C) I like this a lot, and am glad that we've decreased the number of required visits to earn a title so that it will not be such a daunting process.

D) This is a welcome addition to the range of awards open to TICA-registered cats

Add Standing Rule 401 (Feedback on Advancements) - Harrison

Rationale:

Currently there is an unofficial rule that all comments regarding judging applicants and advancements must be received by the Judging Administrator 30 days prior to a Board meeting. This "rule" is not being enforced. Things that should have been brought to light or not even mentioned are being brought up at the meetings and it has created an atmosphere of distrust among judging applicants, advancements and people that are interested in going in to the TICA judging program. This rule addition would hopefully put a stop to that practice.

Add to section 401 Standing Rules (Judging Program):

401.1 The Judging Administrator or designee will maintain a file on each applicant, trainee, and judge.

401.2 For acceptance into the Judging Program, advancements and/or re-licensing in the judging program, the Board of Directors will only consider items included in the Judging Administrator's file of the applicant, trainee, or judge. The only exceptions will be feline welfare issues and serious ethical or legal issues that have surfaced as recently as two weeks prior to each meeting providing that they are supported with proper documentation.

**This would also be added in to the section on the Duties of the TICA Judging Administrator under the fourth bullet...Maintaining accurate files on each TICA Judge.*

Rules Committee Comments:

A) I like this

B) If something ethics or welfare emerge in that 2 week period, then the person should be moved to the next meeting until it is clarified.

C) The proposal is in order and I have much sympathy with the aims of the amendment.

D) This would have my support. Well done!

E) The problem is when a person is before the board and another board member brings up something that has never been brought up before and is

accusing the applicant when they have no recourse or no way to defend themselves and there is no time to investigate at the meeting. We've seen many times where people are just rejected and never told why and often times it is just poor 'sportsmanship' on the part of the board member - or due to some petty dislike of the person applying and nothing to do with their ability to be a TICA Judge.

It's sad when we have to make up rules that should not be required in a Moral society. But there it is.

F) That's exactly right. The catalyst for these rule changes is because the board does this.

Candidates have a right to know what they need to do in order to advance. Perhaps a rule that if things like that come up, everything will be held over until the next meeting so all those involved will have time to rebut accusations.

G) I agree with the comments from (E)

H) Wow, that's a tough one - I agree that unless it is a serious welfare or other legal/ethical issue it shouldn't be allowed to be brought up for the first time at the meeting, and if it is then supporting documentation should accompany the accusation.

J) I am terribly sad that we have to have a rule to monitor RD behavior. Personally, we judges have to go through training, so I would like to see training required for the BOD as well, covering the responsibilities of leadership, group theory and the tools necessary to foster international/cultural relationships to strengthen our ability to keep developing TICA worldwide.

Judging Program 410.1.5 – Guest Judges (Hicks)

Rationale:

In certain areas of the world, it is cost prohibitive to obtain TICA judges for the weekend. Increasing the number of time for these guests will help relieve some financial burden on the clubs .

Amend Judging Program

410.1.5 A judge may serve as a Guest Judge no more than ~~two~~ **five** weekends per TICA show season except as stated in 410.1.6.1.

Rules Committee Comments:

A) This looks fine

B) Fine with me

Amend Judging Program 418 – Hearings (Mays):

Rationale;

TICA is 36 years old and it is time for our Judges to receive due process and be granted a hearing.

Amendments:

Add 418.1.4:

416.1.4 Penalties shall include, but not be limited to, being dropped from the judging program, being denied advancement within the program, or being demoted following due process (see 418.16).

Amend 418.7

In the event a Judge's license is not renewed, and there are extenuating circumstances of which the Board is unaware, the Judge may ~~ask the Board for a hearing. However, the Board is under no obligation to grant the hearing.~~ **request a hearing within 45 days of the denial date by notifying the EO and copying the JA.**

Delete 418.13 to 418.15

~~418.13 A Probationary Specialty Judge is on probation in the judging program. S/he may be dropped from the judging program, or denied advancement within the program, at any time upon demonstration of just cause. A hearing is not necessary.~~

~~418.14 An Approved Specialty Judge is on probation in the judging program. S/he may be dropped from the judging program, or denied advancement within the program, at any time upon demonstration of just cause. A hearing is not necessary.~~

~~418.15 A Provisional Allbreed Judge is on a trial basis in the judging program. S/he may be dropped from the judging program, or denied advancement within the program, or demoted, at any time upon demonstration of just cause. A hearing is recommended.~~

Amend 418.16

No action may be taken against ~~an Approved Allbreed judge or an instructor~~ **any Judge** without full documentation of charges against that Judge and a hearing before the Board of Directors except as provided in ARTICLE EIGHTEEN 418.3

Rules Committee Comments:

A) These work for me. The only thing that can be argued is whenever you start a new job there is always a probationary period. Maybe the only probationary period could be as a probationary specialty judge and after those 20 shows all rights will be given.

B) I am good with this

C) It's a good move. Proposal is in order.

Breed Reports Received by Rules Committee:

Championship:

- Savannah

ANB:

- Highlander
- Minuet
- Serengeti

PNB:

- Minskin

Rules Committee Comments:

Savannah:

A) Clearly looks like the Savannah breed is well established and thriving after 3 years of Championship.

B) We do think that there might be an accidental misprint in the fifth paragraph of the report as IW Halestone Midnight Hunter was 20th Best International Alter in 2013-2014.

Serengeti:

A) I queried the Serengeti report as I show and judge quite a bit in Europe and I don't recall seeing one last season. The cat referred to in this report was shown the previous season although I am awaiting a further reply from Karen.

B) I'm not sure I saw one either

Chausie Breed Report 2015
(2nd year in championship report)

Our 2nd year in Championship is even more exciting for the Chausie breed than the first year....The Chausie Breed Committee is happy to report that we have 2 International Winners this last show season along with more cats earning titles and placing regionally.

Our two IW's are IW SGA Tasurt Osiris (Osi) – TICA's best Alter, owned and shown by Alex and Dasha Marinets, Canada and IW SGC Tasurt Amun Ra of Sonnenblume (Sidney) TICA's 20th best Short Hair cat, owned and shown by Jo Milnes, UK. The Chausie Community is very proud of these two boys, their accomplishments and their owners!

We have continued to meet and in some cases exceed the requirements for a breed in the first 3 years of Championship.

There are 24 breed section members representing 10 different regions. (SW, SC, NE, EN, SC, NW, EW, ES, MP, MA).

48 individual Chausies were registered in 2014 and 22 have been registered between Jan 1 and May 1, 2015. Representing 18 catteries registering individual kittens or cats during that time frame.

Breed Section Members registering litters and individual cats are Sarsenstone, Cristy Bird (SW), Halestone, Mike/Sandy Hale (SW), Tasurt, Bobbie Tullo (SW), Jinipenda, Shannon Ziokowski (SW), Tribes, Judy Bender (SC), Willowind, Tammy Isaacs (SC), Marechal, Sheryl Koontz (MA), Leonardo, Liliya Garmashova (EN), Luxury Cats, Helena Sheremetieva (EN), Walhalla, Ewa Zgrabczynska (EN), Samhari, Sam Harrison (EW), Siroualba, Paula Harrison (ES) thus meeting the requirements for 5 active breeders in 3 different TICA Regions in the last 2 years.

There were 17 individual cats of the breed shown in a total of 51 shows (note; a show is considered a show regardless if it was 1day, 2 days or 3days). The regions shown in were NW, SW, EW, ES, MP, SC, NE, EN, MA, GL. Chausie cats, kittens and alters were handled 904 times in the 2014/2015 show season.

The breed is continuing to grow outside North America with breeders either established or getting their first pairs of breeding cats in England, France, Poland, Russia, Scotland, Sweden and the Ukraine. The Breed Committee continues to encourage breeders to register and show their cats in TICA.

Members of the breed group continue to send dna samples to Dr. William Murphy's team at TX A&M for testing. We are part of the fertility research and more recently have been sending samples to help determine more information on the grizzled coloration that the Chausie comes in.

Respectfully submitted for the Chausie Breed

Bobbie Tullo, breed chair

The Highlander Breed Group Report: 2014-2015

This has been a great year for the Highlander! The TICA board members voted to transfer the Highlander to Advanced New Breed at the Winter Board meeting, January, 2015. We are continuing to slowly gain popularity as more people become interested in our breed. Our breed section membership has also slowly grown, we are now at 25 members.

The Highlander was featured in the March-May, 2015 issue of Cats and Kittens magazine. This has been a great opportunity to increase international awareness of our wonderful breed, and provide an accurate overview of it. The Highlander segment on Cats 101, Animal Planet also continues to generate interest in our breed as it continues to be rerun on television or viewed online. Although lacking accuracy in some facts, this exposure has overall been positive in promoting our breed.

Highlander Litter Registrations

In the 2014-15 show season there were 89 Highlander litters registered from 21 different catteries, which is very similar to the counts registered in the prior year. Of these litters, 4 were 02T/V registered, 7 were 03T/V registered, 22 were A2 registered, 1 was A3 registered, 28 were B3 registered, 1 was BO registered, 3 were C2 registered, 6 were C3 registered, 9 were CO registered, and 9 were SBT/V registered litters. This clearly demonstrates a progression of advancement in breed codes by an increase in the number of B3, BO, C3, CO, and SBT litters.

Individual Highlander Registrations

In the 2014-15 season there were a total of 112 Highlanders registered, showing a steady increase in individual registrations over the years. Of these individually registered kittens 1 was 01T, 4 were 02V, 11 were 03T/V, 18 were A2 registered, 2 were A3 registered, 1 was B2 registered, 31 were B3 registered, 2 were BO registered, 6 were C2 registered, 7 were C3 registered, 10 were CO registered, and 17 were SBT/V. This again shows a significant progression in the codes that are required to qualify for Championship, particularly the SBT numbers which has more than doubled from last year's SBT/V registrations.

Highlanders in the Show Hall

Fifteen unique Highlanders were shown in 12 different shows in 6 different regions, representing 7 different catteries in the 2014-15 show season. This is three times as many Highlanders shown over the past year, with an increase in the regions shown and catteries represented as well. It is very exciting to see more interest in seeing Highlanders in the show hall!

In

the seeing more Highlanders in the show hall.

Summary

review, the Highlander breed has continued to grow in every aspect that is monitored. It has met and exceeded all requirements as an Advanced New Breed and we are very excited to be in this next phase of our development. We are encouraged by new faces joining our ranks, and

We are already on our way to meeting the requirements needed as a Championship breed, however recognize that numbers do not make a breed. Our focus during this next phase of

growth is to improve type and consistency in our breed so that we are producing cats that clearly represent our standard. This is the hardest, but most crucial part of creating a new breed, and one that requires our focus and cooperation as a breed section to see it happen. We are excited about the progress we have already made, and are excited to see how our Highlanders will continue to develop over the next few years.

Minskin breed report 2014-2015 received from Francine Hicks on 6/4/2015

To: TICA board of directors and genetics

I have been the working chair for the Minskin breed since August of 2014. I am currently working hard to bring up the number of TICA registered Minskin cats. As of April 14th 2015 there are 118 registered minskin cats 6 of them are active in the show rings and more are up and coming. The breed has been seen at several different shows. I am working to bring together anyone breeding them get their cats and catteries registered this will increase the number of cats active at shows as well as the diversity of regions they are seen in. There are 4 known upcoming late spring litters dew I am hopeful to get any to standard kittens into show and breeding homes.\par As of now I have begun genetics testing for coat type and color as well as HCM screening in all show and breeding cats. I expect in the next year to have all cats in registered show or breeding program homes to be tested. As of now no genetic issues have been found and in all registered and tested cats we have not seen any cases of heart issues. I hope to keep it like that.\par The breed is making slow progress, but has begun to move forward again. Progress will be picking up pace over the next year as I work to continue to bring everyone working with the breed currently together get their catteries and cats registered as well as bring in new breeders. This will greatly increase the number of registered catteries breeding Minskin cats, the over all number of cats registered with TICA, and widely broaden the number of regions they are shown and bred in.

The Minuet Breed Group Report: 2014-2015

The Minuet has been in ANB since August 29, 2013. We have been in process of building our breed group and gaining new members that are interested in promoting and showing the Minuet.

Our breed section membership has grown to 35 members.

We have 10 members in GL, 13 members in SE, 3 members in MA, 2 members in SC, 1 member in MP, 1 in EN, 2 in EW, 1 in NE, 1 in AA, 1 in NW

Minuet Litter Registrations & Individual Minuet Registrations

Total number of Minuets registered for 2014 are 202

Total number of Minuets registered in 2015 as of June 1st 2015 are 54

In 2014 there were 70 whole males registered

In 2014 there were 110 whole females registered

In 2014 there were 22 alters registered

The TICA report dated 06/01/15 lists

Total of 966 Registered cats Since 2002

Total of 957 litters registered Since 2002

Total of 3,319 TICA kittens born Since 2002

We have 966 cats registered as of June 1st 2015

We have 614 cats that are eligible for Championship registered.

Here is a list of most of the Minuet Cats shown in TICA with photo's 60+ cats shown

http://www.ticaminuetcats.com/uploads/4/6/1/7/46170295/cats_shown.pdf

Since being advanced to ANB we have continued to show actively in TICA.

During the 2014/2015 show season we showed 32 individual cats, in 17 shows, in 6 different Regions.

The breed group is enthused about the 2015/2016 show season.

We will continue to encourage breeders and owners to show in more regions.

Introducing both judges and the public to our breed.

SAVANNAH BREED REPORT
SHOW YEAR 2014-2015

The Savannah breed continues to maintain an established and strong presence in the show hall during its third year in Championship, with several championship wins for our breed!

In the year 2014, there were 1484 Savannahs registered. Thus far, there are 688 registered Savannahs for the year 2015; satisfying the minimum of 25 additional cats registered per year as stated in rule 33.8.15.1

A total of 40 Savannah cats, kittens, and alters were shown in 8 regions and 30+ cat shows, easily satisfying the requirement of rule 33.8.15.2 asking for a minimum of 10 individual cats of the breed to be shown in at least 15 rings and at least 3 regions. Several members of the Savannah Breed Committee have shown 9 Savannahs during the show year 2014-2015 in four different regions: GL, SW, MA and MP.

Rule 33.8.15.3 asks our breed group to have a minimum of 5 TICA members in at least 3 regions actively breeding Savannahs. In our Breed Committee alone, each of the seven Savannah Breed Committee members have produced litters in varying regions (GL, SW, MA, and MP).

Savannahs continue to make their presence known in the show hall. Not only is our first International Winner, Halestone Midnight Hunter (bred and owned by Breed Committee member Sandy Hale) actively showing successfully again for the year 2015, she was ranked 20th Best Alter of the Year Internationally for 2014-2015. In addition, Donna Lawver of the Breed Committee has enjoyed breeding and proudly showing several champion cats in the GL region for 2014-2015, including: Supreme Grand Champion Summerwood Mystic Monty, Quad Grand Champion Summerwood Mystic Ria, Supreme Grand Champion Summerwood Maximus, and Regional Winner Supreme Grand Champion Summerwood Ria's Cody! Paige Hiemier of the Breed Committee also bred and showed Regional Winner Champion Agato Orion Warrrior Prince in the MA region for 2014-2015.

Establishing a Savannah Breed Mentors group on Facebook has proven to be a great resource for many new and older Savannah breeders alike as a source to share information and advice about breeding, health, the breed standard and a myriad of other topics. In addition, there are several Facebook groups where members of the Breed Committee are active participants offering advice and support. The Savannah Cat Chat Forum is another successful format with several active participants of our Breed Committee.

The Savannah Rescue Team continues to provide avenues for cats surrendered via adoption, fostering or return to the original breeder. Savannah Rescue finds most breeders of Savannahs will take back cats of their own breeding or will assist owners who can no longer keep their cat in finding them a new home. There are over 11,000 members on the Savannah Cat Rescue Yahoo group waiting to adopt, and only a handful of cats available per given year (generally 15 or less). We do not see an increase in the numbers of cases of Rescue cats this year vs past years...proof that Savannah breeders take care to ensure their kittens are placed in homes for the life of the cat!

There are no health concerns to report at this time. Overall, we believe the Savannah is a very healthy breed of cat, and Savannah breeders will continue to monitor concerns and selectively utilize only the healthiest of breeding stock to ensure future health for our breed.

In conclusion, the Savannah continues to maintain a solid and growing base of owners, breeders and admirers. We are proud of the progress and growth our breed has shown in this 3rd year of Championship!

Pamela Flachs, Savannah Breed Committee Chair

SERENGETI BREED COMMITTEE REPORT
JUNE 2015

All of the members of the Serengeti Breed Group want to thank the Board for acknowledging our work over many years to create this breed. We are committed to continuing our efforts to meet and exceed the requirements for Championship status.

Serengeti Cats continue to be popular in many regions of the world with expanding activity in the UK and Europe and some interest developing in Australia and New Zealand.

A summary of our breed's litter numbers and registrations includes the following:

Total Serengeti litters since inception – 328 litters up from 318 a year ago with 10 breeders in 5 regions
Total individual Serengetis registered since inception of the breed – 509 up from 479 a year ago.

The breed section lists 11 members however I am aware there are several more TICA members that should join the section including some registering litters with TICA. I will be strongly encouraging them to join the section and to plan to start showing their cats and kittens.

Serengetis continue to be shown in TICA with the number of cats gradually increasing each year. Getting cats to the shows continues to be our biggest challenge. Individuals are showing them in the UK and Europe in other associations. I will be concentrating on getting these individuals actively involved in TICA during the coming year. It is my plan to work towards qualifying for Championship status during the year that starts in May of 2016.

Serengetis continue to attract the interest of cat publications . Serengetis also are featured in the new UK published book – Beauty of the Cat. During the coming year I will be developing a Facebook page which is called Serengeti Cat Fanciers Worldwide .. a page for breeders, exhibitors and owners

I would like to thank our breed advisor, Bobbie Tullo, for her continued unwavering support our effort to create the Serengeti Cat.

Respectfully submitted

Karen Sausman
Breed Group Chair

Rules Comments on Lykoi Advancement – PNB to ANB

A) I've reviewed the packet and all seems to be in order, except for the TICA members in good standing... I'm not sure how we are to know which breeders are TICA members in good standing (there are several names that are unique on the list of breeders provided and on the letter of intent) – does anyone check this?

B) My only concern is we really don't know yet if it's even a viable breed - there don't seem to be Lykoi to Lykoi breedings yet (it is planned once they expand the gene pool).

C) I agree, it seems bizarre that the Lykoi is requesting advancement when they are not even breeding Lykoi to Lykoi yet. Not to be pessimistic, but in my experience, advancing through the new breed program is always a numbers game, and in this case, since crossing a Lykoi with permissible outcrosses advances their codes they are able to play the game. It is up to the discretion of the BOD to hold back advancement if they feel they are not ready,

D) They have been doing Lykoi to Lykoi breedings. Brittney and her husband have just had another litter.

I really think that is something for Genetics to decide, if they are viable or not, which I think they are based on the number of cats I've seen at shows.

E) Although the application meets the criteria, if the only Lykoi to Lykoi breedings are just restricted to Brittney and Johnny, then it is, in my opinion, a fair point to raise.

Name of Breed: Lykoi (LY)

33.7.1 Requirements. A Preliminary New Breed Class Breed may apply for Advanced New Breed status upon completion of the following:

33.7.1.1 At least 1 year has passed since the breed was first advanced to Preliminary New Breed Class Breed status.

Date (meeting) advanced to PNB: August 28, 2014

33.7.1.2 At least 100 cats, which have attained the age of 8 months (at the time of application), are registered with TICA; of these, at least fifty (50) must either correspond to requirements for the assigned registration category for Championship or have a registration code such that the offspring could be eligible for Championship.

List cats by name and registration number (code + six digits - i.e. SBT 010101).

33.7.1.6 Submission of an Electronic Application for Acceptance as an Advanced New Breed Class to each member of the Genetics Committee and Rules Committee at least 90 days prior to the board meeting at which approval is sought. Any proposed modifications to a previously approved standard must be submitted with the application. Following approval of proposal by the Genetics and Rules Committee, the application must be submitted by the Working Group Chair to the TICA Executive Office at least 60 days prior to the Board Meeting for inclusion in the agenda. Any comments of the Genetics or Rules Committees must be included. The application must include the following:

33.7.1.6.1 A Letter of Intent to apply for approval as an Advanced New Breed Class Breed, signed by at least ten TICA members in good standing;
Include a list of name, and addresses in the application packet.

33.7.1.6.2 A proposed breed standard with permissible outcrosses, if any, ***approved by the Rules and Genetics Committees;***
Include as a separate document in the application packet.

33.7.1.6.3 A proposed breeding program with any proposed changes;
Include outline of breeding program in the application packet.

33.7.1.6.4 A processing fee of \$50;
Include copy of DAR or other proof of payment (i.e. PayPal receipt, credit card receipt) in application packet.

33.7.1.7. A Notice of Intent to Apply for Advancement to Advanced New Breed Class Status must be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.

Date submitted for publication in the TREND: January 21, 2015

At the meeting of the Board where application is made: Salzburg Austria September 2-4, 2015

33.7.1.8 Make a formal presentation including photographs, illustrations, statistics, health and breeding reports, representatives of the breed and any other relevant material.

Lykoi Cat (LY)

The Lykoi is a natural mutation from the wild domestic cat population. The breed has a unique color pattern which makes the hair coat roan. It is also partially hairless. The combination of the color pattern and partial hairlessness gives the Lykoi a werewolf appearance.

Head:	40 total
Muzzle/Chin/Nose:	12
Shape:	10
Ears:	8
Eyes:	6
Profile:	3
Neck:	1

Body:	30 total
Torso:	7
Musculature:	7
Legs/Feet:	6
Boning:	6
Tail:	4

Coat:	30 total
Texture (Density):	15
Color/Pattern:	10
Length:	5

Categories: Traditional

Divisions: Solid

Colors:

Black only. Other colors are allowed for breeding, but not showing. Every cat will have the amelanistic(roan) pattern in the coat.

Permissible Outcrosses:

Solid black Domestic Shorthair

Natural additions:

Due to the limited gene pool available, any cat naturally born to have the sparse hairless and intermixed amelanistic hair(roan), regardless of

show standard, can be used for breeding only. They can be used in showing if they meet the standard.

Head:

Shape: Modified wedge with rounded contours from nose to cheeks to ears. Slightly rounded forehead. Slightly longer than wide.

Ears: Large, wide at the base and pointed on the tips. Set high on the head, vertical and erect. Hairless with some sparse hair on outer surface allowed.

Eyes: Large, walnut shaped, slanting upward with an open expression. The rims are hairless giving the appearance of white eye liner. Gold color preferred.

Muzzle/Chin/Nose: Muzzle is medium in length; fleshy with gently rounded hairless whisker pads and a definite whisker break. Muzzle ends with a well-developed chin aligned vertically with the nose, having a rounded appearance; full but neither projecting nor receding. Nose is hairless and leathery to the touch, slightly rounded down at the end. The hairlessness gives the appearance of wearing a mask when connected to the hairless areas of the eyes.

Profile: A concave curve from brow to bridge.

Neck: Medium length. Neither thin nor overly muscular.

Body:

Torso: Foreign type.

Musculature: Lithe, slender. Having solid weight, not excessive bulk.

Boning: Medium

Legs/Feet: Legs and feet are sparsely haired. Medium boning; medium length. Feet are medium in size and oval shaped. Toes are long in appearance.

Tail: Tail is shorter than body and tapers to a point.

Coat:

Length: Short to medium length.

Texture: Partially hairless; NOT dense. Undercoat is minimal; longer guard hairs cover body. Amount of coat will vary depending on cycle of hair. Coat resembles the look of an opossum coat. Soft to the touch.

Color/Pattern: 30% to 70% range of dark black from root to tip hair intermixed with white amelanistic from root to tip hair with 50/50 being ideal. White hair is dispersed over the body and not focalized. Legs and feet are sparsely haired and can be hairless.

General Description:

Lykoi is an ancient Greek word that means wolf. Lykoi come in many colors, but only solid black roan is allowed to show. When one looks straight into the face, the cat has the appearance of the mythical werewolf. The Lykoi cat is a partially hairless cat that can be almost entirely hairless to almost completely coated, depending on the cycle of hair. The hair coat is unique in appearance that it resembles the coat of an opossum when mostly coated.

The Lykoi cat is a natural mutation that has been reported intermittently over the past few years. The Breed has been started from two separate sibling litters in 2011. The Lykoi cat is very friendly and demands attention from people. Most people consider them unattractive when they first see them, but then want to do nothing but hold them when they recover from the first impressions. Some people, after seeing them, want a little wolf.

Lockets: Allow

Allowances:

- Hairlessness varies from almost completely hairless to almost completely coated during phases of hair growth.
- Eyes to be smaller in proportion to head in cats less than 8 months old.
- Allow for stud jowls in males.
- Males may be substantially larger than females
- Pigmentation spots to full tanning can occur when exposed to sunlight.

Penalize:

More than sparse undercoat.

Withhold all Awards(WW):

Absence of hairless face mask
Any base color other than black. No amelanistic hair (roan). Fully coated.

Temperament must be unchallenging; any sign of definite challenge shall disqualify.

The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm.

In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications:

a cat that bites (216.9), a cat showing evidence of intent to deceive (216.10), adult whole male cats not having two descended testicles (216.11), cats with all or part of the tail missing, except as authorized by a board approved standard (216.12.1), cats with more than five toes on each front foot and four toes on each back foot, unless proved the result of an injury or as authorized by a Board approved standard (216.12.2), visible or invisible tail faults **if Board approved standard requires disqualification** (216.12.4), crossed eyes **if Board approved standard requires disqualification** (216.12.5), total blindness (216.12.6), markedly smaller size, not in keeping with the breed (216.12.9), depression of the sternum or unusually small diameter of the rib cage itself (216.12.11.1). See Show Rules, ARTICLE SIXTEEN for more comprehensive rules governing penalties and disqualifications.

Harlingen, Texas 78551

Re: Lykoi Cat

Dear Fate and TICA Board Members;

Living in the Southeast I have been very fortunate to have had the opportunity to handle quite a few Lykoi in various stages of development.

The breeders heading up the Lykoi program are dedicated and responsible members of TICA and have done a thorough job of documenting, promoting and teaching both judges and the general public about these cats.

As a judge, I always look forward to seeing and handling the Lykoi at the shows. There is something special about them. I have watched their

progression from the beginning and I feel they are more than ready to go to their next step, Advanced New Breed. During that time I am confident that the breed committee will fine tune whatever is asked of them, making it an easy transition to Championship status.

Speaking as a show manager at my recent March 2015 show in Cocoa, Florida, we very successfully featured the Lykoi. We had 900 spectators walk through

our door and, without exaggeration, at least half of them immediately asked to see the “wolf cat.” You could hardly walk through the area that we had dedicated to the Lykoi presentation. The breeder was most gracious in answering questions, allowing people to pet her cats, and very satisfied spectators left the show singing the praises of the friendliness of the cats and the people presenting them. This was our first time having a show in this area and I attribute a good part of our gate came specifically to see the Lykoi.

The breed is a natural mutation unlike any other breed and I hope the board will vote to advance them to ANB status in September.

Sincerely,

Rene Knapp

Rene Knapp
Provisional Allbreed Judge and
Mystical Moon Cat Club show manager

Dear Alex,

I have been a TICA member since 2012 and have been breeding and exhibiting Cornish Rex for over 15 years.

At the present time the CR breed committee is inactive and myself, Joy Ruby and Peggy Williamson are asking for appointment to complete this committee so it is an active and working committee. I would like to fill the position of Breed Chair if that is acceptable. I am therefore asking if you would be so kind as to ask for my appointment at the upcoming BOD meeting in September.

Regards,

Karen Wilkins

Dear Mike,

I am respectfully asking to be added to this committee. I will pay the fee and meet the requirements prior to the TICA Annual, just in case.

Sincerely, Jamie Christian

Hello Board Members,

I would like to first thank all of the you for allowing us to present this beautiful breed to you and of course many thanks to the founders also to let us participate in the development of the Lykoi.

I am very excited to be able to share this amazing breed with my community and thrilled that people are positively reacting to them. The TICA NW region has shown so much excitement to meet us at the show and with this new breed I have been able to understand so much more about the TICA. I have gaine knowledge about TICA rules and also how to educate the pet owners about a new breed very different and unique.

The Gobbles did start a very complex program and I am very happy to be part of it and I am willing to give everything I have to make this breed reach championship status. Through my work with the Lykoi breed I have been able to introduce pet owners to TICA and they too have attended TICA cat shows with their Lykoi. My pet were so thrilled with showing my cats in preliminary breed and both want to continue showing becausr they loved the attention of the public and their weekends were fantastic.

Our hard work with outcrossing the Lykoi cats has helped increase the health and gene pool for the breed. These cats are so loved and I can not wait to show them in Championship against all of the top cats in the world.

Catherine Cloutier

From: Cheryl Kerr, Lykoi Breeder

To: TICA Board Members

Dear Board Members,

I am one of the 18 breeders that are working with the Lykoi breed and dedicated to achieve our goal to reach Championship in TICA. I have personally been a part of this group since its inception. I have registered 6 litters to date and presented my Lykoi in the show halls since 2012.

My first meeting with a Lykoi after only experiencing them virtually left me feeling mesmerized. I kept looking back as though this creature simply could not be real; expecting it to change. It was hard to stay focused and not to continue to stare as the unique quality they possess captures you in a way one can only understand through physical experience.

Since then I have spent day in and day out living with the Lykoi as a part of my family. Our cats have been featured in books, magazines, catalogs and even on television around the world. We have gained popularity and recognition far beyond what we could ever imagine. I recently had a family come to my home from the Czech Republic allowing them to make their dream of meeting the breed come true. Cumulatively we have almost 30,000 Face Book fans around the world who continually reach out to us in hopes that we can attend a local show or pet expo in their area.

The bottom line is that the Lykoi is one of the most unique Natural Mutation breeds that have come along in decades. Our breeding protocol has provided the breed with more genetic diversity and a widespread gene pool to reduce our Co efficient of inbreeding well below that of many Championship breeds to date. Personally I have had people from as close as the west coast of Florida to Vermont and across the world contact me with possible new mutations of which I have been able to obtain 3 new lines to add to our gene pool; with more on the way. This is a direct reflection of our ever growing popularity around the world.

I have heard in passing that people are hesitant to accept the fact that a new breed could possibly meet all of the required expectations within the minimum time frames afforded by the TICA rules of advancement but this breed has proven through hard work and the dedication of many it can be done in a healthy and genetically diverse way. It is my pleasure to submit this letter to the TICA Board Committee and to travel all the way to Austria to assist with the presentation of our breed and request for advancement from PNB to Advanced New Breed. Although this travel requires me to take time and money away from my job and family I feel in my heart of hearts that this breed can do nothing more than improve and draw its way into the heart and homes of cat lovers around the world.

Thanks you all for your time and the opportunity to share my wonderful world of the Lykoi Cat.

Cheryl Kerr

To Whom It May Concern,

My partner and I are writing to inform you of our positive experiences with the Preliminary New Breed called the Lykoi. We are actively showing an altered 7 month kitten and have received quite a positive response from spectators loving the unique look, to judges stating how the breed is already developing to the standard, and fellow exhibitors showing interest of adopting their own Lykoi to show. We hand out numerous pamphlets at each show regarding the breed history and have even received inquiries regarding pet kitten availability, although we are not currently breeding. I feel the Lykoi is a breed that differs from anything currently accepted in Championship and can go even further in TICA if allowed to do so. We have been asked on more than one occasion to showcase our cats at various shows to help with gate and publicity. We have been lucky enough to be able to watch the Lykoi from the beginning and see them as a robust cat without any known major health defects or anomalies that stricken other breeds.

Respectfully,

Matt Geren TICA# 1128939 & Chris Shelton TICA# 1128942

TICA Board
Executive offices

Dear Board members,

This letter of intent is for the Lykoi breed to let you know some of my experiences with my standard Lykoi "Bareenough's Channing Magic Mike" and from breeding my F1 Lykoi cats.

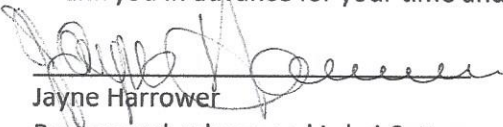

I have had nothing but positive remarks about my Lykoi Channing. Channing has been at 3 TICA shows in Arcadia, California. At these shows there have been from 1 to 3 Lykoi's for the judges to look at. The judges there have been very interested in this exciting new breed and have had many positive comments. Some of those comments were that they love the "look", the Werewolf look that they all exhibit and also, the demeanor of them. Some have stated that the fur is much softer than the appearance, they love the consistent yellow eyes and how sweet their personalities seem to be.

At the TICA shows there is always a large group of the public that come to the show "just for the Lykoi". There is a huge interest from the public about these cats. They are impressed, and surprised at how differently they look from the average cat. So many people have expressed interest in purchasing one as a pet. The public has commented on how they look like "Monkeys", and how they love the Roan color in the fur. I have had repeated emails asking to get on a "waiting list" to become a Lykoi pet owner. I have many friends who are Sphynx breeders and they have expressed interest in these Lykoi cats because of the different aspects these cats have that are so unusual such as; molting and the hairlessness on the mask of the face and ears.

I was asked by a friend of mine who owns a dog boarding facility to attend her booth with Channing at the Pet Expo in April here in Costa Mesa, California to help bring potential clients to her booth. Channing (my standard Lykoi) was quite a hit there. Everyone wanted to touch him and feel if the fur was coarse. So many people said they have read about them in Newspapers, magazines ect. Most had already heard of them.

I have bred 2 F1 Lykoi who I co-owned with Johnny Gobble. That was a wonderful experience. Especially waiting to see who will "lykoi" out and who will stay furred since this was an F1 breeding only 25% could possibly be standard Lykoi. When Channing began to turn into a Lykoi I took many pictures of the process. There were weekly changes in him from hair loss to later hair growth. A few months later the process would begin again. I and others were just amazed at the process. I would post pics on social media and have several comments on the unusualness of this process. I have also noticed how healthy these cats are. That has been another wonderful part of this breed.

Thank you in advance for your time and consideration in the push forward to Advance New Breed,

Jayne Harrower

Rules Comments on Lykoi Advancement – PNB to ANB

A) I've reviewed the packet and all seems to be in order, except for the TICA members in good standing... I'm not sure how we are to know which breeders are TICA members in good standing (there are several names that are unique on the list of breeders provided and on the letter of intent) – does anyone check this?

B) My only concern is we really don't know yet if it's even a viable breed - there don't seem to be Lykoi to Lykoi breedings yet (it is planned once they expand the gene pool).

C) I agree, it seems bizarre that the Lykoi is requesting advancement when they are not even breeding Lykoi to Lykoi yet. Not to be pessimistic, but in my experience, advancing through the new breed program is always a numbers game, and in this case, since crossing a Lykoi with permissible outcrosses advances their codes they are able to play the game. It is up to the discretion of the BOD to hold back advancement if they feel they are not ready,

D) They have been doing Lykoi to Lykoi breedings. Brittney and her husband have just had another litter.

I really think that is something for Genetics to decide, if they are viable or not, which I think they are based on the number of cats I've seen at shows.

E) Although the application meets the criteria, if the only Lykoi to Lykoi breedings are just restricted to Brittney and Johnny, then it is, in my opinion, a fair point to raise.

Harlingen, Texas 78551

Re: Lykoi Cat

Dear Fate and TICA Board Members;

Living in the Southeast I have been very fortunate to have had the opportunity to handle quite a few Lykoi in various stages of development.

The breeders heading up the Lykoi program are dedicated and responsible members of TICA and have done a thorough job of documenting, promoting and teaching both judges and the general public about these cats.

As a judge, I always look forward to seeing and handling the Lykoi at the shows. There is something special about them. I have watched their

progression from the beginning and I feel they are more than ready to go to their next step, Advanced New Breed. During that time I am confident that the breed committee will fine tune whatever is asked of them, making it an easy transition to Championship status.

Speaking as a show manager at my recent March 2015 show in Cocoa, Florida, we very successfully featured the Lykoi. We had 900 spectators walk through

our door and, without exaggeration, at least half of them immediately asked to see the “wolf cat.” You could hardly walk through the area that we had dedicated to the Lykoi presentation. The breeder was most gracious in answering questions, allowing people to pet her cats, and very satisfied spectators left the show singing the praises of the friendliness of the cats and the people presenting them. This was our first time having a show in this area and I attribute a good part of our gate came specifically to see the Lykoi.

The breed is a natural mutation unlike any other breed and I hope the board will vote to advance them to ANB status in September.

Sincerely,

Rene Knapp

Rene Knapp
Provisional Allbreed Judge and
Mystical Moon Cat Club show manager

Johnny and Brittney Gobble

Cheryl Kerr

Lykoi Cat (LY)

The Lykoi is a natural mutation from the wild domestic cat population. The breed has a unique color pattern which makes the hair coat roan. It is also partially hairless. The combination of the color pattern and partial hairlessness gives the Lykoi a werewolf appearance.

Head:	40 total
Muzzle/Chin/Nose:	12
Shape:	10
Ears:	8
Eyes:	6
Profile:	3
Neck:	1

Body:	30 total
Torso:	7
Musculature:	7
Legs/Feet:	6
Boning:	6
Tail:	4

Coat:	30 total
Texture (Density):	15
Color/Pattern:	10
Length:	5

Categories: Traditional

Divisions: Solid

Colors:

Black only. Other colors are allowed for breeding, but not showing. Every cat will have the amelanistic(roan) pattern in the coat.

Permissible Outcrosses:

Solid black Domestic Shorthair

Natural additions:

Due to the limited gene pool available, any cat naturally born to have the sparse hairless and intermixed amelanistic hair(roan), regardless of

show standard, can be used for breeding only. They can be used in showing if they meet the standard.

Head:

Shape: Modified wedge with rounded contours from nose to cheeks to ears. Slightly rounded forehead. Slightly longer than wide.

Ears: Large, wide at the base and pointed on the tips. Set high on the head, vertical and erect. Hairless with some sparse hair on outer surface allowed.

Eyes: Large, walnut shaped, slanting upward with an open expression. The rims are hairless giving the appearance of white eye liner. Gold color preferred.

Muzzle/Chin/Nose: Muzzle is medium in length; fleshy with gently rounded hairless whisker pads and a definite whisker break. Muzzle ends with a well-developed chin aligned vertically with the nose, having a rounded appearance; full but neither projecting nor receding. Nose is hairless and leathery to the touch, slightly rounded down at the end. The hairlessness gives the appearance of wearing a mask when connected to the hairless areas of the eyes.

Profile: A concave curve from brow to bridge.

Neck: Medium length. Neither thin nor overly muscular.

Body:

Torso: Foreign type.

Musculature: Lithe, slender. Having solid weight, not excessive bulk.

Boning: Medium

Legs/Feet: Legs and feet are sparsely haired. Medium boning; medium length. Feet are medium in size and oval shaped. Toes are long in appearance.

Tail: Tail is shorter than body and tapers to a point.

Coat:

Length: Short to medium length.

Texture: Partially hairless; NOT dense. Undercoat is minimal; longer guard hairs cover body. Amount of coat will vary depending on cycle of hair. Coat resembles the look of an opossum coat. Soft to the touch.

Color/Pattern: 30% to 70% range of dark black from root to tip hair intermixed with white amelanistic from root to tip hair with 50/50 being ideal. White hair is dispersed over the body and not focalized. Legs and feet are sparsely haired and can be hairless.

General Description:

Lykoi is an ancient Greek word that means wolf. Lykoi come in many colors, but only solid black roan is allowed to show. When one looks straight into the face, the cat has the appearance of the mythical werewolf. The Lykoi cat is a partially hairless cat that can be almost entirely hairless to almost completely coated, depending on the cycle of hair. The hair coat is unique in appearance that it resembles the coat of an opossum when mostly coated.

The Lykoi cat is a natural mutation that has been reported intermittently over the past few years. The Breed has been started from two separate sibling litters in 2011. The Lykoi cat is very friendly and demands attention from people. Most people consider them unattractive when they first see them, but then want to do nothing but hold them when they recover from the first impressions. Some people, after seeing them, want a little wolf.

Lockets: Allow

Allowances:

- Hairlessness varies from almost completely hairless to almost completely coated during phases of hair growth.
- Eyes to be smaller in proportion to head in cats less than 8 months old.
- Allow for stud jowls in males.
- Males may be substantially larger than females
- Pigmentation spots to full tanning can occur when exposed to sunlight.

Penalize:

More than sparse undercoat.

Withhold all Awards(WW):

Absence of hairless face mask
Any base color other than black. No amelanistic hair (roan). Fully coated.

Temperament must be unchallenging; any sign of definite challenge shall disqualify.

The cat may exhibit fear, seek to flee, or generally complain aloud but may not threaten to harm.

In accordance with Show Rules, ARTICLE SIXTEEN, the following shall be considered mandatory disqualifications:

a cat that bites (216.9), a cat showing evidence of intent to deceive (216.10), adult whole male cats not having two descended testicles (216.11), cats with all or part of the tail missing, except as authorized by a board approved standard (216.12.1), cats with more than five toes on each front foot and four toes on each back foot, unless proved the result of an injury or as authorized by a Board approved standard (216.12.2), visible or invisible tail faults **if Board approved standard requires disqualification** (216.12.4), crossed eyes **if Board approved standard requires disqualification** (216.12.5), total blindness (216.12.6), markedly smaller size, not in keeping with the breed (216.12.9), depression of the sternum or unusually small diameter of the rib cage itself (216.12.11.1). See Show Rules, ARTICLE SIXTEEN for more comprehensive rules governing penalties and disqualifications.

Paula Jones, Phoenix Arizona
Wolfsbane Lykoi
Rex 'n Ready Cornish Rex
The TICA Board

Dear Board members,

I am one of the 18 breeders working with the Lykoi breed. I am honored to be part of this dedicated group working to achieve our goal to reach championship in TICA. I am new to TICA but not new to showing and breeding cats. I have a successful Cornish Rex program in CFA that I've been working on for the last 15 years. I have put that all on hold to help establish this amazing new breed.

I remember the first time I saw a Lykoi posted on Facebook, I thought it was the most unusual cat I had ever seen, I was surprised to find that it was a natural mutation like the Cornish Rex. I became involved late in 2013 with my first Lykoi, Gobsgobblins Moonlight Mavis, a bi-color spay. I am so impressed with this breed and their wonderful, quirky temperament. I enjoy taking Mavis along when showing my Cornish, she is always on her best behavior, allowing the public to get their Lykoi fix. Judges, other breeders, and spectators alike have expressed a huge amount of interest in this new and wonderful breed, I enjoy talking to the public and already have quite the list of new families wanting pet kittens.

I have registered both my catteries with TICA, queened and registered my first Lykoi litter and have attended my first TICA show with my show standard Lykoi boy, Nada Moonlight Magic, I look forward to attending more shows in the future. Please consider Championship status for this fantastic new breed, the people involved are both dedicated and hard working,

Thank you,

Paula Jones, a proud member of "Team Lykoi"

Name of Breed: Lykoi (LY)

33.7.1 Requirements. A Preliminary New Breed Class Breed may apply for Advanced New Breed status upon completion of the following:

33.7.1.1 At least 1 year has passed since the breed was first advanced to Preliminary New Breed Class Breed status.

Date (meeting) advanced to PNB: August 28, 2014

33.7.1.2 At least 100 cats, which have attained the age of 8 months (at the time of application), are registered with TICA; of these, at least fifty (50) must either correspond to requirements for the assigned registration category for Championship or have a registration code such that the offspring could be eligible for Championship.

List cats by name and registration number (code + six digits - i.e. SBT 010101).

33.7.1.3 At least 25 litters have been registered with TICA;
Include copies of litter registrations in application packet.

See attached sheet for total list

33.7.1.4 At least 15 TICA members in good standing, in at least five different regions are actively breeding the breed.
List member and region:

1. Johnny Gobble - 1084466 SouthEast	2. Brittney Gobble - 1091003 SouthEast
3. Cherylyn Kerr - 1080186 SouthEast	4. Patti Thomas - 1035062 MidAtlantic
5. Jayne Harrower - 1084965 SouthWest	6. Catherine Cloutier - 1081481 NorthWest
7. Christine Boulanger - 1031232 SouthernEurope	8. Brook Arnold - 1114264 SouthEast
9. Melisande Inness-Brown - 1154970 MidPacific	10. Elana Mavea - 18680 SouthernEurope
11. Wendy Barnes - 1151249 SouthCentral	12. Paula Jones - 18005 SouthWest
13. Perviz Alexander - 1088239 Western Europe	14. Stephanie Harris - 1162234 SouthEast
15. Ben Gremmels - 1162296 Great Lakes	16. See Attached sheet for total list

33.7.1.5 At least 25 unique individual cats of the breed have been evaluated in TICA shows. (NOTE: Kittens and alters may be included in this total but each cat only counts once toward the total, regardless of how many times the cat has been shown.)

List cat by name, registration number (code + six digits) and show:

1. GobsGobblins Loki Fayette Neofianna -B3P 022814 Kansas Katz Wichita, Kansas 09/13/14

33.7.1.6 Submission of an Electronic Application for Acceptance as an Advanced New Breed Class to each member of the Genetics Committee and Rules Committee at least 90 days prior to the board meeting at which approval is sought. Any proposed modifications to a previously approved standard must be submitted with the application. Following approval of proposal by the Genetics and Rules Committee, the application must be submitted by the Working Group Chair to the TICA Executive Office at least 60 days prior to the Board Meeting for inclusion in the agenda. Any comments of the Genetics or Rules Committees must be included. The application must include the following:

33.7.1.6.1 A Letter of Intent to apply for approval as an Advanced New Breed Class Breed, signed by at least ten TICA members in good standing;
Include a list of name, and addresses in the application packet.

33.7.1.6.2 A proposed breed standard with permissible outcrosses, if any, ***approved by the Rules and Genetics Committees***;
Include as a separate document in the application packet.

33.7.1.6.3 A proposed breeding program with any proposed changes;
Include outline of breeding program in the application packet.

33.7.1.6.4 A processing fee of \$50;
Include copy of DAR or other proof of payment (i.e. PayPal receipt, credit card receipt) in application packet.

33.7.1.7. A Notice of Intent to Apply for Advancement to Advanced New Breed Class Status must be published in the TICA TREND at least 120 days prior to the meeting at which the application for advancement will be heard, and which invites comments about the breed to be forwarded to the Executive Office.

Date submitted for publication in the TREND: January 21, 2015

At the meeting of the Board where application is made: Salzburg Austria September 2-4, 2015

33.7.1.8 Make a formal presentation including photographs, illustrations, statistics, health and breeding reports, representatives of the breed and any other relevant material.

Amend UCD terminology: MASK (Parkinson)

Rationale:

The current definition of MASK is not only poorly written, it is restrictive and does not take into consideration other aspects of facial markings that may define the uniqueness of a breed.

MASK:

Delete current definition: ~~Darker color covers the face, including whisker pads and may be connected to the ears by tracings.~~

And replace by:

Mask refers to frontal facial features that may differ from the normally accepted markings of a cat's face.

- **Mask may refer to the darker color around the eyes, nose, muzzle and chin of a pointed, sepia or mink cat and which may be connected to the ears by tracings.**
- **Mask may refer to areas of the face that are hairless or sparsely haired around the eyes, nose, muzzle, and chin tip giving a ghostlike appearance to the face. The sparsely haired or hairless areas are connected.**

Addition of “Amelanistic” to UCD (Gobble)

Rationale:

Not provided but Rules understand this addition has been discussed with Genetics

Add new definition to UCD:

Amelanistic: The absence of melanin (the pigment responsible for color) in a cats coat, skin, or eyes. Amelanistic hair and skin will be white, while amelanistic eyes will be pink. Albinism is a disorder that causes extreme amelanistic characteristics where all parts of a cat are affected.

Add “Roan” to UCD (Gobble)

Rationale:

I would like to submit a request to have a new definition added to the UCD. The definition has been edited from the previous submission. I had assistance with the genetics committee in the edited definition.

As the Acting Chair of the Lykoi breed group, I am submitting this request on behalf of the breeders of the Lykoi. The Lykoi is a new breed as the result of a natural mutation from the domestic shorthair. The gene causes the hair coat to have a different color than any other breed of cat. The kittens are born with their normal coat color (black, blue, tabby, white, etc.) After a short time (usually 2-3 weeks), hair begins to fall loose and a new coat returns. This new coat will have the original color intermixed with white hair. On close examination, the normal hair is a solid color from root to shaft, and the white hair is white from root to shaft. This color pattern has not been described in cats before. There can be a mix of 30% white all the way to 70% white depending on the cat.

This unique color pattern has judges concerned about the color we call our cats. The cats that are entered in shows are solid black at birth. This intermix of white hairs give the cats a gray to blue coloration that has judges questioning our color determination.

If we can call them black roan with a definition of roan, many of these questions would not exist and we can show our cats with the correct color. Roan is a color that occurs in horses, dogs, cows, and guinea pigs, but not in cats. This definition would allow us to use the proper terminology from other animals in our cats. I propose the following edited addition to the UCD:

I think this addition would help the judges and breeders understand the coloring of the Lykoi. I am open to any suggestions of changes the definition that would better suit TICA. My wife, Brittney, will be attending the annual meeting in Austria to present the Lykoi for advancement to Advance New Breed. Any other questions not answered in emails can be addressed to her about the unique color. Thank you for your time.

Johnny Gobble, DVM

Definition:

Roan: A unique coloration in which solid white hairs are thickly interspersed with normal pigmented hairs throughout a cat's coat. The color in the pigmented hairs defines the description for roan (i.e. black roan, blue roan, red roan, etc.).
